Reading Strands:

A Reading and Language Intervention for Children with Down Syndrome - Teacher's Handbook Kelly Burgoyne, Fiona Duff, Paula Clarke, Glynnis Smith, Sue Buckley, Margaret Snowling, Charles Hulme, 2012-12-11 The Reading and Language Intervention for Children with Down Syndrome RLI teaches language and literacy skills following evidence based principles adapted to meet the children's specific learning needs. It is designed for pupils with Down syndrome aged 5 to 11 years. The intervention is suitable for beginning readers through to those with reading ages up to 8 years and for students with a wide range of language abilities. Teaching is adapted to meet individual needs through initial assessments of skills and regular monitoring of progress. Together with two accompanying DVDs illustrating teaching techniques and a CD of resources, the handbook offers teachers and teaching assistants the detailed guidance, assessment tools and example teaching materials needed to implement the intervention.

Understanding and Teaching Reading Emerald Dechant, 2013-09-13 In the words of Aldous Huxley, "Every man who knows how to read has it in his power to magnify himself to multiply the ways in which he exists to make his life full, significant and interesting." Few people question the value of reading; in fact, most extol its virtues. As our culture becomes more complex, reading plays an increasingly greater role in satisfying personal needs and in promoting social awareness and growth. In the last 20 years, the teaching of this invaluable skill has focused so intensely on comprehension and prediction from context that it has lost sight of the significance of automaticity and fluency in the word identification process. Reading is a synthesis of word recognition and comprehension; thus, this text is about these basic processes and their integration. A common plea from teachers today is that research and psychology be translated into teaching behavior. Therefore, the aim of this book is twofold: one to identify, report, organize and discuss those bits of data, research and theory that are most relevant to the teacher's understanding of the reading process, and two to help educators to interpret and apply theory and research data to everyday classroom teaching as well as to the problems encountered frequently in developmental and remedial teaching.

Reading Under Control Judith Graham, Alison Kelly, 2015-09-29 Now in an updated third edition, this best-selling textbook introduces primary teachers to the key issues in how to teach reading. The authors celebrate reading as an important, exhilarating part of the curriculum with the potential to transform lives, whilst also giving a balanced handling of contentious issues. Strongly rooted in classroom practice.

Teaching Reading Douglas Fisher, Nancy Frey, Diane Lapp, 2022-08-29 The comprehensive guide you can trust for evidence-based reading practices. It's settled science: developing skilled readers can enhance students' lives. That's why renowned educators Douglas Fisher, Nancy Frey, and Diane Lapp wrote this resource with the urgency of a code blue in an ER, because too many children for many reasons struggle with learning to become strong readers. Designed to be a one-stop shop for best practices, *Teaching Reading* is concise, encyclopedic, and essential. Thirteen interactive modules provide easy-to-read ideas to support you teaching every child to read very well. You will learn how to focus on two critical aspects of reading: word recognition and language.
