century Erving Goffman Scott takes readers on a captivating journey through a subject far richer than we might have expected By the end of it we are able to make more sense of what lies behind greetings and what it means to be human in the modern cross cultural age Scott speculates on the origins of the cheek kissing tradition and how to avoid a social faux pas no matter where you are Conde Nast Traveler An utterly charming and fascinating book I will never be able to look at a handshake or a hug the same way again Joshua Foer New York Times bestselling author      **Sound, Symbol, Sociality** Matthew Unger,2016-08-22 Based on ethnographic research within the extreme metal community Unger offers a thought provoking look at how symbols of authenticity and defilement fashion social experience in surprising ways Exploring the many themes and ciphers that comprise this musical community this book interprets aesthetic resonances as a way to understand contemporary identity politics and social relations In the end this book develops a unique argument the internal composition of the community s music and sound moulds symbols that shape reflect and constrain social patterns of identity difference and transgression This book contributes to the sociology of sound and music the study of religion in popular culture and the role of aesthetics in everyday life It will be of interest to upper level students post graduate students and scholars of religion popular culture and philosophy      *Media Transparency in China* Baohui Xie,2014-08-20 This book argues that the gap between the official transparency rhetoric and the censorship reality has demonstrated the discrepancy between what the Party is and what it claims to be Such a discrepancy is manifested by the reality that the reformed news industry a hybrid of market oriented commercialization and party state control has largely failed to deliver either the voice of the disenfranchised groups or the value of journalism To observe the discrepancy this book investigates the role of transparency in the Chinese news media Media transparency which goes beyond the issue of censorship and press freedom has been undermined by the consensus reached between the party state and the media on political and market control It is this mutually accommodating and benefiting scheme between power and profits that has been hollowing out the substance of the transparency rhetoric and distorting the Marxist idea of press freedom as freedom for all This book argues that the cause of such a gap between rhetoric and reality is rooted in the disjuncture of political representation of both the party state and the profit seeking media      Being A Teacher in the 21st Century Leon Benade,2017-03-01 This book provides scholars teacher educators as well as reflective school leaders and teachers with valuable insights into what it is to be a teacher in the 21st century It does so by presenting original research based on a study of several New Zealand schools between 2013 and 2015 and in particular a focussed study of four of those schools in 2015 The book draws on the findings to take stock of some of the central manifestations of 21st century learning especially digital pedagogies and the collaborative practices associated with teaching and learning in modern learning environments It reflects on the mental shifts and sometimes painful transitions teachers and leaders are making and experiencing as they enter uncharted waters moving from traditional classroom practices to ones that emphasise collaboration teamwork and the radical de centring of their personal roles It

outlines a blueprint for understanding how to navigate these changes and describes and explains the nature of pedagogical shifts apparent in digital classrooms and modern learning environments

*Citizen Participation in Decision Making* Njogu, Kimani, 2014-01-16 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process This narrow view has led to arrogance and total disregard of citizens after poll results are announced Under the new political

dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed The publication raises important issues worth serious reflection It also suggests ways in which citizens can better participate in their own transformation Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated **21st Century**
