One Cosmic Instant John A. Livingston, 1974      **The Cosmic Instant** John A. Livingston, 1973      Endgame, Volume 1  
Derrick Jensen, 2011-01-04 The long awaited companion piece to Derrick Jensen's immensely popular and highly acclaimed works *A Language Older Than Words* and *The Culture of Make Believe* Accepting the increasingly widespread belief that industrialized culture inevitably erodes the natural world *Endgame* sets out to explore how this relationship impels us towards a revolutionary and as yet undiscovered shift in strategy Building on a series of simple but increasingly provocative premises Jensen leaves us hoping for what may be inevitable a return to agrarian communal life via the disintegration of civilization itself      Ideal Minds Michael Trask, 2020-11-15 Following the 1960s that decade's focus on consciousness raising transformed into an array of intellectual projects far afield of movement politics The mind's powers came to preoccupy a range of thinkers and writers ethicists pursuing contractual theories of justice radical ecologists interested in the paleolithic brain seventies cultists and the devout of both evangelical and New Age persuasions In *Ideal Minds* Michael Trask presents a boldly revisionist argument about the revival of subjectivity in postmodern American culture connecting familiar figures within the seventies intellectual landscape who share a commitment to what he calls neo idealism as a weapon in the struggle against discredited materialist and behaviorist worldviews In a heterodox intellectual and literary history of the 1970s *Ideal Minds* mixes ideas from cognitive science philosophy of mind moral philosophy deep ecology political theory science fiction neoclassical economics and the sociology of religion Trask also delves into the decade's more esoteric branches of learning including Scientology anarchist theory rapture prophecies psychic channeling and neo Malthusianism Through this investigation Trask argues that a dramatic inflation in the value of consciousness and autonomy beginning in the 1970s accompanied a growing argument about the state's inability to safeguard such values Ultimately the thinkers Trask analyzes John Rawls Arne Naess L Ron Hubbard Hal Lindsey Philip Dick Ursula Le Guin Edward Abbey William Burroughs John Irving and James Merrill found alternatives to statism in conditions that would lend intellectual support to the consolidation of these concepts in the radical free market ideologies of the 1980s      *Other Ways of Knowing* John Broomfield, 1997-06-01 A powerful exploration of diverse world views long ignored by the Western world that suggests possible solutions to the environmental and social problems that face us in the next millennium Our civilization is in crisis Overpopulation and overconsumption have jeopardized our survival and the great promises of technology have resulted in environmental disaster This situation says author John Broomfield results from the serious error the Western world makes in equating one way of knowing with all ways of knowing mistaking a thin slice of reality for the whole Broomfield argues that the necessary wisdom to chart a new course is available to us from many sources the sacred traditions of our ancestors the spiritual traditions of other cultures spirit in nature feminine ways of being contemporary movements for personal social and ecological transformation and the very source of our current crisis science itself *Other Ways of Knowing* shows us the

wisdom of other cultures who may hold the knowledge necessary to arrest our headlong race toward destruction From the ancient Polynesian navigational technique of remote viewing to the formative causation theory of Rupert Sheldrake Other Ways of Knowing examines perceptions and practices that challenge the narrow perspective of the Western world and provide answers to the complex questions that face us as we move into the next millennium **The Case for Animal Experimentation** Michael Allen Fox,1986-01-01 Discusses animal rights and the morality of animal experiments suggests ethical guidelines for the use of animals as test subjects and identifies irrational attitudes towards animals **Toward a Transpersonal Ecology** Warwick Fox,1995-08-17 *Revisioning Environmental Ethics* Daniel A. Kealey,1990-01-01 Using the psychohistorical schema of Jean Gebser Kealey analyzes the positions of environmental ethicists and concludes that the first four of Gebser s structures of consciousness are inadequate to meet the present crisis Drawing on Plotinus Aurobindo and Max Scheler Kealey outlines an adequate fully integral ecological ethic *The American Hunting Myth* Ron Baker,1985 *Library of Congress Catalog* Library of Congress,1970 *Contemporary Authors* Scot Peacock,Terrie M.
