Paul Schultz, 1965 Collected Works of Michal Kalecki: Volume I. Capitalism: Business Cycles and Full Employment Michal Kalecki, 1990-10-04 This is the first of seven volumes in a definitive edition of the works of Michal Kalecki who is one of the most distinguished economists of this century The works will be of interest for the controversial light which they shed on the ideas expounded by John Maynard Keynes since Kalecki arguably arrived at these conclusions even earlier than Keynes This volume documents the confrontation between the two economists It also charts Kalecki's development of a theory of full employment including his early theoretical writings and some of his less famous works
