

A serene sunset scene over a calm ocean. The sky is a gradient of warm colors, from deep orange near the horizon to a lighter yellow at the top. The sun is just below the horizon, creating a bright glow. In the foreground, the dark silhouettes of rocky islands or cliffs are visible against the water and sky. The overall mood is peaceful and contemplative.

Self-reflection is a humbling
process. It's essential to find out
why you think, say, and do certain
things... then better yourself.

Self-Reflection for the Opaque Mind T. Parent,2016-12-01 This volume attempts to solve a grave problem about critical self reflection The worry is that we critical thinkers are all in epistemic bad faith in light of what psychology tells us After all the research shows not merely that we are bad at detecting ego threatening thoughts la Freud It also indicates that we are ignorant of even our ordinary thoughts e g reasons for our moral judgments of others Haidt 2001 and even mundane reasons for buying one pair of stockings over another Nisbett Wilson 1977 However reflection on one s thoughts requires knowing what those thoughts are in the first place So if ignorance is the norm why attempt self reflection The activity would just display naivety about psychology Yet while respecting all the data this book argues that remarkably we are sometimes infallible in our self discerning judgments Even so infallibility does not imply indubitability and there is no Cartesian ambition to provide a foundation for empirical knowledge The point is rather to explain how self reflection as a rational activity is possible
