Kincaid's Writings of History Antonia Purk, 2023-09-18 Jamaica Kincaid's works consistently explore how colonial history affects contemporary everyday lives Throughout her novels short fiction and non fictional essays Kincaid's texts engage with history through its medial representations which are starkly determined by colonial perspectives This study examines the entanglements of temporalities in current perceptions of the past and how literary text intervenes in historical consciousness

With a focus on the media text image and the human body the chapters of this book demonstrate how Kincaid's poetics of impermanence counter colonial representations of history with strategies of ambiguity repetition and redirection Kincaid's texts repeat and revise aspects of colonial history a process that decenters the totality of historical colonial ideology and replaces it with self-determined versions of the past through a multiplication of perspectives and voices

Women's Art of the British Empire Mary Ellen Snodgrass, 2019-11-11 The spread of the British Empire around the globe made vast changes in the relationship of peoples to places. Because the logistics of colonization varied countries passed in and out of the empire some rapidly and others slower or by degrees. Multiculturalism broadened the world's ability to read the English language and understand and adopt England's ethics and morals. Into the early twentieth century the posting of the British army and navy and the establishment of English style embassies and police forces in remote colonies freed single travelers especially women and children of the fear of violence or kidnap. As a result girls and women found outlets for creativity by exploring unfamiliar lands. In Women's Art of the British Empire Mary Ellen Snodgrass provides an overview of multiracial arts and crafts from Great Britain's Empire. Drawing upon primary sources this volume encompasses a wide variety of artistic accomplishment such as sewing and quilting basketry and weaving songwriting and dancing diaries memoirs editorials and speeches. Each entry includes a comprehensive bibliography of primary and secondary sources as well as further readings on the female artists and their respective crafts. With its informative entries and extensive examinations of artistic talent Women's Art of the British Empire is a valuable resource for students scholars and anyone interested in learning about the history of women and their artistic contributions. Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica Charmaine A. Nelson, 2017-07-05 Slavery, Geography and Empire in Nineteenth Century Marine Landscapes of Montreal and Jamaica is among the first Slavery Studies books and the first in Art History to juxtapose temperate and

tropical slavery Charmaine A Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest One could easily assume that nineteenth century Montreal and Jamaica were worlds apart but through her astute examination of marine landscape art the author re connects these two significant British island colonies sites of colonial ports with profound economic and military value Through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain s global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations The first study to explore James Hakewill s Jamaican landscapes and William Clark s Antiguan genre studies in depth it also examines the Montreal landscapes of artists including Thomas Davies Robert Sproule George Heriot and James Duncan Breaking new ground Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in 1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance Nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called New World while belying the oppression of slavery and indigenous displacement
