New Testament Story David L. Barr, 1995 The thesis of this book is that every New Testament writing stands within a story even if it does not tell stories The approach allows readers to view the documents as vital elements in the lives of real persons The book maintains its focus on bringing the writings alive and shows how critical study enhances understanding of their meanings Its prime goal is teaching students to read these writings for themselves bridging the chasms of language history

and culture that separate them from us The latest methods of research are utilized in this quest but the focus always remains on the New Testament documents
