**Masters of War** Carl Boggs, 2013-10-11 Few United States citizens conceive of their country as an empire but as the contributors to *Masters of War* convincingly argue the U S legacy of military power runs long and deep Often mobilized in the name of spreading democracy maintaining international order and creating the conditions for economic self determination constantly expanding global U S military power is difficult to characterize as anything but an

imperialism bent on global domination However at the same time that the U S government hawks rhetoric of human rights and national sovereignty its dominion has begun breeding widespread resistance and opposition likely to make the twenty first century an era marked by sustained and generally unanticipated blowback Presenting a wide range of essays by some of the anti war movement s most vocal and incisive critics **Masters of War** reminds us that worldwide economic and military dominance has its price both globally and domestically

**Quo Vadis, Homine ? Are ye Sapiens or Failed Species ?** Sam T. Dudic, 2019-10-05 Outlook on this insane sickly degrading insecure ugly world where the worst and meanest criminals predators and parasites win and rule not merely the fittest Is this the glory of Creation It seems we live in the world of animals in a society of inadequate morons not responsible for their actions and deeds from top to the bottom worldwide without any Cosmic guidance and grace The real issue is not East vs West or South vs North nor conflict of civilizations but incompatible antagonism between the upper strata and masses power authorities and the people exploiters and the destitute Labor and Capital the Good and the Evil Conflict between Homo Sapiens and Homo Defectus Real people s enemies are banks financial speculators bureaucracy mass media entertainment and insane politicians Criminality of the most authorities is in disrespect contempt for their own people In majority of the countries the state does not fulfill its due functions turning into the Monster degrading and terrorizing the people in all spheres That s the common social disease which can be solved only through transformation of inadequate state into Volksstaat based on equality collective just economy

**Freeing God's Children** Allen D. Hertzke, 2006 With the dawning of the 21st Century a new human rights movement burst unexpectedly onto the global stage Initially motivated by concern for persecuted Christians around the world unlikely alliances emerged and the movement grew to encompass a broader quest for human rights Now American evangelicals provide grassroots muscle for causes joined by a wide array of activists from Jews to Catholics feminists to Pentecostals African American leaders to Tibetan Buddhists in the most important human rights movement since the end of the Cold War Given unprecedented insider access author Allen D Hertzke charts the rise of this faith based movement for global human rights and tells the compelling story of the personalities and forces clashes and compromises strategies and protests that shape it In doing so Hertzke shows that by bringing attention to issues like religious persecution Sudanese atrocities North Korean gulags and sex trafficking the movement is shaping American foreign policy and international relations in ways unimaginable a decade ago

*Are we listening to the Arab street?* United States. Congress. House. Committee on Government Reform. Subcommittee on National Security, Veterans Affairs, and International Relations, 2003

**Escaping North Korea** Mike Kim, 2010-05-16 The first of its kind this book provides a unique inside look into the hidden world of ordinary North Koreans Mike Kim who worked with refugees on the Chinese border for four years recounts their experiences of enduring famine sex trafficking and torture as well as the inspirational stories of those who overcame tremendous adversity to escape the repressive regime of their homeland and make new lives One of the few Americans granted entry into the secretive Hermit

Kingdom Kim came to know the isolated country and its people intimately. His North Korean friends entrusted their secrets to him as they revealed the government's brainwashing tactics and confessed their true thoughts about the repressive regime that so rigidly controls their lives. Civilians and soldiers alike spoke of what North Koreans think of Americans and war with America. Children remembered the suffering they endured through the famine. Women and girls recalled their horrific experiences at the hands of sex traffickers. Former political prisoners shared their memories of beatings, torture, and executions in the gulags. With the permission of these courageous individuals, Kim now shares their stories and recounts his dramatic experiences leading North Koreans to asylum through the six thousand mile modern day underground railway through Asia. His unflinching narrative exposes the truth about North Korea, stripping away the last veils that still shroud this brutal dictatorship.

**When You Ride Alone, You Ride with Bin Laden** Bill Maher, 2005-08-01 Political provocateur Bill Maher tells it like it is in a useful and hilarious guide for the many Americans who want to do more here at home to help the war effort but are at a loss as to what. Thirty three dynamic posters and several classics from our government's archive accompanied by text from one of our leading pundits and cutting edge comedians make this the perfect book for this time in our nation's history, the zeitgeist of post 9/11 America. This is the book that will help Americans make the connections between what we do and how it can help our troops and ourselves.

**Turkish Instinct or the Praise of Genocide** Wahi Kachichyan, 2018-05-25 Where are the Armenians of the Armenian highland? Where on earth have they gone? How did they disappear? How is it that of the 7 million Armenians existing in the 14th century, was left only two million by 1920 that otherwise if no genocides were inflicted should have counted as much as 75 million people today instead of 10? Communism and Nazism could implement such a racist and xenophobic ideology only for 70 and 25 years respectively, causing that amount of human and material damage and aberration we all know. No other genocide has ever lasted so many centuries and no other state has perpetrated as many genocides against as many ethnicities as Turkey. An estimated 11 million Armenians have been reportedly exterminated from 1065 to 1923 through a mechanism of cyclical genocides. More than 4 million Christians endured genocide and died at the hands of the Turks between 1890 and 1923. Let us not forget the scope and brutality of the events that exterminated the three quarter of the Armenian people, reduced the Armenian homeland and its colossal cultural heritage to rubble. Armenia was then occupied and partitioned among neighboring countries. More than 3 thousand Armenian churches were either confiscated, destroyed, dilapidated, blown up, turned into stores, stables, or mosques, intentionally left to fall into disrepair or ruination. Ottoman Turkish Pan Turkist and radical Islamist establishments have never concealed a certain fascination, glorification, and praise for genocide to the point of elevating it to a state adopted strategy, dogma, to a mystification, extent supported with a contributive and elusive ideology, denial. And genocide deniers are three times more likely to commit genocide again than other governments. Neither Armenian nor Turkish historiography have ever reported even fringe elements of Turkish establishment and political school of thought open to dialog with Armenians.

much less a sympathizer if at all Historically all genocide committing countries have manifested resentment and promoted reconciliation with the survivors except for Turkey thus holding the truth hostage through denial and distortive misinformation preventing even its own people from accessing to genocide historical information although 15 years ago only 2% of Turkish population knew and accepted the truth presently 15% and threatening the international community of any recognition consequences Somebody has to invite Turkey to rationality responsibility and consciousness If the Armenians were to be assimilated Islamized and Turkified genocide wouldnt happen Ottoman Turkey lost the war and the empire but gained the battle against the Armenians An estimated 6 to 8 million hidden or crypto Armenians the progeny of the orphans and the Islamized Armenians who survived will be challenging Turkey in the foreseeable future whims of history Since the Ottoman Turks incursions into Asia Minor genocide never ceased nor the Christian community took the trouble to protect the first Christian nation state on earth To quote Martin Luther King In the end we will remember not the words of our enemies but the silence of our friends

**Generations of Betrayal** NSLeumas,2014-10-17 more praises You need to know everything in GOB if you are to understand the subversive forces which are destroying our nation our White Heritage gp GOB is the one phenomenal underground book that if read by enough people will turn America upside down ss million words No greater action exists that YOU now can do for our cause than to spread GOBs message Hidden truths revealed never before combined in one book The most important book of the 21st century published at locations worldwide NSL chose to be the mouthpiece against the schemers before his own voice is stilled Youll be fascinated by my uncoverings be satisfied that this is the final word in exposing the lying deceivers so give your commitment to spreading GOBs iconoclastic scholarly research N S Leumas He is multiply published in all genres He has voraciously studied everything historical since ancient times revealing connected links of ramifications up to present times He excels in history research GOB took him 25 years to complete

*The Rise Of The Antichrist* Kamran Faqir,2019-04-02 The Rise of The Antichrist carefully investigates the measurable effects of politics religion science and technology on the human psyche All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems which have been foretold by all prophets or messengers dutifully sent to every nation over time This book carefully explores the much debated topic of the Antichrist regarding his future emergence Will he lead humanity to eternal darkness or enlightenment Although modern science and human history popularly refer to the last 5 000 15 000 years of development in reality there are signs and evidence that human development is considerably older with possibilities of supernatural or otherworldly intervention This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic with a possibility of alien or supernatural influence which was captured on stone glyphs Throughout history there have been developed mighty empires whose chosen kings proclaimed to be Gods But were they actually inter dimensional beings This book will ideally suit readers with an active interest in religion historical events and those interested in a thought provoking read

Oil and American

Identity Sebastian Herbstreuth, 2014-09-10 American dependence on foreign oil has long been described as a serious threat to U S national security and continues to be a political flashpoint even as domestic fracking eases the US reliance on imported energy Oil and American Identity offers a fresh perspective on the subject by reframing energy dependency as a cultural discourse with intimate connections to American views on independence freedom consumption abundance progress and American exceptionalism Through a detailed reading of primary literature Sebastian Herbstreuth also shows how the dangers of foreign oil are linked to American descriptions of foreign oil producers as culturally different und thus undependable Herbstreuth shows how even reliable imports from the Middle East are portrayed as dangerous and undesirable because this region is particularly foreign from an American point of view while oil from friendly countries like Canada is cast as a benign form of energy trade Oil and American Identity rewrites the history of U S foreign oil dependence as a cultural history of the United States in the 20th century

**The Blogging Revolution** Antony Loewenstein, 2015-04-08 The Blogging Revolution is a colourful and revelatory account of bloggers around the globe who live and write under repressive regimes many of them risking their lives in doing so Antony Loewenstein s travels take him to private parties in Iran and Egypt internet cafes in Saudi Arabia and Damascus to the homes of Cuban dissidents and into newspaper offices in Beijing where he discovers the ways in which the internet is threatening the rule of governments Through first hand investigations he reveals the complicity of Western multinationals in the restriction of information in these countries and how bloggers are leading the charge for change The book also reveals some of the key players of the Arab Spring and how years of organising web dissent and bravery led to momentous changes in US backed dictatorships across the Middle East in 2010 and 2011 The Blogging Revolution is a superb examination of the nature of repression in the twenty first century and the power of brave individuals to overcome it

**North Korea in Quotation** , 2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world s diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea s government or its intentions leaving us to examine the words of the country s leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the

**Review of Current Military Literature** ,2007 *Cold Breezes and Idiot Winds* Valerie Scatamburlo d'Annibale,2011-11-19 After 9 11 rightists capitalized on an atmosphere of fear and confusion to resuscitate the culture wars of the 1990s and once again targeted the academy Using tactics reminiscent of the McCarthy era religious firebrands militant neoconservatives and free market fundamentalists engaged in a concerted effort to silence voices critical of the war on terror and liken legitimate dissent to treason Brandishing a discourse of patriotic correctness PC that was informed by American exceptionalism Christian nationalism anti intellectualism and virulent anti liberalism this coalition portrayed the professoriate as a dangerous cabal seeking the demise of Western civilization In *Cold Breezes and Idiot Winds* Scatamburlo D Annibale explains why the most recent assault on academe must be understood in relation to the right s broader offensive against liberalism For decades conservatives have worked diligently to construct a network of foundations think tanks and campus organizations dedicated to demonizing progressive thought the legacy of the New Deal era and the democratic social reforms of the 1960s The author provides a detailed examination of this ideological infrastructure and how it advanced the agenda of PC post 9 11 She explores how the campaign for PC was aided and abetted by a right wing media apparatus how it continues to threaten academic freedom on campuses and how it is currently infecting the larger body politic and contributing to the increased toxicity of the nation s public dialogue While purveyors of PC often invoke culture war rhetoric Scatamburlo D Annibale adroitly reveals that their ultimate aim is to protect corporate power from any form of democratic accountability
