A Companion to the Philosophy of History and Historiography Aviezer Tucker, 2011-06-28 A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the

main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists *The Principles of History* R. G. Collingwood, 1999-03-18 Published here for the first time is much of a final and long anticipated work on philosophy of history by the great Oxford philosopher and historian R G Collingwood 1889 1943 The original text of this uncompleted work has only recently been discovered It is accompanied by further shorter writings by Collingwood on historical knowledge and inquiry selected from previously unpublished manuscripts held at the Bodleian Library Oxford All these writings besides containing entirely new ideas discuss further many of the issues which Collingwood famously raised in *The Idea of History* and in his *Autobiography* The volume includes also two conclusions written by Collingwood for lectures which were eventually revised and published as *The Idea of Nature* but which have relevance also to his philosophy of history A lengthy editorial introduction sets these writings in their context and discusses philosophical questions to which they give rise The editors also consider why Collingwood left *The Principles of History* unfinished at his death and what significance should be attached to the fact that it contains no reference to the idea of historical understanding as re enactment This volume will be a landmark publication not just in Collingwood studies but in philosophy of history generally **An Introduction to the Philosophy of History**

Kierkegaard on the Philosophy of History G. Patios, 2014-04-17 History doesn't have to mean only an effort to know the past It can be instead according to Kierkegaard a willful and personal choice regarding the creation of the future Kierkegaard offers us an amazing new approach to the problem of what is history and who makes it

Philosophy of History William H. Dray, 1964 The Philosophy of History Friedrich von Schlegel, 1835 *Philosophy of History* Georg Wilhelm Friedrich Hegel, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1902 edition Excerpt PREFACE TO THE SECOND EDITION The changed form in which Hegel's lectures on the Philosophy of History are reissued suggests the necessity of some explanation respecting the relation of this second edition both to the original materials from which the work was compiled and to their first publication The lamented Professor Gans the editor of the Philosophy of History displayed a talented ingenuity in transforming Lectures into a Book in doing so he followed for the most part Hegel's latest deliveries of the course because they were the most popular and appeared most adapted to his object He succeeded in presenting the lectures much as they were delivered in the winter of 18H and this result might be regarded as perfectly satisfactory if Hegel's various readings of the course had been more uniform and concordant if indeed they had not rather been of such a nature as to supplement each other For however great may have been Hegel's power of condensing the wide extent of the phenomenal world by Thought it was impossible for him entirely to master and to present in a uniform shape the immeasurable material of History in the course of one semester In the first delivery in the winter of 18ff he was chiefly occupied with unfolding the philosophical Idea and showing how this constitutes the real kernel of History and the impelling Soul of World Historical Peoples In proceeding to treat of China and India he wished as he said himself only to show by example how philosophy ought to comprehend the character of a nation and this could be done more easily in the case of the stationary nations of the East than in that of peoples which have a bonafide history and a historical development of character A warm predilection made

Philosophy of History Jouni-Matti Kuukkanen, 2020-11-12 With a recent surge of interest in the field a volume taking stock of important theoretical shifts in the philosophy of history is greatly needed A Philosophy of History fills this gap by weaving together a range of perspectives on the field which finds itself at a crossroads and asks where it is headed in the 21st century The book takes a concerted effort to go beyond the customary three fold distinction between the speculative analytic and narrativist approaches in philosophy of history It considers what comes after the enduring narrativist turn Chapters incorporate cutting

edge discussions on the relevance of contemporary political phenomena such as populism the relation between science and history pragmatism and the paradigmatic challenge of the Anthropocene It also re evaluates the continued relevance of major historical thinkers like Leibniz and R G Collingwood and the endlessly fresh insights they can offer to key debates in the field today Philosophy of History is a much needed reappraisal of the philosophy and theory of history offering an up to date overview of major developments in the field and addressing the pressing questions of where to go next in a post analytical post narrativist world
