*Woman and Chinese Modernity* Rey Chow, We live in an era in which the critique of the West has become not only possible but mandatory Where does this critique leave those peoples whose entry into culture is precisely because of the history of Western imperialism already Westernized This is the primary question Rey Chow addresses in *Woman and Chinese Modernity* Book cover

Autobiography and Questions of Gender Shirley Neuman,2015-08-14 Originally published in 1991 Addressing the ways in which the ideology of gender and its social construction determine autobiographical self representations the essays here consider several women s works in the light of the social and historical conditions which enabled their production Some examine diaries as a feminine form and ask about the ways in which thematic content such as childbirth can or cannot be represented in diaries and public discourse at different historical junctures Others show the pressures of gender roles and how they have led to new genres in which self representation is often a refraction of the representation of others With the tools of gender theory the representation of hermaphroditism masculinity and male bodies is analysed and the ways in which gender intersects with racial sexual and class ideologies is also looked at in seeing autobiography as a form of agency in self construction      Married, Middlebrow, and Militant Teresa Mangum,1998 Examines the life and work of this daring nineteenth century author and women s rights advocate      **Body Work** Peter Brooks,1993 The desire to know the body is a powerful dynamic of storytelling in all its forms Peter Brooks argues that modern narrative is intent on uncovering the body in order to expose a truth that must be written in the flesh In a book that ranges widely through literature and painting Brooks shows how the imagination strives to bring the body into language and to write stories on the body From Rousseau Balzac Mary Shelley and Flaubert to George Eliot Zola Henry James and Marguerite Duras from Manet and Gauguin to Mapplethorpe writers and artists have returned in fascination to the body the inescapable other of the spirit Brooks s deep

understanding of psychoanalysis informs his demonstration of how the epistemophilic urge the desire to know guides fictional plots and our reading of them It is the sexual body that furnishes the building blocks of symbolization eventually of language itself which then takes us away from the body Yet mind and language need to recover the body as an other realm that is primary to their very definition Brooks shows how and why the female body has become the field upon which the aspirations anxieties and contradictions of a whole society are played out And he suggests how writers and artists have found in the woman s body the dynamic principle of their storytelling its motor force This major book entertains and teaches Brooks presumes no special knowledge on the part of his readers His account proceeds chronologically from Rousseau in the eighteenth century forward to contemporary artists and writers Body Work gives us a set of analytical tools and ideas primarily from psychoanalysis narrative and film studies and feminist theory that enable us to read modern narrative afresh

*Materiality in Modernist Short Fiction* Laura Oulanne, 2021-05-30 *Materiality in Modernist Short Fiction* provides a fresh approach to reading material things in modern fiction accounting for the interplay of the material and the cultural This volume investigates how Djuna Barnes Katherine Mansfield and Jean Rhys use the short story form to evoke the material world as both living and lived and how the spaces they create for challenging gendered social norms can also be nonanthropocentric spaces for encounters between the human and the nonhuman Using the unique knowledge created by literary works to spark new conversations between phenomenology cognitive studies and new materialisms complemented with a feminist perspective this book explores how literature can touch the basic experience of being in feeling and making sense of a material world that is itself alive and active From a sensitive reading of how three women used the material world to make their readers see feel and question the norms shaping our experience this volume draws a theory of reading affective materiality that illuminates modernism and the short story form but also reaches beyond them The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Natalia Ginzburg* Natalia Ginzburg, 2000-01-01 This collection brings together a variety of critical perspectives on Ginzburg s work for an English speaking audience What emerges is a

**Ornament and Class** Gary Huafan He, 2025-03-13 This groundbreaking study examines the intricate relationship between the rise of the nineteenth century bourgeoisie and the emergence of modern architecture exploring this connection through major intellectual and theoretical works while also analyzing their tangible manifestations in buildings and architectural projects Contrary to received narratives that describe the birth of modern architecture as primarily an aesthetic movement Ornament and Class argues that the social and political maturation of the European bourgeoisie as a distinct yet heterogeneous group influenced modern attitudes toward architecture at every level Bringing architecture into conversation with recent histories of the bourgeoisie in the social sciences the book considers how architecture was used as a tool to separate the modern bourgeoisie from the aristocratic and clerical forces above and the working classes below It explores how architects clients planners and administrators grappled with and dealt with ornament architecture and modernity from within the new realities of urban and global capitalism and shows how these realities serve as pedagogical touchstones that remain with us today Historians architecture scholars and students interested in modern architecture aesthetics and European history especially those focusing on the interplay between modern architecture and social development will find this book an invaluable resource

**Nineteenth-Century British Music Studies** Peter Horton, Bennett Zon, 2019-05-23 Originally published in 2003 and selected from papers given at the third biennial conference on Music in Nineteenth Century Britain this volume in common with its two predecessors reflects the interdisciplinary character of the topic The introductory essay by Julian Rushton considers some of the questions that are key to this area of study what is the nineteenth century what is

British music and did London influence the continent The essays that follow are divided into broad thematic groups covering aspects of gender church music national identity and local and national institutions This collection illustrates that while nineteenth century British music studies is still in its infancy as a field of research it is one that is burgeoning and contributing to our understanding of British social and cultural life of the period
