Holtzhausen, 2013-06-17 This volume applies postmodern theory to public relations providing an alternative lens to public relations theory and practice and developing public relations theory within the context of postmodernism Author Derina R Holtzhausen focuses on two key issues and their application to public relations theory and practice the postmodernization of society and the possibilities postmodern theories offer to explain and understand public relations practice in today's changing society Holtzhausen's argument is that existing theory should be evaluated from a postmodern perspective to determine its applicability to postmodernity Utilizing practitioner perspectives throughout the volume she explores the practice of public relations as a form of activism The volume is intended for scholars and students in public relations It may be used as a supplemental text in advanced courses on public relations theory PR management organizational communication and related areas **Social Media** Regina Luttrell, 2021-07-13 Updated to reflect the latest technological innovations and challenges the fourth edition of Social Media How to Engage Share and Connect helps students understand and successfully use today's social media tools as PR professionals and personal users Regina Gina Luttrell presents a thorough history of social media and pioneers of the field within chapters on specific subjects such as content sharing crisis communication ethics sticky social media and strategic campaigns This book will become your go to reference guide for all things social media related as it applies to public relations and the everyday duties of PR professionals Features of the fourth edition include Chapter objectives and learning outcomes Social Media Expert profiles Theory into Practice boxes LRNSMPR Learn Social Media and Public Relations boxes Comprehensive glossary of terms Coverage of additional social media channels including Clubhouse and TikTok and visual content in the social sphere New appendix with social media guidelines template The Strategic Management of Large Engineering Projects Roger Miller, Donald R. Lessard, 2001-03-12 The book is based on an international research project that analyzed sixty LEPs among them the Boston Harbor cleanup the first phase of subway construction in Ankara Turkey a hydro dam on the Caroni River in Venezuela and the construction of offshore oil platforms west of Flor Norway As the number complexity and scope of large engineering projects LEPs increase worldwide the huge stakes may endanger the survival of corporations and threaten the stability of countries that approach these projects unprepared According to the authors the front end engineering of institutional

arrangements and strategic systems is a far greater determinant of an LEP's success than are the more tangible aspects of project engineering and management. The book is based on an international research project that analyzed sixty LEPs among them the Boston Harbor cleanup, the first phase of subway construction in Ankara, Turkey, a hydro dam on the Caroni River in Venezuela, and the construction of offshore oil platforms west of Flor, Norway. The authors use the research results to develop an experience-based theoretical framework that will allow managers to understand and respond to the complexity and uncertainty inherent in all LEPs. In addition to managers and scholars of large-scale projects, the book will be of interest to those studying the relationship between institutions and strategy, risk management, and corporate governance in general.

**Introduction to Strategic Public Relations** Janis Teruggi Page, Lawrence J. Parnell, 2017-11-30. Winner of the 2019 Most Promising New Textbook Award from the Textbook Academic Authors Association (TAA). Introduction to Strategic Public Relations: Digital, Global, and Socially Responsible Communication prepares students for success in today's fast-changing PR environment. Recognizing that developments in technology, business, and culture require a fresh approach, Janis T. Page and Lawrence Parnell have written a practical introductory text that aligns these shifts with the body of knowledge from which the discipline of public relations was built. Because the practice of public relations is rooted in credibility, the authors believe that students must become ethical and socially responsible communicators more concerned with building trust and respect with diverse communities than with creating throwaway content. The authors balance this approach with a focus on communication theory, history, process, and practice, and on understanding how these apply to strategic public relations planning, as well as on learning how to create a believable and persuasive message.
