What guides us when our world is changing Discover the path to deeper meaning and purpose through depth psychology and classical thought How did we get to this crossroads in history And will we make it through individually and as a species We all assumed that learning rationality and good intentions would prove enough to bring us to the promised land says Dr James Hollis But they haven't and won't Yet what we also do not recognize sufficiently is that this human animal is equipped for survival In time as we have seen of life's other insolubles we grow large enough to contain what threatened to destroy us Dr Hollis's readers know him as a penetrating thinker who brings profound insight and sophistication to the inner journey In *Living Between Worlds* he broadens his lens to encompass the relationship between our inner struggles and the rapidly shifting realities of modern human existence You will learn to invoke the tools of depth psychology classical literature philosophy dream work and myth to gain access to the resources that supported our ancestors through their darkest hours Through these paths of inner exploration you will access your locus of knowing an inner wellspring of deep resilience beyond the ego always available to guide you back to the imperatives of your soul Though many of the challenges of our times are unique the path through for us personally and collectively will always rely on our measureless capacity for creativity wisdom and connection to a reality larger than ourselves Here you will find no easy answers or pat reassurances Yet within the pages of *Living Between Worlds* you will encounter causes for hope We can find what supports us when nothing supports us Hollis teaches By bearing the unbearable we go through the desert to arrive at a nurturing oasis we did not know was there      [The Cycle of Life](#) Erel Shalit, 2011-09-25 The art of life is the most distinguished and rarest of all the arts C G Jung CW 8 par 789 *The Cycle of Life* explores the patterns that unfold over the course of our lives as we set out to find our place in the world in our efforts to live authentically and in our search for home that place within ourselves that can so easily be neglected or disregarded in this fast paced modern world In the first half of life the task of the young traveler is to depart from home to adventure out into the world to find his or her own individual path However in the second half we find ourselves on what often amounts to a very long journey in search of home In many a tale the hero for instance Gilgamesh sets off on his road to find life's elixir while other stories such as the *Odyssey* revolve around the hero's long and arduous journey home Many are also familiar with the journey of Dante who at the very beginning of his *Divine Comedy* finds himself Midway along the journey of our life The archetypal journey of life is constantly reenacted in the never ending process of individuation We find ourselves returning to this venture repeatedly every night as we set out on our voyage into the landscape of our unconscious Many dreams begin by being on the way for instance I am on my way to I am driving on a road that leads into the desert I am walking through one room after the other in a long corridor like building I am walking towards my office but it looks different than in reality I walk on the pavement and on the opposite side of the street someone seems to be following me I go down

into an underground parking I am in my car but someone I don't know is driving I have to go to the place from where I came

*Living with Borrowed Dust* James Hollis, Ph.D., 2025-03-04 From bestselling author and Jungian psychoanalyst Dr James Hollis comes a new collection of essays exploring life's challenges and celebrating evolving questions on life's mysterious journey In a world seemingly set up for distraction life can often feel like it's dividing you not only from others but also from yourself Yet even within the cacophony of life deep down you can intuit your own soul that part of you that knows you better than you know yourself and that offers direction and moments of solace even amid uncertainty This disconnect from your inner source of guidance leads to self doubt but in *Living with Borrowed Dust* Hollis provides a reminder that you carry within what you're so anxiously looking for from a crazed world Behind the noise and beneath the surface something in the soul of each of us cries out he says While we may be distracted from this summons the soul keeps asking that we pay attention These summonses come to us through symptoms dreams and restless nights Gaining insight into these inner callings the meaning within our challenges and the courage it takes to move through our journey can help us feel better connected through difficult times Here Hollis reveals tools you can utilize to engage in this conversation with the soul In this collection of essays readers are guided to reflect deeply on questions that explore and celebrate life's challenges in our evolving world including how happiness is attained how to approach your dreams the divided soul of America the fear and fascination with death and the conflict between good and evil With each new insight Hollis aims to steer you toward an individual self determining path zeroing in on the need for personal accountability and decisive growth Using analytic psychology as a vehicle for the recovery of a spiritual life in a secular age you'll find inspiration for reconnecting with deep wisdom bringing renewed purpose and dignity to this mysterious journey called life **Sudden Death Beautiful Life** Jaime
