Understanding Canadian

Public Administration Gregory J. Inwood, 2025-03-07 Understanding Canadian Public Administration introduces students to both the theory and the practice of public administration in Canada. It surveys the basic elements of the field in a historical context but with close attention to contemporary issues and developments to emphasize the real day to day impacts of public administration. The text provides an overview of the field in the context of democratic government including a comparison of the roles of the private and public sectors. The real world of government is examined with a focus on how theoretical ideas are translated into practice. This fifth edition features updates on topical issues and new developments in the field including the impact of the Covid 19 pandemic on governmental policy and action as well as new and updated sections on Aboriginal self government, human resources, accountability, financial management and intergovernmental administrative relations. Understanding Canadian Public Administration invites students to examine the issues of public administration from their own viewpoints and through their own experiences, bringing the field to life and making it immediately relevant to their current context.

The Language of Organization Robert Ian Westwood, Stephen Linstead, 2001 Deals with issues such as power, knowledge and organizational discourse.

Disability, Mothers, and Organization Melanie Panitch, 2012-08-06 This book examines how and why mothers with disabled children became activists. Leading campaigns to close institutions and secure human rights, these women learned to mother as activists, struggling in their homes and communities against the debilitating and demoralizing effects of exclusion. Activist mothers recognized the importance of becoming advocates for change beyond their own families and contributed to building an organization to place their issues on a more public scale. In highlighting this under-examined movement, this book contributes to the scholarship on Disability Studies, Women's Studies, Sociology and Social Movement Studies.

Handbook of Research on Management and Organizational History Kyle Bruce, 2020-04-24 Emerging from what was a somewhat staid sub-discipline, there is currently a battle for the soul of Management and Organizational History (MOH) at the centre of which is a widespread concern that much recent work has been more about how one should or might do history rather than actually doing historical work. If ever there was a time for a new volume on MOH, this is certainly it.

Narrative Methods for Organizational & Communication Research David M. Boje, 2001-05-15 The book is a unique and excellent introduction to postmodern narrative analyses of Organization Studies. This book should succeed in putting the metaphorical cat amongst just about every metaphorical pigeon that might imaginably take flight within the organization and communication research arenas. Story time will never be the same again nor will interpretative research. Stewart Clegg, University of Technology Sydney. Timely and first rate. It nicely stretches a reader's thinking about the topic. Thomas Lee, University of Washington School of Business. David Boje is a pioneering theorist in organization studies and management. His book is yet another example of Boje's pioneering spirit and concern for exactitude. His scholarly account of narrative and antenarrative methods is both corrective and exploratory of how stories must be understood in terms of their own internal dynamics and not viewed as static entities. Boje's book is a magnificent start. A book that breaks new ground in

organizational analysis this is a must read for researchers and practitioners in the fields of organization and management studies Adrian Carr University of Western Sydney Boje masterfully shows how to analyze texts and ideas before they are reduced and fitted into the dominant ideological frameworks of the day He provides a powerful tool for achieving greater democracy in how we approach doing social science and liberates our capacity to make meanings for ourselves Paul Hirsch Northwestern University Kellogg Graduate School of Management This is an important book It is a major methodological contribution to critical postmodern studies of organizations and management It is essential reading for critical management scholars Robert P Gephart Jr University of Alberta School of Business David Boje has emerged as the leading postmodern thinker in management theory and organization science His prolific output lights the path for others to follow in a field awakening to the challenge of postmodern critical theory Updating and revising narrative theory for the prevailing postmodern condition Boje masterfully reconstructs the concepts and methods of storytelling as he subverts the dominant principles of modernist organization theory He offers a subtle and complex notion of narrative This impressive book should leave an indelible mark on management and organization studies Steven Best University of Texas El Paso An essential guide for academics and researchers needing to look at alternative discourse analysis strategies As a research tool narrative methods have become increasingly useful in organization studies where much research involves the interpretation of stories in some form This methodology can be applied where qualitative story analyses can help to assess interview newspaper or web document stories for research projects In this book Boje sets out eight analysis options that can deal with storytelling recognizing that stories in organizations can be self destructing flowing networking and not at all static In so doing he shows ways in which narrative methods can be supplemented by antenarrative methods where fragmented and collective storytelling can be interpreted A valuable resource that will be widely used in organizational or communications research for graduate level qualitative methods seminars and by researchers wanting to do story analysis David Boje is Professor at the New Mexico State University He is also on the editorial board of the journal Organization
