Glory in a Camel's Eye Jeffrey Tayler,2013-08-12 An amazing true account of traveling with Bedouins through a drought stricken North African landscape The Boston Globe Having journeyed in the past across Siberia and up the Congo Jeffrey Tayler was well accustomed to adventure and danger But even this experienced travel writer was unprepared for the physical challenges that awaited him in a Sahara desiccated by eight years of unprecedented drought In this book he recounts his travels across a landscape of nightmares charred earth blinding sky choking gales and what is fittingly called the Valley of the Dead and manages to describe the trip with hilarious horrifying and wonderfully edifying details The Boston Globe The last Westerner to attempt this trek left his skeleton in the sand and even Tayler s camels wilt in the searing wastes But his remarkable perseverance as well as his fluency in classical and Moroccan Arabic helps him find here a bracing purity The Saharawi Bedouin among whom he journeys are untouched by the modernity or radicalism that festers elsewhere in the Arab world By revealing their ingenuity their wit their unrivaled hospitality and more Tayler upends our notions of what is and what is not essentially Arab Beautifully rendered Tayler s guides provide constant entertainment The Seattle Times Fascinating and informative Booklist

Tarikhu Farrar,2020-01-20 The idea of an inherent backwardness of technology and material culture in early sub Saharan Africa is a persistent and tenacious myth in the scholarly and popular imagination Due to the emergence of the field of African studies and the upsurge in historical and archaeological research in recent decades the stridency of this myth has weakened and the overtly racist content of arguments mustered in its defense have tended to disappear But more important are transformations in social political and cultural consciousness which have worked to reshape conceptualizations of African peoples their histories and their cultures Precolonial African Material Culture offers a thorough challenge to the myth of technological backwardness V Tarikhu Farrar revisits the early technology of sub Saharan Africa as revealed by recent research and reconsiders long possessed primary historical sources He then explores the ways that indigenous African technologies have influenced the world beyond the African continent Science and Art department of the Committee of Council on Education.
