Readings in Development Microeconomics Pranab K. Bardhan, Christopher Udry, 2000 Volume II of this two volume set focuses on empirical work

Industrial Innovation, Networks, and Economic Development Anant Kamath, 2014-11-27 This book offers an innovative examination of how low technology industries operate Based on extensive fieldwork in India the book fuses economic and sociological perspectives on information sharing by means of informal interaction in a low technology cluster in a developing country In doing so the book sheds new light on settings where economic relations arise as emergent properties of social relations This book examines industrial innovation and microeconomic network behaviour among producers and clusters perceiving knowledge diffusion to be a socially spatial as much as a geographically spatial phenomenon This is achieved by employing two methods simulation modelling and quantitative qualitative and historical social network analysis The simulation model based on its findings motivates two empirical studies one descriptive case and one network study of low tech rural and semi urban traditional technology clusters in Kerala state in southern India These cases demonstrate two contrasting stories of how social cohesion either supports or thwarts informal information sharing and learning This book pushes towards an economic sociology approach to understanding knowledge diffusion and technological learning which perceives innovation and learning as being more social processes than the mainstream view perceives them to be In doing so it makes a significant contribution to the literature on defensive innovation and the role of networks in technological innovation and knowledge diffusion as well as to policy studies of Indian small firm and traditional technology clusters

Inclusive Innovation Rajeswari S. Raina, Keshab Das, 2020-02-27 This book discusses the role of inclusive innovation for development in rural India It uses the evidence of innovation in the context of skewed or limited livelihood options and multiple knowledge systems to argue that if inclusive innovation is to happen the actors and the nature of the innovation system need reform The book presents cases of substantive technological changes and institutional reforms enabling inclusive innovation in rural manufacturing sustainable agriculture health services and the processes of technological learning in traditional informal networks as well as in formal modern commodity markets These cases offer lessons to enable learning and change within the state and formal science and technology S T organizations By focusing on these actors central to development economics and innovation systems framework the book bridges the widening conceptual gaps between these two parallel knowledge domains and offers options for action by several actors to enable inclusive innovation systems The content is thus of value to a wide audience consisting of researchers policy makers NGOs and industry observers

Routledge Handbook of Indian Politics Atul Kohli, Prerna Singh, 2013-01-04 India's growing economic and socio political importance on the global stage has triggered an increased interest in the country This Handbook is a reference guide which surveys the current state of Indian politics and provides a basic understanding of the ways in which the world's largest democracy functions The Handbook is structured around four main topics political change political

Journal of Economic Literature ,2001 **International Labour Documentation** ,2001-07 **Choice** ,2000 *Managing Risk in Agriculture* Ashok K. Mishra,Subal C. Kumbhakar,Gudbrand Lien,2023-10-02 The book addresses and documents farmers risks in developing and emerging economies It draws lessons from experimental economics on measuring risk preferences attitudes gender differences in managing risks and risk management strategies in countries across Africa and Asia It argues policy makers especially in emerging economies need a better understanding of farmers attitudes toward risk and choices of risk management strategies when designing policies to support production agriculture The book includes chapters on three themes understanding risk attitudes and preferences using experimental economics to measure risk preferences and risk management strategies and understanding climate change risk and risk management The book critically examines the currently held beliefs about risk preference attitudes and empirical estimation of risk management strategies emphasizing developing and emerging economies DEE This book is ideal for students and researchers in universities and research organizations who conduct applied research on public policy community development and rural development and will also be of interest to policy makers in those fields **The British National Bibliography** Arthur James Wells,2001 **Books in Print Supplement** ,2002 **Forthcoming Books** Rose Arny,2000 *Microeconomics* ,1975 **Hitotsubashi Journal of Economics** ,2006 *American Book Publishing Record* ,2001 **The Economics of Development** ,1976 **Urban and Regional Economics** P. C. Cheshire,Alan W. Evans,1991 Urban and regional economics in contrast to the rest of economics places great emphasis on distance and location and the importance of spatial relationships Urban economics focuses on the city as a centre of economic activity where productivity is increased through many firms being located close to each other and to decision makers in the public sector But because proximity is important distance within the cities is also important and locations within the city will differ in their economic characteristics At the core of regional economics is the concept of the region as a part of the national economy which has distinct characteristics and which because it is spatially separate develops in a different way to the rest of the economy In turn the trajectory of the national economy is influenced by the economic performance of its regions This major new reference collection prepared by leading authorities in the field presents a blend of classic articles examples of the most recent research and surveys of particular topics It will be an essential source

of reference for students instructors and researchers with an interest in urban and regional economics **International Social Science Journal** ,1987 From Catastrophe to Chaos: A General Theory of Economic Discontinuities J. Barkley Rosser,2013-03-14 From Catastrophe to Chaos A General Theory of Economic Discontinuities presents and unusual perspective on economics and economic analysis Current economic theory largely depends upon assuming that the world is fundamentally continuous However an increasing amount of economic research has been done using approaches that allow for discontinuities such as catastrophe theory chaos theory synergetics and fractal geometry The spread of such approaches across a variety of disciplines of thought has constituted a virtual intellectual revolution in recent years This book reviews the applications of these approaches in various subdisciplines of economics and draws upon past economic thinkers to develop an integrated view of economics as a whole from the perspective of inherent discontinuity *Paperbound Books in Print* ,1992 □□□□□□ ,2007
