pursuit of loftier ideals subsequent to a redistribution of work time but the first precondition for enhanced human development is greater socioeconomic participation which means more paid work for some and less for others In addition to students and researchers in economics sociology and political science this book will be of interest to policy makers policy analysts labour unionists environmentalists and other social reformers

highlight the numerous challenges in this regard and the critically important role that governments play in rebalancing bargaining power in a global economy The chapters are written in an accessible style and deal with practical subjects including employment security workplace change and productivity and working time In Defence of Labour Market Institutions J. Berg, D.
