**A Breath After Drowning** Alice Blanchard, 2018-04-10 The stunning psychological thriller from the award winning author of the acclaimed *Trace of Evil* *Darkness Peering* and *The Breathtaker* She'll need all her wits about her and then some to eventually do battle with one of the most memorable genre villains since Hannibal Lecter *Wall Street Journal* Sixteen years ago Kate Wolfe's young sister Savannah was brutally murdered Forced to live with the guilt of how her own selfishness put Savannah in harm's way Kate was at least comforted by the knowledge that the man responsible was on death row But when she meets a retired detective who is certain that Kate's sister was only one of many victims of a serial killer Kate must face the possibility that Savannah's murderer walks free Unearthing disturbing family secrets in her search for the truth Kate becomes sure that she has discovered the depraved mind responsible for so much death But as she hunts for a killer a killer is hunting her

**Drowning by Accident** Elizabeth Meinhard, 2022-02-15 *Drowning By Accident* explains why it is so easy to drown where accidents happen and how to save lives by early rescue and resuscitation More than 600 people die by drowning in Britain every year Swimming is promoted as a particularly safe form of exercise so that swimmers forget or ignore the dangers of frigid lakes swollen rivers incoming tides or outgoing rip currents Drowning accidents take place because we don't recognise water as a hostile environment We overestimate the strength and endurance of our bodies and underestimate the power and deceptiveness of water Year after year victims lose their lives in typical drowning accidents often sinking so quickly and silently that nearby family friends and onlookers fail to notice the tragedy taking place close beside them Babies drown in baths Toddlers drown in garden ponds School children fall off rafts Teenagers strike too far from the shore Pensioners wade into rivers to save their dogs Victims often die within minutes of sinking beneath the surface A quarter of those who reach hospital alive will also die while others survive with severe permanent brain damage This means that it is vitally important for parents grandparents teachers lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place
