political studies      **Discrimination in an Unequal World** Miguel Angel Centeno, Katherine S. Newman, 2010-09 Is globalization making our world more equal or less? Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills. Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity. Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination. Tackling this challenge *Discrimination in an Unequal World* explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context. Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices. However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared. Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories.

**Dalit Politics in Contemporary India** Sambaiah Gundimeda, 2015-10-14 This book is a ground breaking intervention on Dalit politics in India. Challenging received ideas it uses a comparative framework to understand Dalit mobilisations for political power social equality and justice. The monograph traces the emergence of Dalit consciousness and its different strands in north and south India from colonial to contemporary times and interrogates key notions and events. These include the debate regarding core themes such as the Hindu Muslim cleavage in the north and caste in the south the extent to which Dalits and other backward castes OBC base their anti Brahminism on similar ideologies and why Dalits in Uttar Pradesh north India succeeded in gaining power while they did not do so in the region of erstwhile Andhra Pradesh south India where Dalit consciousness is more evolved. Drawing on archival material fieldwork and case studies this volume puts forward an insightful and incisive analysis. It will be of great interest to researchers and scholars of Dalit studies and social exclusion Indian politics and sociology.

*Developmental State and the Dalit Question in Madhya Pradesh: Congress Response* Sudha Pai, 2013-05-13 Dalit assertion has been a central feature of the states in the Hindi heartland since the mid 1980s leading to the rise of political consciousness and identity based lower caste parties. The present study focuses on the different political response of the Congress party to identity assertion in Madhya Pradesh under the leadership of Digvijay Singh. In Uttar Pradesh and Bihar in response to the strong wave of Dalit assertion that swept the region parties such as the Bahujan Samaj Party BSP and the Rashtriya Janata Dal RJD used strategies of political mobilisation to consolidate Dalit backward votes and capture state power. In Madhya Pradesh in contrast the Congress party and Digvijay Singh at the historic Bhopal Conference held in January 2002 adopted a new model of development that attempted to mobilise Dalits and tribals and raise their standard of living by providing them economic

empowerment This new Dalit Agenda constitutes an alternative strategy at gaining Dalit tribal support through of state sponsored economic upliftment as opposed to the political mobilisation strategy employed by the BSP in Uttar Pradesh The present study puts to test the limits of the model of state led development of the use of political power by an enlightened political elite to introduce change from above to address the weaker sections of society The working of the state is thus analysed in the context of the society in which it is embedded and the former s ability to insulate itself from powerful vested interests In interrogating this state led redistributive paradigm the study has generated empirical data based on extensive fieldwork and brought to the fore both the potentials and the limitations of using the model of development from above in a democracy It suggests that the absence of an upsurge from below limits the ability of an enlightened political elite that mans the developmental state to introduce social change and help the weaker sections of society Social, Political and Cultural Challenges of the BRICS Ribeiro, Gustavo Lins,Dwyer, Tom,2015-02-07 For the almost 40 years of its existence ANPOCS has contributed to introducing or consolidating new thematic areas in the academic agenda of debates in the Brazilian social sciences Commensurate with this history at the 37th Annual meeting hosted in guas de Lindoia S o Paulo in 2013 we organized a large International Symposium The BRICS and their social political and cultural challenges on the national and international levels There were six sessions of debates gathered under the umbrella of Development and public policies Social inclusion and social justice and Emerging powers and transformations in the international system followed by a final plenary session Around 30 anthropologists political scientists sociologists and researchers in international relations from Brazil Russia India China and South Africa met over three highly productive days As might be expected at ANPOCS the encounter was marked not only by the diversity of countries and disciplines but also by the theoretical and political diversity of the participants something already apparent in the composition of the Brazilian coordinators of the Symposium This book is just one tangible outcome of the papers and dialogues emerging from this encounter Like the Symposium the volume is divided into three sections Looking to address an international readership it is published in Portuguese and English
