On The Other Hand Death:

On the Other Hand, Death Richard Stevenson, 2008 When the giant Millpond Company finds its plans for a mega shopping mall stymied by the refusal of an elderly lesbian couple to sell their home the ladies are subjected to ugly vandalism and frightening death threats The powerful director of Millpond in turn hires Don Strachey Albany's only gay detective to protect the ladies find the culprits and clear the corporate name Strachey accepts with misgivings that deepen rapidly as kidnapping extortion and murder darken the lives of Albany's gay community Written at the beginning of AIDS activism *On the Other Hand Death* is a time capsule of gay life as it existed in smaller towns in America An author's note is included

The Evolution of Death Stanley Shostak, 2006-10-12 Argues that death is not unchanging but rather has evolved over time Death, Distress, and Solidarity Robert Kastenbaum, 2019-03-25 In preparing this special issue of *Omega The Journal of Death and Dying* we choose to consider solidarity in a somewhat larger perspective than the other one usually adopted by a clear majority of social support studies This perspective gives priority to microscopic immediate direct transactions between a focal individual the one affected by the prospect of soon to come death and two classes of people those included in the core of that person's personal network and the health care personnel treating and accompanying soon to die people many of them already advanced into agony

Death, Desire, and Loss in Western Culture Jonathan Dollimore, 1998 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **Death and the Maiden** Brigid Burke, 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA's U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation National Summaries United States. National Office of Vital Statistics, 1945 **Contemplating**

Suicide Gavin J Fairbairn, Gavin Fairbairn, 2003-09-02 Suicide is devastating It is an assault on our ideas of what living is about In *Contemplating Suicide* Gavin Fairbairn takes fresh look at suicidal self harm His view is distinctive in not emphasising external facts the presence or absence of a corpse along with evidence that the person who has become a corpse intended to do so It emphasises the intentions that the person had in acting rather than the consequences that follow from those actions Much of the book is devoted to an attempt to construct a natural history of suicidal self harm and to examine some of the ethical issues that it raises Fairbairn sets his philosophical reflections against a background of practical experience in the caring professions and uses a storytelling approach in offering a critique of the current language of self harm along with some new ways of thinking Among other things he offers cogent reasons for abandoning the mindless use of terms such as attempted suicide and parasuicide and introduces a number of new terms including cosmic roulette which he uses to describe a family of human acts in which people gamble with their lives By elaborating a richer model of suicidal self harm than most philosophers and most practitioners of caring professions currently inhabit Fairbairn has contributed to the development of understanding in this area Among other things a richer model and vocabulary may reduce the likelihood that those who come into contact with suicidal self harm will believe that familiarity with the physical facts of the matter the actions of the suicider and the presence or absence of a corpse is always sufficient to justify a definite conclusion about the nature of the self harming act [The Oxford Handbook of Philosophy of Death](#) Ben Bradley, Fred Feldman, Jens Johansson, 2015 This Handbook consists of 21 new essays on the nature and value of death the relevance of the metaphysics of time and personal identity for questions about death the desirability of immortality and the wrongness of killing *Deep Comedy* Peter J. Leithart, 2006 In this short but stimulating work Peter Leithart draws upon insights from history theology philosophy and literature to connect two of the most glorious and unique truths of Christianity its hopeful eschatology and its doctrine of a dynamic personal Trinity First Leithart shows that the biblical view of history is essentially comic and hopeful in contrast to the classical Greco Roman view which is essentially and irredeemably tragic Then he develops the same point by examining Greek philosophy and its descendants including postmodernism in contrast to orthodox Trinitarian theology Finally he shows how the tragic and comic worldviews have been reflected in literature with discussions of Greek epics and two Shakespearean plays The result is a tour through three thousand years of intellectual history that celebrates the living power of orthodoxy **Summa Theologica: Third Part of the Second Part** St. Thomas Aquinas, 2018-02-06 The fourth volume in this epic and classic undertaking by one of the most notable theologians of the Roman Catholic Church This volume features theological considerations towards such topics as Virtues Fortitude and Temperance Graces and States of Life and other important topics that we often take for granted in our thinking in the church and in worship towards God These topics must be carefully considered if we are to ever have a deep understanding and love of the one true God and his son Jesus Christ **The Coming Death** Richard F. Calichman, 2022-02-01 The Coming Death explores the question of death and

mortality in several key texts of East Asian literature and cinema By exposing the specific fields of Japanology and Sinology to the more general discourse of thanatology Richard Calichman aims to define death more expansively on the basis of loss and disappearance Typically death is understood to be purely separate from life where death is life is not and where life is death is not Yet this view fails to account not only for the frequency with which living individuals encounter the death of others but also and far more radically for the disturbing fact that life in its unfolding remains at each moment open to the possibility of its own destruction In this regard Calichman argues death must be conceived not simply as an actual event but even more fundamentally as a general possibility without which life itself could not develop At issue is how death reveals the emptiness of all identity which demands that life and death no longer be conceived as purely oppositional If mortal death can appear at the very origin of life then the fullness or presence of life is at each instant threatened by the possibility of its negation Through a reading of the works of such major artistic and intellectual figures as Kurosawa Akira Tsai Ming-liang Lu Xun and Takeuchi Yoshimi *The Coming Death* argues for a fundamental rethinking of mortality

Death Marc Trabsky, 2023-07-20

This book examines how legal institutions reify the value of death in the twenty-first century Its starting point is that biological innovations have extended life to such an extent that death has become an epistemological problem for legal institutions It explores how legal definitions of death are subject to the governing logic of economisation how legal technologies for registering a death reshape what kind of deaths are counted during a pandemic and how technologies for recycling cadaveric tissue problematise the legal status of the corpse The question that unites each chapter is how legal institutions respond to technologies that bring death before their laws The book argues for an interdisciplinary approach informed by the writings of Georges Bataille Wendy Brown Georges Canguilhem and Michel Foucault to understand how legal epistemologies are increasingly disrupted challenged and countered by technologies that repurpose death to extend, nourish and foster human life It contends that legal theorists and social scientists need to rethink doctrinal perspectives of law when theorising how law defines the moment of death shapes what kind of deaths count and recycles the debris of the dead This book will appeal to a broad international readership with research interests in critical theory political theory legal theory or death studies and it will be particularly useful for teachers and students who are searching for an accessible entry point to the study of the intersections between law and death

Existential and Spiritual Issues in Death Attitudes Adrian Tomer,Grafton T. Eliason,Paul T. P. Wong,2007-07-31 Existential and Spiritual Issues in Death Attitudes provides an in depth examination of death attitudes existentialism and spirituality and their relationships a review of the major theoretical models clinical applications of these models to issues such as infertility bereavement anxiety and suicide and an introduction to meaning management Awakened by Death Christiana N. Peterson,2020-10-27 Fear of death is nearly as inevitable as death itself so we have used modern medicine and the funeral industry to create an ever increasing distance between us and our mortality But these interventions have stripped death of its mystery and mysticism Taking readers on a journey through history guided by the mystics Awakened by Death shows us how our psychological and spiritual relationship to death has changed over time and helps us to reclaim a healthy engagement with our own mortality Ultimately readers will gain a deeper understanding of how facing the fear of death and embracing rather than eschewing its mysteries can help us live richer fuller lives **The Language of Life and Death** William Labov,2013-08-01 We share the experience of others through the stories they tell of the crucial events in their lives

This book provides a rich range of narratives that grip the reader's attention together with an analysis of how it is done. While remaining true to the facts, narrators use linguistic devices to present themselves in the best possible light and change the listener's perception of who is to blame for what has occurred. William Labov extends his widely used framework for narrative analysis to matters of greatest human concern: the danger of death, violence, premonitions, and large-scale community conflicts. The book also examines traditional epic and historical texts from Herodotus and the Old Testament to Macaulay, showing how these literary genres draw upon the techniques of personal narratives. Not only relevant to students of narratology, discourse, and sociolinguistics, this book will be rewarding reading for anyone interested in the human condition. *A New Sublime*

Piero Boitani, 2021-03-23 In a book as bewitching and entertaining as a novel, a renowned Italian literary critic uncovers the unexpected, extraordinary modernity of the classics. Piero Dorfles. In *A New Sublime*, literary critic Piero Boitani reveals the timeless beauty and wisdom of ancient literature, highlighting its profound and surprising connections to the present. Ranging from Homer to Tacitus, with Thucydides, Aristotle, Sophocles, Cicero, and many others in between, Boitani's fresh and inspiring insights remind us of the enduring importance and beauty of the classics of the Western canon. Boitani explores what the classics have to say about the mutability and fluidity of identity and matter, the power and position of women in society. He also looks closely at their depictions of force and subjugation, fate and free will, the ethical life, hospitality, love, compassion, and mysticism. Through it all, he shows how the classics can play active roles in our contemporary lives. *Dying and Death in*

18th-21st Century Europe. Corina Rotar, Marius Rotar, 2014-03-17 This book features the second selection of the most representative papers presented at the international conference Dying and Death in 18th-21st Century Europe (ABDD), a traditional scientific event organized every year in Alba Iulia, Romania. The book invites the reader on a fascinating journey across the last three centuries of Europe, using the concept of death as a guide. The past and present realities of the complex phenomena of death and dying in Romania, the United Kingdom, Lithuania, Serbia, Macedonia, Poland, USA, Germany, Sweden, Finland, and Italy are dealt with by authors from varying backgrounds, including historians, sociologists, psychologists, priests, humanists, anthropologists, and doctors.
