Leff, Robert Terrill, 1997 This book is designed to orient the beginning student to the nature and function of rhetorical criticism to acquaint the student with those elements in the rhetorical situation that warrant serious attention and to teach the student a useful strategy with which to begin to practice criticism The focus of this book is clearly on public speeches Along with mastering basic concepts the beginning critic will also be given the opportunity to begin grappling with fundamental and enduring critical issues The authors have included in this book texts and examples of how critics have studied those texts They also offer two historical texts along with their own critical readings of those texts The book then presents two texts and illustrations of the various critical responses to these texts The first text is Richard Nixon's Address on the Vietnam War and the second is Jesse Jackson's Common Ground and Common Sense Finally several examples of critical readings by rhetorical scholars illustrate different ways to approach texts Pref **Rhetorical Criticism** Jim A. second edition Rhetorical Criticism Perspectives in Action presents a thorough accessible and well grounded introduction to contemporary rhetorical criticism Systematic chapters contributed by noted experts introduce the fundamental aspects of a perspective provide students with an example to model when writing their own criticism and address the potentials and pitfalls of the approach In addition to covering traditional modes of rhetorical criticism the volume presents less commonly discussed rhetorical perspectives exposing students to a wide cross section of techniques Television Criticism Victoria O'Donnell,2007 Television Criticism presents an original treatment of television criticism with a foundational approach to the nature of criticism an understanding of the business of television production background in creating television style in depth chapters on storytelling and narrative theories and television genres the interaction of rhetoric and cultural studies theories representation and postmodernism It presents new and comprehensive guidelines for analysis and criticism and it has a sample critique of the television program CSI Crime Scene Investigation **Rhetorical Criticism in Communication** Studies Georgina Gabor, 2017-10 This book focuses on seven entries in Carl R Burgchardt's Readings in Rhetorical Criticism to which it adds a complementary effort While maintaining a strategy of ongoing dialogue with both the prospective reader and the texts under scrutiny the book acknowledges the author's privileged moment of essential identification and represents a step out of the limiting frame of the inherently political character of inquiry This allows the book to present personal narrative about guidance by specific critics such as Edwin Black Forbes Hill Karlyn Khors Campbell Kenneth Burke William Lewis and Raymie McKerrow through the labyrinth of that Leviathan the public mind H Wichelns The volume mediates a cross cultural re conceptualization of academic writing more adequately inscribed within the symbolic border between the consolidated American and other fragile profiles of the discipline of Communication Studies Politics within Parentheses Georgina Gabor, 2017-08-21 The book purports to mediate between various culturally determined profiles of the discipline of Communication Studies While it directs the reader's attention to landmark American texts in intercultural communication it also signals the potential to make reading a relational praxis thus writing a way out of the disciplinary meta narratives of identification Through its focus on studies which employ critical or auto ethnographic methods the book represents a mediator of cultural meanings Its unique approach resides in the offering of a personal incursion through the texts under scruting which allows the reader a pathway a practical orientation towards criticism in general and the appropriate means to perform it Discourse as Structure and Process Teun A. van Dijk, 1997 What are the structures of discourse and what are the functions of these structures in the communicative context This volume explains how and why discourse is organized at various levels. The multidisciplinary contributions illustrate that discourse analysis goes far beyond the linguistic answer of designing grammars and goes hand in hand with the study of their uses and functions in the social context Comprehensive and accessible the volume covers a huge variety of discourse genres including written and spoken and storytelling and argumentation The chapters also illustrate the necessity to examine the mental processes of the language users How do

people go about producing understanding and remembering text or talk The book stresses that both discourse and its mental processing have a social basis and can only be fully understood in relation to social interaction **Political Perversion**Joshua Gunn,2020-10-10 When Trump became president much of the country was repelled by what they saw as the vulgar spectacle of his ascent a perversion of the highest office in the land In his bold innovative book Political Perversion rhetorician Joshua Gunn argues that this mean spirited turn in American politics of which Trump is the paragon is best understood as a structural perversion in our common culture on a continuum with infantile and gotcha forms of entertainment meant to engender provocation and sadistic enjoyment Drawing on insights from critical theory media ecology and psychoanalysis Gunn argues that perverse rhetorics dominate not only the political sphere but also our daily interactions with others in person and online From sexting to campaign rhetoric Gunn advances a new way to interpret our contemporary political context that explains why so many of us have difficulty deciphering the appeal of aberrant public figures In this book Trump is only the tip of a sinister rapidly growing iceberg one to which we ourselves unwittingly contribute on a daily basis

Eadie, 2009-05-15 The discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create Over time the two groups grew closer and recognized significant overlap in their theoretical and research interests but there were also differences in their traditions that kept them apart While both groups agreed that communication is a practical discipline journalism professors focused a great deal of their attention on the education of media professionals Speech professors on the other hand often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions including the arts humanities social sciences and even the sciences A key term in 21st Century communication however is convergence Not only are media and technology converging with each other to produce new means of communicating but individuals are increasingly using both new and existing communication tools to create new forms of communication This convergence forces the various camps within the communication discipline to draw upon each other s theories and research methods to keep up with explaining the rapidly changing communication environment This convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline and that s the goal of the SAGE 21st Century Reference Series volumes on Communication General Editor William F Eadie has sought to honor the diversity of the study of communication but also integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to consider in creating messages and 4 relationships between communicators Via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st Century The purpose is to provide

Fuerst, 2025-02-17 Prophecy reimagines the world It critiques what is and encourages its audience to imagine what could be All prophecy therefore begins with a person willing to reimagine their own situation In the biblical and African American traditions this person receives a call to prophetic ministry that upends their reality and compels them to change the way things are Prophetic Peril The Rhetoric of Nineteenth Century African American Prophetic Call Narratives invites readers into the imaginative subversive and ethically complicated stories of four nineteenth century Black figures who received the call to challenge the what is and live into the what could be in the midst of a hard hearted world Focusing on the prophetic call narratives of Maria Stewart Nat Turner Julia Foote and Richard Allen author Thomas M Fuerst offers insight into the unique contributions this tradition makes to American oratory storytelling history ethics theology and protest As Fuerst demonstrates Turner's call narrative subverts white political interests and expands politics to include the resistance rhetoric and witness of those on the margins Allen's apologetic narration combines deeply thoughtful Protestant exegesis with a liberation theology shaped by the experience of enslavement anchoring his rhetorical power in the experience of Black people in the nineteenth century The call narratives of Stewart and Foote circumvent patriarchy and resist patriarchal interpretations of the Bible through biblical embodied dramatic visionary appeals that sidestep persuasion and demand either acceptance or rejection Taken together these case studies reveal how antebellum Black preachers used religious storytelling to resist white patriarchal oppression and assert their own voices offering unique insight to our understanding of prophecy and resistance **American Political Discourse on China** Michelle Murray Yang, 2017-06-14 Despite the U S and China's shared economic and political interests distrust between the

nations persists How does the United States rhetorically navigate its relationship with China in the midst of continued distrust This book pursues this question by rhetorically analyzing U S news and political discourse concerning the 2008 Beijing Olympic Games the 2010 U S midterm elections the 2012 U S presidential election and the 2014 2015 Chinese cyber espionage controversy It finds that memory frames of China as the yellow peril and the red menace have combined to construct China as a threatening red peril Red peril characterizations revive and revise yellow peril tropes of China as a moral political economic and military threat by imbuing them with anti communist ideology Tracing the origins functions and implications of the red peril this study illustrates how historical representations of the Chinese threat continue to limit understanding of U S Sino relations by keeping the nations relationship mired in the past A Hermeneutic of Curiosity and Readings of Psalm 61 W.
