teach science using a variety of nonfiction text sets such as field guides reference books and narrative expository texts and replace individual lessons with a learning cycle format including hands on investigations readings directed discussion and problem solving Research based and teacher friendly Inquiring Scientists Inquiring Readers shows how inquiry can engage your students in reading nonfiction texts discussing important science concepts and writing to both develop understanding and share information Here are some of the book s special features Eight units covering life physical Earth and space science from Drip Drop Detectives Exposing the Water Cycle to Classroom Curling Exploring Forces and Motion to Beaks and Biomes Understanding Adaptation in Migrating Organisms Two additional units cover the nature of science All units have been classroom tested for effectiveness and align with the National Science Education Standards and the Common Core State Standards for English Language Arts Detailed scientific background common misconceptions associated with the content an annotated list of the texts in the text set safety considerations reproducible student pages and suggested assessments Authentic inquiry based contexts for reading writing and discussion through read alouds collaborative activities graphic organizers and writing prompts Inquiring Scientists Inquiring Readers will change the way you think about engaging your students The authors show that it s possible to integrate literacy into elementary level science instruction without sacrificing quality in either area Interdisciplinarity, Creativity, and Learning Bharath Sriraman,Viktor Freiman,Nicole

Lirette-Pitre,2009-06-01 Interdisciplinarity is increasingly viewed as a necessary ingredient in the training of future oriented 21st century disciplines that rely on both analytic and synthetic abilities across disciplines Nearly every curricular document or vision statement of schools and universities include a call for promoting creativity in students Yet the construct of creativity and giftedness across disciplines remains elusive in the sense that the prototypical examples of such work come from eminent scientists artists and mathematicians and little if any work has been conducted with non eminent individuals This monograph is an attempt to fill this gap by putting forth the view that interdisciplinarity and creativity are related constructs and that the cultivation of domain general creativity is possible Mathematics has historically been anchored to numerous disciplines like theology natural philosophy culture and art allowing for a flexibility of thought that is difficult to cultivate in other disciplines In this monograph the numerous chapters from Australia U S A Canada Cyprus Denmark and Japan provide a compelling illustration of the intricate connection of mathematics with literature paradoxes history technology and modeling thus serving as a conduit for interdisciplinarity creativity and learning to occur **Reading with**

Oprah Kathleen Rooney,2008-01-01 Adored by its fans deplored by its critics Oprah s Book Club has been at the center of arguments about cultural authority and literary taste since it began in 1996 Reading with Oprah explores the club s revolutionary fusion of books television and commerce and tells the engaging and in depth story of the OBC phenomenon Kathleen Rooney combines extensive research with a dynamic voice to reveal the club s far reaching cultural impact and its role as crucible for the clash between high and low literary taste Comprehensive and up to date the book covers the club

from its inception in 1996 through the Jonathan Franzen contretemps the surprising suspension in 2002 and after the club's return in 2003 the progression from great books to memoir New material includes an extensive look at the James Frey scandal and Oprah's turn to contemporary fiction including *The Road* and *Middlesex* Through close examination of Winfrey's picks and personal interviews with book club authors and readers Rooney demonstrates how the club that Barbara Kingsolver calls one of the best possible uses of a television set has according to Wally Lamb gotten people of all ages to read to read more and to read widely
