The Oxford Handbook of European Romanticism Paul Hamilton, 2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism *Reading Proust* Maria Paganini-Ambord, 1994 Blanchot Leslie Hill, 2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought Although Blanchot s work is characterised by a fragmentary and complex style Leslie Hill introduces clearly and accessibly the key themes in his work He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot s later work and considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work Placing Blanchot at the centre stage of writing in the twentieth century Blanchot also sheds new light on Blanchot s political activities before and after the Second World War This accessible introduction to Blanchot s thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years *Reading on the Edge* Cyra E. Johnson-Roullier, 2000-05-18 Reading on the Edge explores the notion of multiple cultural identity and exile in the work of Marcel Proust James Joyce and James Baldwin Focusing on the cultural politics of modernism through the prism of cultural theory the book reconceives each author s work while at the same time redrawing modernism s traditionally Eurocentric disciplinary boundaries The book therefore has wide implications for our understanding of modernism and the modernist

canon Romanticism Cynthia Chase,2014-09-25 The essays in this volume have all been carefully chosen by Cynthia Chase to exemplify the most important strands in contemporary critical thought on Romantic literature in particular the best of recent feminist deconstructive and new historicist writing They include contributions from critics such as Paul de Man Mary Jacobus Marjorie Levinson and Jerome Christensen The collection with its substantial introduction and judicious selection of key work explains the significance of recent critical debate by relating it to fundamental critical questions that define Romanticism Through the course of their analyses the essays offer answers to perhaps the most essential question posed by the Romantic period what is the role of language in history *The Philosophy of Exemplarity* Jakub Mácha,2022-10-28 This book offers an original philosophical perspective on exemplarity Inspired by Wittgenstein's later work and Derrida's theory of deconstruction it argues that examples are not static entities but rather oscillate between singular and universal moments There is a broad consensus that exemplary cases mediate between singular instances and universal concepts or norms In the first part of the book M ácha contends that there is a kind of difference between singular examples and general exemplars or paradigms Every example is in part also an exemplar and vice versa Furthermore he develops a paracomplete approach to the logic of exemplarity which allows us to say of an exemplar of X neither that it is an X nor that it is not an X This paradox is structurally isomorphic to Russell's paradox and can be addressed in similar ways In the second part of the book M ácha presents four historical studies that exemplify the ideas developed in the first part This part begins with Plato's Forms understood as standards paradigms before considering Kant's theory of reflective judgment as a general epistemological account of exemplarity This is then followed by analyses of Hegel's conceptual moment of particularity and Kuhn's concept of paradigm The book concludes by discussing the speculative hypothesis that all our knowledge is based on paradigms which following the logic of exemplarity are neither true nor false *The Philosophy of Exemplarity* will be of interest to scholars and advanced students working in philosophy of language logic history of philosophy and literary theory Entertaining the Idea Lowell Gallagher,James Kearney,Julia Reinhard Lupton,2020-12-07 To entertain an idea is to take it in pay attention to it give it breathing room dwell with it for a time The practice of entertaining ideas suggests rumination and meditation inviting us to think of philosophy as a form of hospitality and a kind of mental theatre In this collection organized around key words shared by philosophy and performance the editors suggest that Shakespeare's plays supply readers listeners viewers and performers with equipment for living In plays ranging from *A Midsummer Night's Dream* to *King Lear* and *The Winter's Tale* Shakespeare invites readers and audiences to be more responsive to the texture and meaning of daily encounters whether in the intimacies of love the demands of social and political life or moments of ethical decision *Entertaining the Idea* features established and emerging scholars addressing key words such as role play acknowledgment judgment and entertainment as well as curse and care The volume also includes longer essays on Shakespeare Kant Husserl and Hegel as well as an afterword by theatre critic Charles McNulty on the philosophy and performance history of *King Lear* Romantic

Revolutions Kenneth R. Johnston,1990 **Hölderlin, the Poetics of Being** Adrian Del Caro,1991 Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin The poet is studied in the context of the romantic age but as one who imparted depth to the movement and influenced the critical debates of the 20th century Adrian Del Caro presents a detailed readable discussion of Hölderlin's major poems that clarifies but does not lose sight of the powerful formulations that animate Hölderlinian spirit Hölderlin's specific effort in the determination of the direction of modern man had to do with the relationship of poetry to being Del Caro draws on the contributions of Nietzsche and Heidegger within the theoretical framework of the question of being Hölderlin the poet of poets is presented at work and in his works as the instrument of conviviality binding mortal to mortal and mortal to divine *Ideology, Rhetoric, Aesthetics* Andrzej Warminski,2016-06-30 This volume explicates Paul de Man's late project of a critique of aesthetic ideology and attempts to extend it in ways productive for critical thought Maurice Blanchot Carolyn Bailey Gill,2005-08-04 This timely collection of essays is the first to be written on the work of Maurice Blanchot in English One of the finest writers of our time Blanchot is a contemporary of Bataille and Levinas his writing has influenced the likes of Derrida and Foucault Eminent commentators featured here include Simon Critchley Paul Davies Christopher Fynsk Rodolphe Gasche Leslie Hill Michael Holland Jeffery Mehlman Roger Laporte Ian MacLachlan Marie Claire Ropars Willeumier Gillian Rose and Ann Smock The essays consider the political implications of Blanchot's questioning the relationship between philosophy and literature In addition the provocative issue of Blanchot's politics during the 1930s is clarified by a letter from Blanchot to one of the contributors published here for the first time Maurice Blanchot *The Demand of Writing* is a crucial selection for all students of philosophy literature or French studies

The Near and Distant God Ian Cooper,2017-12-02 Poetry and philosophy from the time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Hölderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper's compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Mörike and Gerard Manley Hopkins both churchmen each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the *Duino Elegies* and Eliot's response to Bradley in the *Four Quartets* Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge

Textual Practice Terence Hawkes,2005-07-20 More than just a study of texts and new literary theory *Textual Practice* employs critical approaches to such diverse disciplines as philosophy history gender and media studies The Vegetative

Soul Elaine P. Miller, 2012-02-01 The Vegetative Soul demonstrates that one significant resource for the postmodern critique of subjectivity can be found in German Idealism and Romanticism specifically in the philosophy of nature Miller demonstrates that the perception of German Idealism and Romanticism as the culmination of the philosophy of the subject overlooks the nineteenth century critique of subjectivity with reference to the natural world This book's contribution is its articulation of a plant like subjectivity The vision of the human being as plant combats the now familiar conception of the modern subject as atomistic autonomous and characterized primarily by its separability and freedom from nature Reading Kant Goethe Holderlin Hegel and Nietzsche Miller juxtaposes two strands of nineteenth century German thought comparing the more familiar animal understanding of individuation and subjectivity to an alternative plantlike one that emphasizes interdependence vulnerability and metamorphosis While providing the necessary historical context the book also addresses a question that has been very important for recent feminist theory especially French feminism namely the question of the possible configuration of a feminine subject The idea of the vegetative subject takes the traditional alignment of the feminine with nature and the earth and subverts and transforms it into a positive possibility Although the roots of this alternative conception of subjectivity can be found in Kant's third Critique and its legacy in nineteenth century Naturphilosophie the work of Luce Irigaray brings it to fruition

Intrigues Gabriel Riera, 2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible It also discusses what the implications are for an ethically inflected criticism Emmanuel Levinas and Maurice Blanchot whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing are Riera's main focus Critics in recent years have discussed an ethical moment or turn characterized by the other's irruption into the order of discourse The other becomes a true crossroads of disciplines since it affects several aspects of discourse the constitution of the subject the status of knowledge the nature of representation and what that representation represses gender power Through close readings of texts by Heidegger Levinas and Blanchot this book examines how the question of the other engages the very limits of philosophy rationality and power

Anthropocene Reading Tobias Menely, Jesse Oak Taylor, 2017-10-13 Few terms have garnered more attention recently in the sciences humanities and public sphere than the Anthropocene the proposed epoch in which a human signature appears in the lithostratigraphic record Anthropocene Reading considers the implications of this concept for literary history and critical method Entering into conversation with geologists and geographers this volume reinterprets the cultural past in relation to the anthropogenic transformation of the Earth system while showcasing how literary analysis may help us conceptualize this geohistorical event The contributors examine how a range of literary texts from The Tempest to contemporary dystopian novels to the poetry of Emily Dickinson mediate the convergence of the social institutions energy regimes and planetary systems that support the reproduction of life They explore the long standing dialogue between imaginative literature and the earth sciences and show how scientists novelists and poets represent

intersections of geological and human timescales the deep past and a posthuman future political exigency and the carbon cycle Accessibly written and representing a range of methodological perspectives the essays in this volume consider what it means to read literary history in the Anthropocene Contributors include Juliana Chow Jeffrey Jerome Cohen Thomas H Ford Anne Lise Fran ois Noah Heringman Matt Hooley Stephanie LeMenager Dana Luciano Steve Mentz Benjamin Morgan Justin Neuman Jennifer Wenzel and Derek Woods Person, Being, and History Michael Baur, Robert E. Wood, 2011-03 During a distinguished career as thinker and educator at universities across North America philosopher Kenneth L Schmitz has striven to recover metaphysical realism in a world that has after Kant turned to the subject Schmitz has done so through precisely the window of the subjectivity particularity and concern for history which marks philosophy after Kant Although primarily associated with his native University of Toronto where he was known as the Educator Schmitz also taught at Loyola Marymount Marquette the Catholic University of America and the John Paul II Institute for Studies on Marriage and Family His teaching focused upon the singularity of the human person founded upon the notion of being that generates the history of philosophy He was eminently generous in his appreciation of the philosophers about whom he lectured He taught philosophy richly grounded in the history of philosophy as a gold mine rather than as a minefield Anchored in his spirit the various essays in this volume by colleagues and former students of Schmitz examine his thought and the subjects of his teaching In addition to an overall exposition of his own thought the collection treats themes such as gift faith and reason culture and dialogue modernity and post modernity and themes in the work of various thinkers including Aristotle Anselm Aquinas Martin Heidegger Gabriel Marcel Max Scheler and Jean Paul Sartre Special attention is given to G W F Hegel whose philosophy Schmitz was particularly adept at teaching He turned many a budding scholar into a life long student of Hegel s work Several of the essays begin with a special tribute to the honoree The volume concludes with a bibliography of Schmitz s many works Michael Baur is associate professor of philosophy and adjunct professor of law at Fordham University He is the editor of numerous works including *The Emergence of German Idealism* Robert E Wood is professor and former chair of philosophy at the University of Dallas He is the longtime editor of the *American Catholic Philosophical Quarterly* and author of three books and numerous articles Contributors Thomas Anderson Jennifer Bates Michael Baur John Burbidge Thomas Busch James Crooks Daniel O Dahlstrom John Deely Martin Donougho Jude P Dougherty Louis Dupr James Kow Jay Lampert John C McCarthy Ralph McInerny John Russon Daniel E Shannon and Robert E Wood PRAISE FOR THE BOOK The editors of this book have done a great service in drawing attention to the notable excellences of Schmitz s work excellences both systematic and historical Perhaps this will provide some impetus to make available more of his essays surely worthy to be communicated to as wide an audience as possible The Thomist In his work Kenneth Schmitz seeks to unify the disparate and argumentatively to seek the common ground on a diverse gathering of opinions Not that he is blind to difference or so tolerant that criticism is suspended Rather his principal convictions enable him to favor the principle of charity in

interpretation and respect in critical assessment That these qualities have been communicated to his former students and colleagues is apparent in these essays This collection brings the facets of Schmitz s philosophical thought into a fruitful exchange and introduces the lifework of an incredibly gifted and original thinker Thomas R Flynn Samuel Candler Dobbs Professor of Philosophy Emory University **Deconstruction** Christopher Norris, 2003-12-16 While in no way oversimplifying its complexity or glossing over the challenges it presents Norris s book sets out to make deconstruction more accessible to the open minded reader
