Real Godfathers:

Godfathers Roberto Olla, 2012-10-18 *Asian Godfathers* Joe Studwell, 2008-09-23 The author of *How Asia Works* follows the money Alarming enlightening Joe Studwell should be named chief myth buster for Asian business Financial Times Hong Kong and Southeast Asia are home to five hundred million people yet their economies are dominated by only fifty families whose interests range from banking to real estate shipping to sugar gambling to lumber At their peak eight of the world's two dozen richest men were Southeast Asian but their names would not be familiar to most regular readers of The Wall Street Journal A complex mythology surrounds these billionaires but in *Asian Godfathers* Joe Studwell finds that the facts are even more remarkable than the myths Studwell has spent fifteen years as a reporter in the region and he marshals his unprecedented sources to paint intimate and revealing portraits of the men who control Southeast Asia Studwell also provides us with a rich and deep understanding of the broader historic economic and political influences that have shaped Southeast Asia over the past 150 years *Asian Godfathers* is a riveting and illuminating book that lifts the curtain on a world of staggering secrecy and hypocrisy and reveals for the first time who the leaders of one of the planet's most important and tumultuous markets really are why they got to the top and how they keep themselves there The romp around the region's pleasure domes is a blast The Wall Street Journal Asia

Fathers and Godfathers Guido Alfani, 2016-04-19 In medieval Europe baptism did not merely represent a solemn and public recognition of the natural birth of a child but was regarded as a second spiritual birth within a social group often different from the child's blood relations a spiritual family composed of godfathers and godmothers By analyzing the changing theological and social nature of spiritual kinship and godparenthood between 1450 and 1650 this book explores how these medieval concepts were developed and utilised by the Catholic Church in an era of reform and challenge It demonstrates how such ties continued to

be of major social importance throughout the sixteenth and seventeenth centuries but were often used in ways not always coherent with their original religious meaning and which could have unexpected social consequences In particular the book analyzes in detail the phase of transition from the traditional model of godparenthood which allowed for multiple godparents to the new couple model one godfather and one godmother imposed by Tridentine law Drawing upon a large database of archival data taken from parish books of baptisms and marriages pastoral visitations diocesan statutes synods and provincial councils it is shown how attempts were made to resist or to compromise with the Church thus providing a better understanding of the often contested meaning given to godparenthood by early modern society Whilst the Church was ultimately successful in imposing its will the book concludes that this was to have unexpected results that were to eventually weaken the role of godparents Rather than persuading parents to choose real spiritual tutors to act as godparents the choice of godparents became increasingly influenced with social status so that godparenthood began to resemble a pure clientele system something it had never been before Through this long term exploration of Catholic spiritual kinship much is revealed not only about godparenthood but about the wider social and religious networks Comparison with Protestant reactions to the same issues provides further insight into the importance of this subject to early modern European society **The**

The Wrong Stuff John Strausbaugh,2024-06-04 A witty deeply researched history of the surprisingly ramshackle Soviet space program and how its success was more spin than science In the wake of World War II with America ascendant and the Soviet Union devastated by the conflict the Space Race should have been over before it started But the underdog Soviets scored a series of victories starting with the 1957 launch of Sputnik and continuing in the years following that seemed to achieve the impossible It was proof it seemed that the USSR had manpower and collective will that went beyond America's material advantages They had asserted themselves as a world power But in The Wrong Stuff John Strausbaugh tells a different story These achievements were amazing yes but they were also PR victories as much as scientific ones The world saw a Potemkin spaceport the internal facts were much sloppier less impressive more dysfunctional The Soviet supply chain was a disaster and many of its machines barely worked The cosmonauts aboard its iconic launch of the Vostok 1 rocket had to go on a special diet and take off their space suits just to fit inside without causing a failure Soviet scientists under intense government pressure had essentially made their rocket out of spit and band aids and hurried to hide their work as soon as their worldwide demonstration was complete With a witty eye for detail and a gift for storytelling John Strausbaugh takes us behind the Iron Curtain and shows just how little there was to find there **Pain** Jahangir Alam Akash,2011-01-25 It is now 39 years that Bangladesh is an independent country But the rule of law honest administration and the culture of democracy are still far cry Common people are searching peace Militancy extra judiciary murders maladministration party attribution
