Re-examining Liberation in Namibia Henning Melber, 2003 From 1960 SWAPO of Namibia led the organised and later armed struggle for independence In late 1989 the liberation movement was finally elected to power under United Nations supervision as the legitimate government When the Republic of Namibia was proclaimed on 21 March 1990 the long and bitter struggle for sovereignty came to an end This volume takes stock of emerging trends in the country's political culture since independence The contributions mainly by authors from Namibia and Southern Africa who supported the anti colonial movements critically explore the achievements and shortcomings that have been part of liberation in Namibia Henning Melber was Director of the Namibian Economic Policy Research Unit NEPRU in Windhoek between 1992 and 2000 and has been Research Director at The Nordic Africa Institute since then He coordinates the research project on Liberation and Democracy in Southern Africa of which this volume is part

Towards a Contextualized Conceptualization of Social Justice for Post-Apartheid Namibia

Basilius M. Kasera, 2024-05-31 The search for justice beyond the basic political understanding is profoundly theological and ethical In this work Dr Basilius M Kasera analyses the meaning of justice in post apartheid Namibia from a biblical perspective He argues that notions of justice carry no meaning unless they emanate from the community of the affected Every group of people by virtue of being God's image bearers are able to assess their own context and provide befitting solutions However this kind of agency has not been afforded to the post apartheid Namibian society which continues to operate on borrowed models of justice While extrapolating on Allan Boesak's beneficial theological concepts of justice Dr Kasera encourages theologians and Christians at large to participate in the creation of meaningful effective and transformative policies programmes practices systems and justice institutions

National Liberation in Postcolonial Southern Africa

Christian A. Williams, 2015-10-08 This book traces the South West Africa People's Organization SWAPO across its three decades in exile through rich local histories of the camps where Namibian exiles lived in Tanzania Zambia and Angola Christian A Williams

highlights how different Namibians experienced these sites as well as the tensions that developed within SWAPO as Namibians encountered one another and as officials asserted their power and protected their interests within a national community. The book then follows Namibians who lived in exile into post colonial Namibia examining the extent to which divisions and hierarchies that emerged in the camps continue to shape how Namibians relate to one another today undermining the more just and humane society that many had imagined. In developing these points about SWAPO the book draws attention to Southern African literature more widely suggesting parallels across the region and defining a field of study that examines post colonial Africa through the camp.

Women Journalists in Namibia's Liberation Struggle 1985-1990 Mboono Nghidinwa, 2008-12-29 This study investigates the experiences of women journalists during the last phase of Namibia's liberation struggle against South African rule. Black or white women journalists in Namibia made significant contributions to the liberation cause including the founding of a high profiled newspaper whilst others worked for media sympathetic to the apartheid government. Based on interviews and deploying feminist media theory Maria Mboono Nghidinwa pays close attention to the gendered power relationships in the newsrooms of newspapers and radio stations at the time. She looks at the intense political intimidations which targeted women and in particular the constraints experienced by black women journalists.

Secessionism in African Politics Lotje de Vries, Pierre Englebert, Mareike Schomerus, 2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state. Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date. The respected expert contributors put salient and lesser known cases into comparative perspective covering Biafra, Katanga, Eritrea and South Sudan alongside Barotseland, Cabinda and the Comoros among others. Suggesting that African secessionism can be understood through the categories of aspiration, grievance, performance and disenchantment the book's analytical framework promises to be a building block for future studies of the topic.

Apartheid's Black Soldiers Lennart Bolliger, 2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa's security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged. In anticolonial struggles across the African continent tens of thousands of African soldiers served in the militaries of colonial and settler states. In southern Africa they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements' armed wings. Despite these soldiers' significant impact on the region's military and political history this dimension of southern Africa's anticolonial struggles has been almost entirely ignored in previous scholarship. Black troops from Namibia and Angola spearheaded apartheid South Africa's military intervention in their countries' respective anticolonial war and postindependence civil war. Drawing from oral history interviews and archival sources Lennart Bolliger challenges the common framing of these wars as struggles of national

liberation fought by and for Africans against White colonial and settler state armies Focusing on three case studies of predominantly Black units commanded by White officers Bolliger investigates how and why these soldiers participated in South Africa's security forces and considers the legacies of that involvement In tackling these questions he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book's unique analysis of apartheid military culture shows how South Africa's military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity

Salih, 2005-12-10 This book offers in depth analysis of parliamentary development set in a historical context informed by Africa's post 1990s democratic resurgence In particular it illustrates how African parliaments are caught between the twin processes of being part of the machinery of government while exercising the function of holding government accountable

From Bullets to Ballots John Ishiyama, 2018-12-07 In recent years an increasing amount of research has argued that the successful transformation of rebel organization into parties is critical to stable post conflict peace and democratization However the process of the transformation of rebel groups into parties is not well understood Under what conditions do rebel groups transform into parties Or into something else What are the causal mechanisms that lead to the successful transformation of rebel groups into political parties Does the transformation of rebel groups into parties actually contribute to political stability and democratization How does transformation differ from region to region The chapters in this book directly address these questions and include a combination of broader theoretical and empirical chapters coupled with several in depth case studies by some of the most notable scholars in the field It should prove indispensable to students of both civil wars post conflict peace and political parties This book was originally published as a special issue of Democratization

Imagining the Post-Apartheid State John T. Friedman, 2011-07-01 In northwest Namibia people's political imagination offers a powerful insight into the post apartheid state Based on extensive anthropological fieldwork this book focuses on the former South African apartheid regime and the present democratic government it compares the perceptions and practices of state and customary forms of judicial

administration reflects upon the historical trajectory of a chieftaincy dispute in relation to the rooting of state power and examines everyday forms of belonging in the independent Namibian State By elucidating the State through a focus on the social historical and cultural processes that help constitute it this study helps chart new territory for anthropology and it contributes an ethnographic perspective to a wider set of interdisciplinary debates on the State and state processes **The Gender Politics of the Namibian Liberation Struggle** Martha Akawa, 2014-05-03 Womens contributions against apartheid under the auspices of the Namibian liberation movement SWAPO and their personal experiences in exile take center stage in this study Male and female leadership structures in exile are analysed whilst the sexual politics in the refugee camps and the public imagery of female representation in SWAPOs nationalism receive special attention The partys public pronouncements of women empowerment and gender equality are compared to the actual implementations of gender politics during and after the liberation struggle The New Expatriates Anne-Meike Fechter, Katie Walsh, 2013-09-13 While scholarship on migration has been thriving for decades little attention has been paid to professionals from Europe and America who move temporarily to destinations beyond the West Such migrants are marginalised and depoliticised by debates on immigration policy and thus there is an urgent need to develop nuanced understanding of these more privileged movements In many ways these are the modern day equivalents of colonial settlers and expatriates yet the continuities in their migration practices have rarely been considered The New Expatriates advances our understanding of contemporary mobile professionals by engaging with postcolonial theories of race culture and identity The volume brings together authors and research from across a wide range of disciplines seeking to evaluate the significance of the past in shaping contemporary expatriate mobilities and highlighting postcolonial continuities in relation to people practices and imaginations Acknowledging the resonances across a range of geographical sites in Asia Africa and the Middle East the chapters consider the particularity of postcolonial contexts while enabling comparative perspectives A focus on race and culture is often obscured by assumptions about class occupation and skill but this volume explicitly examines the way in which whiteness and imperial relationships continue to shape the migration experiences of Euro American skilled migrants as they seek out new places to live and work This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

A Far-Away War Ian Liebenberg, 2016-01-31 South Africa s armed forces invaded Angola in 1975 setting off a war that had consequences for the whole region that are still felt today A Far Away War contributes to a wider understanding of this war in Angola and Namibia The book does not only look at the war from an e olde South African Defence Force perspective but also gives a voice to participants e on the other sidee emphasising the role of the Cubans and Russians This focus is supplemented by the inclusion of many never before published photographs from Cuban and Russian archives and a comprehensive bibliography **History of Namibia** Marion Wallace, 2014-01-16 In 1990 Namibia gained its independence after a decades long struggle against South African rule and before that against German colonialism This book the first new

scholarly general history of Namibia in two decades provides a fresh synthesis of these events and of the much longer pre colonial period A History of Namibia opens with a chapter by John Kinahan covering the evidence of human activity in Namibia from the earliest times to the nineteenth century and for the first time making a synthesis of current archaeological research widely available to non specialists In subsequent chapters Marion Wallace weaves together the most up to date academic research in English and German on Namibian history from the mid eighteenth century to the present She explores histories of migration production and power in the pre colonial period the changes triggered by European expansion and the dynamics of the period of formal colonialism The coverage of German rule includes a full chapter on the genocide of 1904 8 Here Wallace outlines the history and historiography of the wars fought in central and southern Namibia and the subsequent mass imprisonment of defeated Africans in concentration camps The final two chapters analyse the period of African nationalism apartheid and war between 1946 and 1990 The book s conclusion looks briefly at the development of Namibia in the two decades since independence A History of Namibia provides an invaluable introduction and reference source to the past of a country that is often neglected despite its significance in the history of the region and indeed for that of European colonialism and international relations It makes accessible the latest research on the country illuminates current controversies puts forward new insights and suggests future directions for research The book s extensive bibliography adds to its usefulness for scholar and general reader alike
