**Dimensions of Literacy** Stephen B. Kucer, 2014-02-03 This popular text now in its fourth edition unpacks the various dimensions of literacy: linguistic and other sign systems, cognitive, sociocultural, and developmental, and at the same time accounts for the interrelationships among them. Distinguished by its examination of literacy from a multidimensional and interdisciplinary perspective, it provides a strong conceptual foundation upon which literacy curriculum and instruction in school settings can be grounded. Linking theory and research to practice in an understandable, user-friendly manner, the text provides in-depth coverage of the dimensions of literacy, includes demonstrations and hands-on activities, examines authentic reading and writing events that reflect key concepts, and summarizes the concepts in tables and figures. Changes in the Fourth Edition: Addresses academic language, new literacies, multiliteracies, and their relationship to literacy learning; More fully develops the developmental dimension of literacy in separate chapters on adult mediation and learner construction; Expands the discussion of multimodal literacies; Extends and integrates the discussion of bilingualism and biliteracy throughout the text; Integrates instructional implications more fully throughout.

*Reading and Teaching* Richard Meyer, Maryann Manning, 2020-08-26 *Reading and Teaching* raises questions and provides a context for preservice and practicing teachers to understand and to reflect on the complex issues surrounding the teaching of reading in the schools. It presents real teachers in their classrooms, dialogues about that teaching, and exercises for further clarification. The purpose is to help teachers make informed choices about their teaching of reading. The text considers the different types of decisions teachers might make in the teaching of reading and the knowledge upon which they rely in making those decisions: not simply factual information about using certain materials and methods to teach reading, but also knowledge about the mind, the political climate, the broader social and cultural circumstances of their students and schools, and the communities in which they teach. *Reading and Teaching* is designed to engage teachers in beginning to evolve their own practical theories to help them explore and perhaps modify some basic beliefs and assumptions and to become acquainted with other points of view. Readers are encouraged to interact with the text and to develop their own perspective on the teaching of reading. This is the fifth volume in *Reflective Teaching and the Social Conditions of Schooling: A Series for Prospective and Practicing Teachers*, edited by Daniel P. Liston and Kenneth M. Zeichner. It follows the same format as previous volumes in the series.
