Real History Reflections On Historical Practice:

Real History Martin Bunzl,1997 In Real History Martin Bunzl brilliantly succeeds in bringing together two schools of thought at the forefront of the philosophy of history that of realism and objectivity He shows us how the realism debate is inhabited by philosophers whereas the objectivity argument lies in the hands of historians In his lucid and direct style Bunzl proposes a synthesis between these two parallel traditions We see that what historians say they are doing is not necessarily what they are actually doing Bunzl draws on recent work from the likes of Foucault to Rorty to develop a new model for the philosophy of history a model which essentially calls for the collapse of the realism objectivity dichotomy Martin Bunzl clearly merges the two parallel debates of history and philosophy He draws on relevant discussions ranging from post structuralism to the philosophy of science to notions of realism and objectivity to debates about the history of women

Historical Judgement Jonathan Gorman,2014-11-27 The historical profession is not noted for examining its own methodologies Indeed most historians are averse to historical theory In Historical Judgement Jonathan Gorman s response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline So to model historiography we must do so from the views of historians Gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science There are different models at work whose rivalry and resolution are to be historically understood With this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians He reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography Demonstrating how the practice of historiography requires choices and therefore the exercise of judgement Gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight He shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change In addition Gorman s approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of Quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism Gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world Historical Judgement is an original and important contribution to the philosophy of history By bringing together the ideas of historians and philosophers Gorman presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage historians to think more about the nature of what they do

Jesus and the Historians A. J. M. Wedderburn,2010 Much has been written about the life of Jesus in works that often claim to be historical and to employ historical methods Yet only sometimes are the methods and the presuppositions involved made explicit However it has also been claimed more recently that a decisive change in our view of the nature of historical knowledge and methods has taken place in that the modern has given way to the postmodern After a survey of a number of books on Jesus that have raised the question of how his life should be studied historically Alexander J M Wedderburn starts by looking at such claims asking how new and how valid the insights involved in what claims to be a new historiographical epistemology in fact are before turning to look at a number of problems raised by recent studies of the life of Jesus that are relevant for the work of the historian the nature of the sources available to us and how to use them and the criteria and principles to employ the role played by the early Christian communities memories of Jesus and the extent to which this enhances their trustworthiness or gives reason for caution the extent to which the traditions about Jesus were transmitted orally and the implications of this for the reliability of these traditions and finally the questions how far we can investigate how Jesus understood his work and to what conclusions a historical study of this could lead us as well as the implications of this for christology

Our Knowledge of the Past Aviezer Tucker,2004-04-26 How do historians comparative linguists biblical and textual critics and evolutionary biologists establish beliefs about the past How do they know the past This book presents a philosophical analysis of the disciplines that offer scientific knowledge of the past Using the analytic tools of contemporary epistemology and philosophy of science the book covers such topics as evidence theory methodology explanation determination and underdetermination coincidence contingency and counterfactuals in historiography Aviezer Tucker s central claim is that historiography as a scientific discipline should be thought of as an effort to explain the evidence of past events He also emphasizes the similarity between historiographic methodology to Darwinian evolutionary biology This is an important fresh approach to historiography and will be read by philosophers historians and social scientists interested in the methodological foundations of their disciplines

The Philosophy of History: A Re-examination William Sweet,2019-09-25 The philosophy of history is an area of interest not only to philosophers but to historians and to social scientists It has been of central importance in continental European philosophy since the late 18th century and for the past half century has had a significant place in Anglo American philosophy Interest in the philosophy of history continues to grow

This volume offers both an introduction to contemporary discussion in the philosophy of history and a reassessment of some of the major movements in the philosophy of history since the beginning of the 20th century. Including the work of leading international scholars in the field, the book presents a wide range of perspectives from different schools in philosophy and in political and social theory. History and the history of ideas. Traditional questions raised in the philosophy of history are explored with fresh insight: the nature of history, historical understanding, historical objectivity, the nature of the past, the psychological factors in historical explanation, the human significance of history alongside issues which are less frequently examined, including the role of science and mathematics in history, history as a social science and history as an art form. As history itself remains disputed ground, it is important to consider what clues history can provide for our response to issues of contemporary concern such as political realignments and economic globalisation. This volume offers important insights from leading scholars in the philosophy of history.

A Multi-Paradigmatic Approach to Understanding History Kavous Ardalan, 2022-12-08. This book explores the field of history through a multi-paradigmatic approach. For this purpose, it begins with a discussion of four most diverse worldviews or paradigms: namely functionalist, interpretive, radical humanist, and radical structuralist. Before moving on to consider four aspects of the field of history: historiography, grand narrative, progress, and time, from the viewpoints of the four most diverse worldviews or paradigms. Next, the book looks at three historical events: the French Revolution, the American Civil War, and the Iranian Revolution, from the viewpoints of the four most diverse worldviews or paradigms. It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi-faceted nature of the subject matter. **In**

Defense of History Richard J. Evans, 2015-06-15. A master practitioner gives us an entertaining tour of the historian's workshop and a spirited defense of the search for historical truth. E. H. Carr's *What Is History?* a classic introduction to the field, may now give way to a worthy successor. In his compact, intriguing survey, Richard J. Evans shows us how historians manage to extract meaning from the recalcitrant past. To materials that are frustratingly meager or overwhelmingly profuse, they bring an array of tools that range from agreed-upon rules of documentation and powerful computer models to the skilled investigator's sudden insight, all employed with the aim of reconstructing a verifiable, usable past. Evans defends this commitment to historical knowledge from the attacks of postmodernist critics who see all judgments as subjective. Evans brings a remarkable range, a nose for the archives, a taste for controversy, and a fluent pen. *The New Republic* to this splendid work. Essential reading for coming generations. Keith Thomas.

A Companion to the Philosophy of History and Historiography Aviezer Tucker, 2011-06-28. A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY. The philosophy of historiography examines our representations and knowledge of the past, the relation between evidence, inference, explanation, and narrative. Do we possess knowledge of the past? Do we just have probable beliefs about the past, or is historiography a piece of convincing fiction? The philosophy of history is the direct philosophical examination of history.

whether it is necessary or contingent whether it has a direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists *John Lingard and the Pursuit of Historical Truth* Edwin Jones,2002-01-01 This work describes how John Lingard 1771 1851 postulated and applied for the first time in England the main principles and methodology of modern source criticism in his *History of England* 1819 30 His work is compared and contrasted with other English historians

Historicizing Fiction/Fictionalizing History Nishevita J. Murthy,2014-10-16 Historicizing Fiction Fictionalizing History brings together two authors Umberto Eco and Orhan Pamuk not frequently studied in comparison By focusing on their non fictional works to present a unique study of the methods and concepts of representation Murthy uses contemporary historical novels to examine fictional depictions of reality and provides a fresh perspective on representation studies in literature Written in an accessible style and tapping into fields as varied as literary and critical theory the historical novel postmodernism and historiography Historicizing Fiction Fictionalizing History considers the ways in which reality as discourse confronts a text external reality and how this confrontation affects the autonomy of the fictional space topics that remain persistently problematic areas within literary studies Eco s *The Name of the Rose* and Baudolino and Pamuk s *My Name is Red* and *Snow* with their topical concerns and methods of representation promise a rewarding comparative study This book provides an early critical framework for these four works placing them within the rubric of the postmodernist historical novel as creative works that also comment on the process of literary writing through their recreation of historical pasts In this respect Historicizing Fiction Fictionalizing History promises to be an engaging read in literary criticism and historiography as well as a handy companion for Eco and Pamuk enthusiasts

Donnelly, Claire Norton, 2020-11-16 *Doing History* bridges the gap between the way history is studied in school or as represented in the media and the way it is studied at university level History as an academic discipline has dramatically changed in recent decades and has been enhanced by ideas from other disciplines the influence of postmodernism and historians incorporation of their own reflections into their work *Doing History* presents the ideas and debates that shape how we do history today covering arguments about the nature of historical knowledge and the function of historical writing whether we can ever really know what happened in the past what sources historians depend on and the relative value of popular and academic histories This revised edition includes new chapters on public history and activist histories It looks at global representations of the past across the centuries and provides up to date suggestions for further reading presenting the reader with a thorough and current introduction to studying history at an academic level as well as a pathway to progress this study further Clearly structured and accessibly written it is an essential volume for all students embarking on the study of history *The British Folk Revival 1944-2002* Michael Brocken, 2017-07-12 This title was first published in 2003 This

work considers the post war folk revival in Britain from a popular music studies perspective Michael Brocken provides a historical narrative of the folk revival from the 1940s up until the 1990s beginning with the emergence of the revival from within and around the left wing movements of the 1940s and 1950s Key figures and organizations such as the Workers Music Association the BBC the English Folk Dance and Song Society A L Lloyd and Ewan MacColl are examined closely By looking at the work of British Communist Party splinter groups it is possible to see the refraction of folk music as a political tool Brocken openly challenges folk historicity and internal narrative by discussing the convergence of folk and pop during the 1950s and 1960s The significant development of the folk rock hybrid is considered alongside class Americana radio and the strength of pop culture Brocken shows how the dichotomy of artistic natural versus industry mass produced music since the 1970s has led to a fragmentation and constriction of the folk revival The study concludes with a look at the upsurge of the folk music industry the growth of festivals and the implications of the Internet for the British folk revival Brocken suggests the way forward should involve an acknowledgement that folk music is not superior to but is in fact a form of popular music

Jouni-Matti Kuukkanen,2020-11-12 With a recent surge of interest in the field a volume taking stock of important theoretical shifts in the philosophy of history is greatly needed A Philosophy of History fills this gap by weaving together a range of perspectives on the field which finds itself at a crossroads and asks where it is headed in the 21st century The book takes a concerted effort to go beyond the customary three fold distinction between the speculative analytic and narrativist approaches in philosophy of history It considers what comes after the enduring narrativist turn Chapters incorporate cutting edge discussions on the relevance of contemporary political phenomena such as populism the relation between science and history pragmatism and the paradigmatic challenge of the Anthropocene It also re evaluates the continued relevance of major historical thinkers like Leibniz and R G Collingwood and the endlessly fresh insights they can offer to key debates in the field today Philosophy of History is a much needed reappraisal of the philosophy and theory of history offering an up to date overview of major developments in the field and addressing the pressing questions of where to go next in a post analytical post narrativist world
