Reducing Prejudice And Discrimination:

Reducing Prejudice and Discrimination Stuart Oskamp, 2013-05-13 Finding ways to reduce prejudice and discrimination is the central issue in attacking racism in our society Yet this book is almost unique among scientific volumes in its focus on that goal This important book combines critical analysis of theories about how to reduce prejudice and discrimination with cutting edge empirical research conducted in real world settings as well as in controlled laboratory situations This book s outstanding contributors focus on a common set of questions about ways to reduce intergroup conflict prejudice and stereotyping They summarize their own research as well as others interpret the conclusions and suggest implications concerning the practical methods that have been or could be used in programs aimed at reducing intergroup conflict The chapters present solidly based critical analyses and research findings in clear reader friendly prose This book evolved from the Sixteenth Annual Claremont Symposium on Applied Social Psychology Each Symposium in the series concentrates on a single area in which social psychological knowledge is being applied to the resolution of a current social problem Ideal for teachers social workers administrators managers and other social practitioners who are concerned about prejudice and discrimination this book will also serve as a valuable foundation of knowledge in courses that examine this topic

How to reduce discrimination and prejudice in society? Vlad Popa-Florea, 2016-01-15 Essay from the year 2012 in the subject Psychology Social Psychology grade 1 6 Jacobs University Bremen gGmbH course Stereotypes Prejudice and Discrimination language English abstract Nowadays the world is becoming more globalized interconnected and heterogeneous People can no longer interact just with their own type or race but on the contrary must embrace the diversity that surrounds them However as human beings live in groups and act all together as a group this life style also develops an alternative side of stereotypes prejudice and discrimination Stereotypes are related to the cognitive aspect of perception over people thus defined as beliefs and conceptions on the behavior of different groups This paper will evaluate and discuss methods through which an individual person can reduce prejudice and discrimination in society It will offer theoretical background and empirical evidence along with certain limitations that restrain the reduction methods

Racial Reconciliation and the Healing of a Nation Charles J. Ogletree, Jr., Austin Sarat, 2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete Racial Reconciliation and the Healing of a Nation seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of

integration assimilation and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation *Racial Reconciliation and the Healing of a Nation* challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation *Attitudes and Related Psychosocial Constructs* Lewis Aiken, 2002-02-12 In this work the author provides a compact but comprehensive research oriented treatment of attitudes and related psychosocial constructs values opinions beliefs and personal orientations **Proceedings of the 2022 5th International Conference on Humanities Education and Social Sciences (ICHESS 2022)** Augustin Holl, Jun Chen, Guiyun Guan, 2023-02-09 This is an open access book ICHES started in 2018 the last four sessions of ICHES have all been successfully published ICHES is to bring together innovative academics and industrial experts in the field of Humanities Education and Social Sciences to a common forum And we achieved the primary goal which is to promote research and developmental activities in Humanities Education and Social Sciences and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world 2022 5th International Conference on Humanities Education and Social Sciences ICHES 2022 was held on October 14 16 2022 in Chongqing China ICHES 2022 is to bring together innovative academics and industrial experts in the field of Humanities Education and Social Sciences to a common forum The primary goal of the conference is to promote research and developmental activities in Humanities Education and Social Sciences and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in Humanities Education and Social Sciences and related areas **Psychology for VCE Units 1 and 2 9e learnON and Print** John Grivas, 2022-12-19 *Methods of Research* Mr. Rohit Manglik, 2024-03-05 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **The Importance of Target and Audience in Reducing Prejudice and Discrimination Through Intergroup Contact and Extended Contact** Amy Ellard-Gray, 2019 This dissertation compared the efficacy of intergroup contact theory with an alternative prejudice reduction intervention extended contact An experimental manipulation utilizing direct and extended contact conditions was created in an effort to reduce heterosexual Americans sexual prejudice and subtle discrimination against the LGBTQ group Over the course of two studies I tested conditions that could give extended contact an advantage over direct contact I hypothesized that extended contact

with a straight self identified ally would make extended contact more effective than direct contact with a gay person Study 1 was a 2 participant gender x 2 target s sexual orientation gay straight x 2 target s explicit support for LGBTQ issues ally advocate non ally non advocate between subjects experimental design Participants viewed a video in which a male target shared facts about sexual orientation and the harmfulness of prejudice and discrimination Participants completed an online pre test and a post test following the manipulation Study 2 was essentially a replication of Study 1 but an attempt was made to strengthen the manipulation of target s explicit support for LGBTQ issues Results showed that among participants with low previous contact with the LGBTQ group contact with a gay identified target resulted in lower subtle discrimination than extended contact The hypothesis that an ally would make extended contact more effective than direct contact was not supported in either study However Study 1 showed a novel finding that advocacy for LGBTQ issues was associated with higher subtle discrimination among those with low to no contact with the LGBTQ group regardless of sexual orientation of the contact This finding has implications for the application of prejudice reduction interventions in the real world In addition a pre post comparison of prejudice showed that the manipulation itself reduced prejudice over and above target s self disclosed identity suggesting potential for a video format prejudice reduction intervention tool that can be distributed through online channels for a large scale reach

Global Community ,2008-01-01 Global security cannot be achieved until people view the world as a global community Until such time differences will continue to be perceived as threatening These perceived threats are the primary threat to global security This volume proposes methods for minimizing the us versus them mentality so that we can build a sense of global community

Social Psychology of Intergroup Reconciliation Arie Nadler,Thomas Malloy,Jeffrey D. Fisher,2008-03-10 For the most part groups and nations have blamed competition for scarce and coveted resources as an important source of conflict claiming that resolution depends on mutual agreement concerning how to divide these resources The present volume focuses on the removal of psychological barriers e g lack of trust feelings of victimization perceived lack of power as a way to end conflict Social psychology is uniquely equipped both theoretically and methodologically to deal with this challenge
