Redwoods Reminiscences:

Defending the Master Race Jonathan Spiro, 2009 astonishing feat of detective work reveals how a founder of the Bronx Zoo wound up writing *The Passing of the Great Race* 1916 the book that the Nazis later used to justify the exterminationist policies of the Third Reich Book Jacket *Yanks in the Redwoods* Frank H. Baumgardner, 2010 *Yanks in the Redwoods* tells the story of the exploration and settlement of the Northwest focusing on a one hundred mile region of the Mendocino Coast 70 miles north of San Francisco Covering the period of 1800-1900 the book presents several never before published accounts by participants The founders of the Humboldt Bay Community are seen through the eyes of George Gibbs Customs Collector Astoria OR A unique look at the Oregon Trail derived from the notes jotted down by Jesse Applegate and Stanley and Clarissa Taylor debunks the Hollywood image of the hostile Indian Sparsely written diary entries convey the pungent flavors and kernels of wisdom squeezed out of a life of hard work in a family timber business and the almost speechless surprise when corporations quickly moved in and muscled the founders out of their own enterprises The book contains personal accounts by John Work leader of the Hudson Bay Co Expedition to the North Coast and by Jerome and Emily Ford founders of the Mendocino Lumber Co and the fraud investigation of Thomas J Henley It tells of the founding of Mendocino and Ft Bragg the experiences of the Chinese community the role of Dog Hole schooners and the opium trade The book concludes with excerpts from the diary of Etta Stephens Pullen a pioneer who relocated from Maine to Little River California and the transcript of an interview with Lucy Young a Wailaki Lassik Indian telling the grim story of genocide that was going on coincidental with events in Etta Pullen's diary Never before has this coastal segment of Northern California been studied in a comprehensive historical book All of the earliest participant groups Indians Yankees and immigrants from the Midwestern and Southern states northern European immigrants and Chinese are presented Wherever possible excerpts from primary sources written by the people who made this history are directly quoted This work will become an example for other Northwest coastal regions to tell their own stories for later generations to enjoy **A Catalogue of the Redwood Library and Athenæum, in Newport, R.I.** Redwood Library and Athenaeum, 1860 **Early Reminiscences** Samuel Longstreth Parrish, 1927

Redwoods and Reminiscences Joseph Donohoe Grant, 1973 **Eugenic Nation** Alexandra Minna Stern, 2016 With an emphasis on the American West *Eugenic Nation* explores the long and unsettled history of eugenics in the United States This expanded second edition includes shocking details that demonstrate that the story is far from over Alexandra Minna Stern explores the unauthorized sterilization of female inmates in California state prisons and ongoing reparations for North Carolina victims of sterilization as well as the topics of race based intelligence tests school segregation the U S Border Patrol tropical medicine the environmental movement and opposition to better breeding Radically new and relevant this edition draws from recently uncovered historical records to demonstrate patterns of racial bias in California's sterilization program and to recover personal experiences of reproductive injustice Stern connects the eugenic past to the genomic present with

attention to the ethical and social implications of emerging genetic technologies Provided by publisher *California Redwood Parks and Preserves* John B. Dewitt,1982 *The Ghost Forest* Greg King,2023-06-06 The definitive story of the California redwoods their discovery and their exploitation as told by an activist who fought to protect their existence against those determined to cut them down Every year millions of tourists from around the world visit California s famous redwoods Yet few who strain their necks to glimpse the tops of the world s tallest trees understand how unlikely it is that these last isolated groves of giant trees still stand at all In this gripping historical memoir journalist and famed redwood activist Greg King examines how investors and a growing U S economy drove the timber industry to cut down all but 4 percent of the original two million acre redwood ecosystem King first examined redwood logging in the 1980s as an award winning reporter What he found in the woods convinced him to leap the line of neutrality and become an activist dedicated to saving the very last ancient redwood groves remaining in private hands The land grab began in 1849 when a green gold rush of migrants came to exploit the legendary redwoods that grew along the Russian River Several generations later in 1987 Greg King discovered and named Headwaters Forest at 3 000 acres the largest ancient redwood habitat remaining outside of parks and he led the movement to save this grove After a decade of one of the longest most dramatic and violent environmental campaigns in US history in 1999 the state and federal governments protected Headwaters Forest The Ghost Forest explores a central question an overhanging mystery What was it like this botanical Elysium that grew only along the Northern California coast a forest so spectacular but also uniquely valuable as a cornerstone of American economic growth that in the end it would inspire life and death struggles Few but loggers and surveyors ever saw such magnificent trees ancient sentinels that like ghosts have informed King s understanding of the world On a lifelong journey King finds himself through the generations and through the trees A Next Big Idea Club Must Read Title **Trees in Paradise** Jared Farmer,2013-10-28 Describes how the first settlers in California changed the brown landscape there by creating groves wooded suburbs and landscaped cities through planting eucalypts in the lowlands citrus colonies in the south and palms in Los Angeles **City of Wood** James Michael Buckley,2024-11-19 2025 John Brinckerhoff Jackson Prize Association of American Geographers How San Franciscans exploited natural resources such as redwood lumber to produce the first major metropolis of the American West California s 1849 gold rush triggered creation of the instant city of San Francisco as a base to exploit the rich natural resources of the American West City of Wood examines how capitalists and workers logged the state s vast redwood forests to create the financial capital and construction materials needed to build the regional metropolis of San Francisco Architectural historian James Michael Buckley investigates the remote forest and its urban core as two poles of a regional city This city consisted of a far reaching network of spaces produced as company owners and workers arrayed men and machines to extract resources and create human commodities from the region s rich natural environment Combining labor urban industrial and social history City of Wood employs a variety of sources including contemporary newspaper articles

novels and photographs to explore the architectural landscape of lumber from backwoods logging camps and company towns in the woods to busy lumber docks and the homes of workers and owners in San Francisco By imagining the redwood lumber industry as a single community spread across multiple sites a City of Wood Buckley demonstrates how capitalist resource extraction links different places along the production value chain The result is a paradigm shift in architectural history that focuses not just on the evolution of individual building design across time but also on economic connections that link the center and periphery across space

The past quarter century has witnessed the emergence of a scholarly appreciation of American art in California Yet assessments of the early modern pre 1950 have been haphazard Now in one bold volume these scholars have remedied that deficiency Thanks to the rich essays of this wonderful book the art history of California and the nation is graced with further light Dr Kevin Starr State Librarian of California The authors of these essays illuminate a diverse and compelling history one in which what happened at the geographic edges sheds new light on the European points of origin A lively and valuable contribution not just to regional history but to the making and transmission of modernism Whitney Chadwick Professor of Art History San Francisco State University A welcome and overdue evaluation of the distinctive history of modernism in California these essays sensitively explore a cultural terrain at once familiar and strange surveying memorable achievements from painting to photography to architecture and film The authors provocatively suggest the centrality of edges wherever they are found to the national tale and demonstrate it through significant developments on our western margin A must for any serious student of American art and culture Charles C Eldredge The University of Kansas An engrossing examination of modernist practices in California before the Abstract Expressionists and beatniks came to town It includes art scenes peopled by Mexican muralists European artists in exile third generation Californians idealist photographers and immigrant artisans Wanda Corn Professor of Art History Stanford University These fascinating essays do much more than fill a major gap in our understanding of American regionalism Their scope is superb because of the inclusive range of their definition of art the varied ethnicities of the artists discussed and the distinctive impact of environment light and culture on California art A dazzling treasure as pleasing to the eye as it is to the mind Michael Kammen Professor of History Cornell University

Golden Memories of the San Francisco Bay Area Steven Friedman,2000 San Francisco the flamboyant and cosmopolitan city by the bay and its neighboring municipalities was born to tell stories upon stories Ranging in ages from 68 to 91 the narrators reflect the ethnic and religious diversity of a metropolis that has been a pioneer of several social political and cultural movements They also stretch across both ends of the economic spectrum A Japanese American woman describes the

harsh humiliation of internment during World War II while an Irish Catholic man fondly remembers being a paperboy in the same neighborhood for ten years until he was 20 An African American woman from Marin City explains why she ll never sell the quilts she makes Another woman recalls kissing under the Golden Gate Bridge with the man who eventually became her husband The book also utilizes more than 80 photographs from the narrators and the collections of local libraries museums and historical societies to complement the poignant humorous and revealing portraits of the people and places of the San Francisco Bay Area

Who Saved the Redwoods Laura and James Wasserman,2019-05-01 Powerful lumber interests stood in the way of the first campaigns to save the redwood trees of Humboldt County California but they were boldly opposed and pushed back This history of the early 1900s recalls the Progressive Era crusades of women and men who prevailed against great odds protecting the best of California s northern redwood forests This book tells the forgotten dramatic story of early 20th century Californians and other Americans who were the first group to preserve an important span of California s northern redwood forests a story never told before in one place Numerous books have been published about battles to save the redwoods particularly during the California redwood wars of the 1960s 1970s and 1990s But no book exclusively details the first fights during the 1920s and 1930s and portrays the significant role of women By successfully fending off the logging industry they paved the way for the modern environmental movement The book incorporating archived material that highlights for the first time the prominent role of women covers the most formative period of early efforts to save the redwoods the 21 years from 1913 through 1934 The story recounts a colorful moment in time when a paradigm firmly shifted toward preservation and a new generation of native Californians successfully faced down Eastern lumber interests over destruction of their beautiful ancient forests The storyline follows a trajectory of initial failure and ridicule then limited successes and the determination that overcame the entrenched intransigence of lumber interests Finally a historic rush of stunning preservation victories established Humboldt Redwoods State Park as the largest expanse of surviving old growth redwoods on earth This book offers a definitive account of a pivotal moment in environmentalism and a new explanation of how forceful determined people a century ago preserved the great California redwood forests that are now enjoyed by millions of visitors from every corner of earth This book tells the forgotten dramatic story of early 20th century Californians and other Americans who were the first group to preserve an important span of California s northern redwood forests a story never told before in one place By successfully fending off the logging industry they paved the way for the modern environmental movement The book incorporating archived material that highlights for the first time the prominent role of women covers the most formative period of early efforts to save the redwoods the 21 years from 1913 through 1934 The story recounts a colorful moment in time when a paradigm firmly shifted toward preservation and a new generation of native Californians successfully faced down Eastern lumber interests over destruction of their beautiful ancient forests The storyline follows a trajectory of initial failure and ridicule then limited successes and the determination that overcame the entrenched

intransigence of lumber interests Finally a historic rush of stunning preservation victories established Humboldt Redwoods State Park as the largest expanse of surviving old growth redwoods on earth This book offers a definitive account of a pivotal moment in environmentalism and a new explanation of how forceful determined people a century ago preserved the great California redwood forests that are now enjoyed by millions of visitors from every corner of earth Upton Sinclair Lauren Coodley,2020-04-01 Had Upton Sinclair not written a single book after *The Jungle* he would still be famous But Sinclair was a mere twenty five years old when he wrote *The Jungle* and over the next sixty five years he wrote nearly eighty more books and won a Pulitzer Prize for fiction He was also a filmmaker labor activist women s rights advocate and health pioneer on a grand scale This new biography of Sinclair underscores his place in the American story as a social political and cultural force a man who more than any other disrupted and documented his era in the name of social justice Upton Sinclair California Socialist Celebrity Intellectual shows us Sinclair engaged in one cause after another some surprisingly relevant today the Sacco Vanzetti trial the depredations of the oil industry the wrongful imprisonment of the Wobblies and the perils of unchecked capitalism and concentrated media Throughout Lauren Coodley provides a new perspective for looking at Sinclair s prodigiously productive life Coodley s book reveals a consistent streak of feminism both in Sinclair s relationships with women wives friends and activists and in his interest in issues of housework and childcare temperance and diet This biography will forever alter our picture of this complicated unconventional often controversial man whose whole life was dedicated to helping people understand how society was run by whom and for whom The Fight to Save the Redwoods Susan R. Schrepfer,2003-04-01 This is not a simple or ordinary history of a conservation crusade Schrepfer very ably traces the changes in scientific wisdom from nineteenth century romanticism and teleological evolutionism to more current ecological dynamism and the influence of those intellectual developments on political history The subject is important much broader than the title suggests and so is the book *American Historical Review* **Reading the Landscape of America** May Theilgaard Watts,1999 In this natural history classic the author takes the reader on field trips to landscapes across America both domesticated and wild She shows how to read the stories written in the land interpreting the clues laid down by history culture and natural forces A renowned teacher writer and conservationist in her native Midwest Watts studied with Henry Cowles the pioneering American ecologist She was the first to explain his theories of plant succession to the general public Her graceful witty essays with charming illustrations by the author are still relevant and engaging today as she invites us to see the world around us with fresh eyes **The History of Redwood County, Minnesota** ,1916 **Building the Redwood Region** James Michael Buckley,2000
