North Vietnam's 1972 Easter Offensive Stephen Emerson, 2020-04-30 A history of the military campaign that set the stage for the end of the Vietnam War By the end of 1971 in what Hanoi called the American War and at the height of the Cold War the fighting had dragged on for eight years with neither side gaining a decisive advantage on the battlefield and talks in Paris to the end the war were going nowhere While the United States was steadily drawing down its ground forces in South Vietnam Washington was also engaging in a grand effort to build up and strengthen Saigon's armed forces to the point of self sufficiency Not only had the ranks of Saigon's forces swelled in recent years but they were now being equipped and trained to use the latest American military equipment Perhaps now was the time for Hanoi to take one last gamble before it was too late With the rumble of men and mechanized equipment breaking the early morning silence some 40 000 North Vietnamese troops advanced across the demilitarized zone into South Vietnam on March 30 1972 in what would become the largest conventional attack of the war Ill prepared and poorly led South Vietnamese troops in the far north were quickly routed in the face of the ensuing onslaught Likewise coordinated attacks across the Cambodian border northwest of Saigon and into the central highlands in the coming weeks gained steam and in due course as many as 200 000 men along with T 54 55 main battle tanks 130mm towed artillery ZSU 57 self propelled ant aircraft guns and hundreds of trucks and armored personnel carriers were engaged across three battlefronts Soon Saigon's beleaguered forces were being pushed to the brink of defeat in what appeared to be the end for the Thieu government Ultimately however the timely and massive intervention by U S and South Vietnamese air power along with the bravery of some South Vietnamese commanders and their American advisers saved the day Hanoi's gamble had failed and in its wake lay up to 100 000 dead and South Vietnamese roads littered with the smoldering wrecks of North Vietnamese military equipment Moreover it would be another three years before the North had recovered enough to try again

Informatively presents an episode of the Vietnam War that has otherwise lapsed into obscurity crowded out of the history books by North Vietnam's ultimate victory against the U S and South Vietnamese military Midwest Book Review The lessons from Hanoi's military victory which are discussed in this book still echo in today's U S military intervention in Afghanistan so this book's account is

Vietnam's Final Air Campaign Stephen Emerson,2019-08-30 An account of the last American bombardments that took place over North Vietnam while peace talks struggled in Paris Includes maps and photos On March 30 1972 some thirty thousand North Vietnamese troops along with tanks and heavy artillery surged across the demilitarized zone into South Vietnam in the opening round of Hanoi's Easter Offensive By early May South Vietnamese forces were on the ropes and faltering Without the support of U S combat troops who were in their final stage of withdrawing from the country the Saigon government was in danger of total collapse and with it any American hope of a negotiated settlement to the war In response President Richard Nixon called for an aggressive sustained bombardment of North Vietnam Code named Operation Linebacker I the interdiction effort sought to stem the flow of men and materiel southward as well as sever all outside supply lines in the first new bombing of the North Vietnamese heartland in nearly four years To meet the American air armada North Vietnamese MiG fighters took to the skies and surface to air missiles and anti aircraft fire filled the air from May to October over Hanoi and Haiphong With the failure of its Easter Offensive to achieve military victory Hanoi reluctantly returned to the negotiating table in Paris However as the peace talks teetered on the edge of collapse in December 1972 Nixon played his trump card Operation Linebacker II The resulting twelve day Christmas bombing campaign unleashed the full wrath of American air power This book tells the story of these decisive campaigns and how they led finally to a ceasefire agreement

Air Force thinking than the air campaigns over North Vietnam Two decades later in the deserts of Southwest Asia American airmen were able to avoid the gradualism that cost so many lives and planes in the jungles of Southeast Asia Readers should come away from this book with a sympathetic understanding of the men who bombed North Vietnam Those airmen handled tough problems in ways that ultimately reshaped the Air Force into the effective instrument on display in the Gulf War This book is a sequel to Jacob Van Staaveren's Gradual Failure The Air War over North Vietnam 1965-1966 which we have also declassified and are publishing Wayne Thompson tells how the Air Force used that failure to build a more capable service a service which got a better opportunity to demonstrate the potential of air power in 1972 Dr Thompson began to learn about his subject when he was an Army draftee assigned to an Air Force intelligence station in Taiwan during the Vietnam War He took time out from writing To Hanoi and Back to serve in the Checkmate group that helped plan the Operation Desert Storm air campaign against Iraq Later he visited Air Force pilots and commanders in Italy immediately after the Operation Deliberate Force air strikes in Bosnia During Operation Allied Force over Serbia and its Kosovo province he returned to Checkmate Consequently he is keenly aware of how much the Air Force has changed in some respects how little in others Although he pays ample attention to context his book is about the Air Force He has written a well informed account that is both lively and thoughtful

First In, Last Out John D Howard, 2023-06-14 A Vietnam veteran recounts his experience through two tours of duty early in the conflict and then in its final stages Fresh out of West Point John Howard arrived for his first tour in Vietnam in 1965 the first full year of escalation when U S troop levels increased dramatically from 23 000 to 184 000 When Howard returned for a second tour in 1972 troop strength stood at 24 000 and would dwindle to a mere fifty the following year He thus participated in the very early and very late stages of American military involvement in the Vietnam War Howard's two tours the first as a platoon commander and member of an elite counter guerrilla force and the second as a senior advisor to the South Vietnamese provide a fascinating lens through which to view not only one soldier's experience in Vietnam but also the country's
