One Fight More:

Every One Fight Simon Woodington, 2014-06-02 What becomes of a tough talkin All Star Runner when she loses all pride and her beloved father School is a passable distraction but even her backup plan can't overcome her stubborn anger Entrapped by an illegal street fight and forced to turn pro Masurani is pitted against a tank wrestling cyborg for the secret to her father's death **Poems of sorrow, death and immortality**, 1912 *The North Pole: Its Discovery in 1909 Under the Auspices of the Peary Arctic Club* Robert Edwin Peary, 1986-01-01 It may not be inapt to liken the attainment of the North Pole to the winning of a game of chess in which all the various moves leading to a favorable conclusion had been planned in advance long before the actual game began It was an old game for me a game which I had been playing for twenty three years with varying fortunes Always it is true I had been beaten but with every defeat came fresh knowledge of the game its intricacies its difficulties its subtleties and with every fresh attempt success came a trifle nearer what had before appeared either impossible or at the best extremely dubious began to take on an aspect of possibility and at last even of probability Every defeat was analyzed as to its causes in all their bearings until it became possible to believe that those causes could in future be guarded against and that with a fair amount of good fortune the losing game of nearly a quarter of a century could be turned into one final complete success It is true that with this conclusion many well informed and intelligent persons saw fit to differ But many others shared my views and gave without stint their sympathy and their help and now in the end one of my greatest unalloyed pleasures is to know that their confidence subjected as it was to many trials was not misplaced that their trust their belief in me and in the mission to which the best years of my life have been given have been abundantly justified But while it is true that so far as plan and method are concerned the discovery of the North Pole may fairly be likened to a game of chess there is of course this obvious difference in chess brains are matched against brains In the quest of the Pole it was a struggle of human brains and persistence against the blind brute forces of the elements of primeval matter acting often under laws and impulses almost unknown or but little understood by us and thus many times seemingly capricious freaky not to be foretold with any degree of certainty For this reason while it was possible to plan before the hour of sailing from New York the principal moves of the attack upon the frozen North it was not possible to anticipate all of the moves of the adversary Had this been possible my expedition of 1905 1906 which established the then farthest north record of 87° 6' would have reached the Pole But everybody familiar with the records of that expedition knows that its complete success was frustrated by one of those unforeseen moves of our great adversary in that a season of unusually violent and continued winds disrupted the polar pack separating me from my supporting parties with insufficient supplies so that when almost within striking distance of the goal it was necessary to turn back because of the imminent peril of starvation When victory seemed at last almost within reach I was blocked by a move which could not possibly have been foreseen and which when I encountered it I was helpless to meet And as is well known I and those with me were not only checkmated but very

nearly lost our lives as well But all that is now as a tale that is told This time it is a different and perhaps a more inspiring story though the records of gallant defeat are not without their inspiration And the point which it seems fit to make in the beginning is that success crowned the efforts of years because strength came from repeated defeats wisdom from earlier error experience from inexperience and determination from them all

Ohio Archæological and Historical Quarterly, 1900 *Oceans Apart* Penny Starns, 2014-02-01 From May 1940 the Children's Overseas Reception Board began to move children to Australia South Africa Canada and New Zealand for their own safety during the Second World War The scheme was extremely popular and over 200 000 applications were made within just four months while thousands of children were also sent to be privately evacuated overseas The sea

vacations as they became known had a variety of experiences After weeks at sea they began new lives thousands of miles away Letters home took up to twelve weeks to reach their destination and many children were totally cut off from their families in the UK While most were well cared for others found their time abroad a miserable difficult or frightening experience as they encountered homesickness prejudice and even abuse Using a range of primary source material including diaries letters and interviews Penny Starns reveals in heart breaking detail the unique and personal experiences of sea vacations as well as their surprising influence on international wartime policy in their power to elicit international sympathy and financial support for the British war effort *The Captivity and the Pastoral Epistles* James Strahan, 2024-02-25 Reprint of the original first published in 1883

With Poetry and Philosophy David Miller, 2008-12-18 Taking its point of initiation from the long standing dialogue between poetry and philosophy concerning their respective claims to contrasting orders of insight this book tackles issues relating to the differing conditions of knowledge and insights relating to language and thought imparted by modern poets and philosophers from Kant and Wordsworth to Adorno and Hardy The book draws on recent debates in literary theory and philosophy in order to outline a new dialogic approach for conducting comparative criticism and literary history The poets and the philosophers appear under configurations of reading that produce considerations that are unexpected yet strangely fitting

Old Rose and Silver Myrtle Reed, 2021-05-19 In *Old Rose and Silver* Myrtle Reed weaves a poignant tale that elegantly balances themes of love loss and the inexorable passage of time Set against the backdrop of an idyllic yet transient rural community Reed employs a lyrical prose style infused with rich descriptions and vivid imagery reminiscent of the Romantic tradition The narrative centers on the titular characters revealing the intricate tapestry of their lives and the relationships that bind them framed within the conventions of early 20th century American literature that often grapple with both nostalgia and modernity Myrtle Reed was a pioneering voice during a period when women were beginning to carve out their space in literature Born in 1874 in Illinois her experiences in a close knit family and her exposure to diverse social settings greatly influenced her writing Reed's personal struggles and her commitment to exploring the complexities of the female experience resonate deeply throughout her work providing a rich context to *Old Rose and Silver* which echoes her belief in the transformative power of love and companionship Readers seeking a blend of emotional depth and lyrical beauty will find *Old Rose and Silver* to be a compelling read Reed's compassionate character studies and her ability to evoke deep feelings make this novel not only an introspective journey but also an exploration of what it means to love and to let go This book is a must read for anyone interested in early feminist literature or the evolution of American prose
