Reflections Of Nazism:

Reflections of Nazism Saul Friedländer, 1982 **The World Hitler Never Made** Gavriel D. Rosenfeld, 2005-05-23 A fascinating 2005 study of the place of alternate histories of Nazism within Western popular culture *Revisiting the "Nazi Occult"* Monica Black, Eric Kurlander, 2015 New collection of essays promising to re energize the debate on Nazism's occult roots and legacies and thus our understanding of German cultural and intellectual history over the past century **In Times of Crisis** Steven E. Aschheim, 2001-02-01 The nineteenth and twentieth century relationship between European culture German history and the Jewish experience produced some of the West's most powerful and enduring intellectual creations and perhaps in subtly paradoxical and interrelated ways our century's darkest genocidal moments In Times of Crisis explores the flashpoints of this vexed relationship mapping the coordinates of a complex triangular encounter of immense historical import In essays that range from the question of Nietzsche's legacy to the controversy over Daniel Goldhagen's Hitler's Willing Executioners the distinguished historian Steven E Aschheim presents this encounter as an ongoing dialogue between two evolving cultural identities He touches on past dimensions of this exchange such as the politics of Weimar Germany and on present dilemmas of grasping and representing it such as the Israeli discourse on the Holocaust His work inevitably traces the roots and ramifications of Nazism but at the same time brings into focus historical circumstances and contemporary issues often overshadowed or distorted by the Holocaust These essays reveal the ubiquitous charged inscriptions of Nazi genocide within our own culture and illuminate the projects of some later thinkers and historians from Hannah Arendt to George Mosse to Saul Friedlander who have wrestled with its problematics and sought to capture its essence From the broadly historical to the personal from the politics of Weimar Germany to the experience of growing up German Jewish in South Africa the essays expand our understanding of German Jewish history in particular but also of historical processes in general **Nazi Cinema as Enchantment** Mary-Elizabeth O'Brien, 2006 The Nazi regime did not merely terrorize its citizens into submission it also seduced them by offering stability a traditional value system a sense of belonging and hope of a better standard of living Nazi cinema's popularity rested on its ability to express positive social fantasies and promote the enchantment of reality so that one would want to share in the dream at any price This is an interdisciplinary study written for scholars and students in the fields of film studies German studies history critical studies and political science that explores how cinema participated in the larger framework of everyday fascism The book examines how five film genres the historical musical the foreign adventure film the home front film the melodrama and the problem film enchanted audiences and enacted shared stories that can tell us much about how family community history the nation and the war were imagined in Nazi Germany The book analyzes thirteen motion pictures many of which are not well known to English speaking audiences Wunschkonzert Die große Liebe Tanz auf dem Vulkan Damals Die Degenhardts Opfergang Kautschuk Robert und Bertram Verklungene Melodie Frauen für Golden Hill Das Leben kann so schön sein Der verzauberte

Tag and Via Mala Based on exhaustive research in German archives the book examines in addition to the films themselves articles from the propaganda ministry's official organ *Der deutsche Film* daily trade sheets fan magazines and even studio press packages for individual stars and films Mary Elizabeth O'Brien is Professor of German at Skidmore College Saratoga Springs New York

The Roots of Nazi Psychology Jay Y. Gonen, 2013-07-24 Was Hitler a moral aberration or a man of his people This topic has been hotly argued in recent years and now Jay Gonen brings new answers to the debate using a psychohistorical perspective contending that Hitler reflected the psyche of many Germans of his time Like any charismatic leader Hitler was an expert scanner of the Zeitgeist He possessed an uncanny ability to read the masses correctly and guide them with new ideas that were merely reflections of what the people already believed Gonen argues that Hitler's notions grew from the general fabric of German culture in the years following World War I Basing his work in the role of ideologies in group psychology Gonen exposes the psychological underpinnings of Nazi Germany's desire to expand its living space and exterminate Jews Hitler responded to the nation's group fantasy of renewing a Holy Roman Empire of the German nation He presented the utopian ideal of one large state where the nation represented one extended family In reality however he desired the triumph of automatism and totalitarian practices that would preempt family autonomy and private action Such a regimented state would become a war machine designed to breed infantile soldiers brainwashed for sacrifice To achieve that aim he unleashed barbaric forces whose utopian features were the very aspects of the state that made it most cruel
