Assignment: Assessing Group Process 2

Each member of a group contributes to the group's dynamic even if the member is silent. As a clinical social worker, it is important to understand the dynamics you bring to a group and the role you tend to assume in a group setting. Every individual has his or her own way of interacting. Knowing your own personal style and the role you tend to choose will help you identify your strengths and weaknesses when working within a group.

For this Assignment, describe the dynamics of your Wild Group. By this time, your group should have developed the family case study and defined the scope of the problem.

Reflect on your participation in the dynamics. What role have you assumed in the group? Have you used any

Vinter, 1967 *Perspectives on Social Group Work Practice* Albert S. Alissi, 1969 Book of readings on social group work [Readings for Reflective Teaching](#) Andrew Pollard, 2002-01-01 This unique book provides the reader with a mini library of over one hundred readings containing both classic and contemporary readings international contributors material drawn from books and journals An essential reference resource in its own right Readings for Reflective Teaching also contains numerous cross references to Andrew Pollard's Reflective Teaching *Perspectives on Social Group Work Practice* Albert S. Alissi, 2008-06-30 Not simply another how to book this provocative collection of readings does not advance a single viewpoint or approach to group work Instead the 25 selections present the full spectrum of classic and current perspectives providing student and practitioner alike with a sound basis for evaluating contemporary practice and for formulating a personal approach to social group work The historical and conceptual roots of modern social group work methods are examined in Part I Conceptual Foundations which contains some of the classic statements in the field Part II Current Perspectives explores the most widely influential contemporary models of group work social goals perspectives remedial perspectives and mediative perspectives The two part section that concludes the volume focuses on applications group work is first discussed in relation to family and community casework and administration then self help groups and other techniques used in the fields of medicine counseling and psychology are surveyed in light of their implications for social workers To encourage the reader's active participation in the development of an individual philosophy and approach to social group work Dr Alissi concludes each chapter with probing study questions These open ended questions stimulate comparisons among the methods presented and urge the reader to relate new ideas to his or her own experience in the field Introductions to each part and

chapter also stress comparative aspects An annotated list of articles and books on the subject of each chapter allows the reader to explore it in greater depth A stimulating and systematic exposure to the most important ideas in social group work today Perspectives on Social Group Work Practice expands the repertoire of working concepts vital to contemporary practice

Groups That Work Paul H. Ephross, Thomas V. Vassil, 2005-02-09 Social workers planners health professionals and human service administrators spend much of their time in meetings working in and with groups What meaning does participation in these groups have for members Some of the events that are most important for members of the various professions and those whom they serve take place within these groups Health and human services depend upon their working groups for their development and allocation of resources their standards of quality and the evaluation of their success or failure In short these groups are relied upon to come up with creative solutions to complex problems Despite the amount of time spent in meetings committees and so on very little has been written about the skills necessary for effective participation and leadership within working groups With that in mind Ephross and Vassil combine innovative group theory and practice in this how to guide for professionals who take a variety of roles within the group They draw on examples from social agencies a hospital a low income community and the boardroom providing practical principles for day to day group life based on a democratic model This revised edition also explores the changes that have taken place in the structure and operation of working groups in recent years and the heightened expectations for groups within large organizations

Multidisciplinary Approaches to the Treatment of Abused and Neglected Children and Their Families Dr. James P. Madry, 2013-09 This project produced a manual containing various approaches for utilizing counseling theories and strategies in innovative ways along with mechanisms for developing multidisciplinary efforts It is anticipated that the use of the manual will enhance cooperation and communication among various disciplines involved with the problem of child abuse An improved level of interdisciplinary efforts will hopefully have a positive impact on this very serious problem Additionally there is the expectation that further research will be generated by some of the propositions in this project

Behavior Modification Procedure Edwin J. Thomas, Behavior modification has lacked operational procedures to sharpen techniques and equipment These aspects have lagged behind the development of general principles and specialized modification techniques This sophisticated sourcebook is devoted exclusively to the technical details of how to do it in behavioral assessment and practice an aspect of behavior modification that is relatively undeveloped despite its significance and that has only recently received the attention it deserves The selections contained in this volume

have been drawn from a variety of technical areas and are organized into six main parts. The first part emphasizes the importance of technology and procedure in the history of the field and in the second part attention is given to guidelines for practice with individuals and families that may be employed with a wide variety of problems and patrons in many service settings. The next part on interviewing guidelines and style includes an interview guide for behavioral counseling and a general discussion of types of bias and therapist influence in behavioral assessment. Part four is concerned with observation recording and monitoring and part five on schedules and checklists includes a variety of schedules and rating forms including a therapist schedule for rating family verbal behavior. The last part on instrumentation in behavior therapy contains a chapter that is a major comprehensive description and review of electromechanical devices applicable to behavior modification. Because the book covers procedural details it serves not only as a sourcebook but as a volume every practicing behavior modifier as well as researchers in behavior therapy and modification will find useful. Social workers, teachers, clinical psychologists, psychiatrists, pastoral counselors and their students will appreciate this manual covering technical information required for effective practice.
