Reflections On Growing Old:

Light of Faith George Appleton, 1995-01-01

The Granny Who Stands on Her Head Ann Richardson, 2021-11-22

Somewhere in the middle of my seventies I realised that I liked being old So begins this set of engaging stories and thoughts on growing older by someone with a vast range of life experience to share Part memoir and part reflection on the joys and challenges of modern life this book explores the nature of old age and how it compares to what came before The author argues that being older does not have to be feared Even better it can be fun This kaleidoscopic book offers a refreshing and often funny look at a wide range of issues Including the personal awkwardness of a loss of memory a new take on the nature of ambition and sex at the age of 90 It challenges head on many of the prevalent myths and taboos surrounding old age You may never look at old age in the same way again

Old Soul, Young Spirit Adolfo Quezada, 2015-05-27 This book adopts an optimistic view of aging It does not prescribe It provides no magic nostrums for eternal youth Instead its author Adolfo Quezada a counselor of many years centers on the soul and the spirit If there is any instruction in Old Soul Young Spirit it is in helping you to explore a path to contentment in aging It does this by describing ideals the best way to think about such vital matters as loss fear uncertainty one's purpose death and of course love This is a short book but it is long on thought

Growing Old in Christ Stanley Hauerwas, 2003-06-20 One of the hallmarks of contemporary culture is its attitude toward aging and the elderly Youth and productivity are celebrated in today's society while the elderly are increasingly marginalized This not only poses difficulties for old people but is also a loss for the young and middle agers who could learn much from the elderly including what it means to grow old and die in Christ Growing Old in Christ presents the first serious theological reflection ever on what it means to grow old particularly in our culture and particularly as a Christian In a full orbed discussion of the subject eighteen first rate Christian thinkers survey biblical and historical perspectives on aging look at aging in the modern world and describe the Christian practice of growing old Along the way they address many timely issues including the medicalization of aging the debate over physician assisted suicide and the importance of friendships both among the elderly and between the elderly and the young Weighty enough to instruct theologians ethicists and professional caregivers yet accessible enough for pastors and general readers this book will benefit anyone seeking faith based insight into growing old Contributors David Aers David Cloutier Rowan A Greer Stanley Hauerwas Judith C Hays Richard B Hays Shaun C Henson L Gregory Jones Susan Pendleton Jones Patricia Beattie Jung D Stephen Long M Therese Lysaught David Matzko McCarthy Keith G Meador Charles Pinches Joel James Shuman Carole Bailey Stoneking Laura Yordy

Reflections on Old Age Cornelius F. Murphy Jr., 2015-04-07 The English writer E M Forster described old age as a seductive combination of increased wisdom and decaying powers to which too little intelligence is devoted This book is a response to that criticism It explains how old age has been considered throughout the ages by philosophers poets and other literary figures and explores how the extraordinary increase of life expectancy that began in the last century has been sustained by

science and medicine Unfortunately the general public still prefers to keep the elderly out of sight and especially out of mind To overcome this marginalization I call for the emergence of a more inclusive humanism one that is welcoming to persons of all ages To overcome the pervasive isolation of the elderly requires a new dialogue across all the living generations Echoing the sentiments of Cicero in his classic study of old age I also call for a reflective maturity to develop among the elderly one that reaches deeply into themselves and increases their understanding of the world around them Spiritual maturity demands growth in virtue and charity in the advance of years A reaching out to all in the pursuit of justice and the common good is strongly recommended The book concludes with some reflections upon hopes for personal immortality as well as the qualities of divine justice and mercy

The Time of Your Later Life Dr Declan Lyons, 2018-06-18 The Time of Your Later Life is a guide to help older people explore new possibilities and write new life narratives in the process of growing older It is an interpretation of some of the key events of the year seen through the eyes of a middle ager who happens to work as a psychiatrist for older people and who actively aspires to be a thriving older person The book reminisces recalls reinterprets and explores the themes and circumstances of the year based on a journey through the seasons It consists of 52 essays one for each week of the year exploring Themes Festivals Rituals Opportunities With observations and wry perceptions challenging the reader to do more and get more out of life The intended audience for this book is the 16 per cent of the Irish population aged 65 and older but also middle agers approaching this age category as well as friends family members and supporters of older people irrespective of age in other words all of us

Reflections on Aging Bruce McBeath, 1914-11-15 The view from the inside of aging compels this collection of essays and photographs Learning about the actual interior life of older people has substantially challenged our assumptions about aging and re shapes our perspective about growing older Here is older age experienced by those actually living it with its legitimate complexity and unceasing mystery

Growing Old Isn't for Sissies Marshall L. Cook, 2010-04 A ninety six year old man on admission to a nursing home was interviewed by a social worker She asked Did you have a happy childhood With a twinkle in his eye he replied So far so good One of the undeniable facts of life is that we are all aging Many people dread growing old It was Bette Davis who said Old age ain't no place for sissies And yet Dr Cook believes that what really matters as we age is not the condition of the body but that of the spirit We can find meaning and purpose no matter what our age Growing Old Isn't for Sissies focuses on the physical emotional mental and spiritual challenges we encounter as we age primarily after age sixty five and what our Christian faith has to say to those challenges and changes Our faith in God can help us in our journey through life no matter what our age This book will help those who are growing older to understand some of the changes and problems associated with growing older whether you are twenty forty sixty or eighty It will help you understand the spiritual resources that are important in coping with growing older

demystify our greatest fear and cultivate a positive awareness of aging In this timely and essential book de Hennezel offers a fresh perspective on the art of growing old She confronts head on the inevitable grief we sustain at the loss of our youth and explains how refusing to age and move forward in life is actually what makes us become old Combining personal anecdotes with psychological theory philosophy and eye opening scientific research from around the world she shows why we should look forward to embracing everything aging has to offer in terms of human and spiritual enrichment *The Art of Growing Old* is a thought provoking brave and uplifting meditation on the later years as they should be lived *Let Evening Come* Mary Chase Morrison,1998

Neither memoir nor inspirational tract this is a thoughtful consideration of the gains and losses of the ageing process **What Does It Mean to Grow Old?** Thomas R. Cole,1987-08 In *What Does It Mean to Grow Old* essayists come to grips as best they can with the phenomenon of an America that is about to become the Old Country They have been drawn from every relevant discipline gerontology social medicine politics health anthropology ethics law and asked to speak their mind Most of them write extremely well and their sharply individual voices are heard *Reflections on Growing Old* John La Farge,1963

Growing Old in America Beth Hess,2020-03-02 Modern industrial societies are characterized by long term declines in fertility and steady increases in life expectancy Together these trends result in an aging population The United States is no exception since 1969 the median age has risen from 29 4 to a projected 36 4 in the year 2000 This fourth edition of the standard reader on the sociology of aging has been completely revised with 90 percent new material to reflect new information and new issues in this rapidly developing field Students and practicing professionals will find it a lively accessible overview **Aging and Identity** Sara M. Deats,Lagretta Lenker,1999-04-30

Viewing artistic works through the lens of both contemporary gerontological theory and postmodernist concepts the contributing scholars examine literary treatments cinematic depictions and artistic portraits of aging from Shakespeare to Hemingway from Horton Foote to Disney from Rembrandt to Alice Neale while also comparing the attitudes toward aging in Native American African American and Anglo American literature The examples demonstrate that long before gerontologists endorsed a Janus faced model of aging artists were celebrating the diversity of the elderly challenging the bio medical equation of senescence with inevitable senility Underlying all of this discussion is the firm conviction that cultural texts construct as well as encode the conventional perceptions of their society that literature the arts and the media not only mirror society s mores but can also help to create and enforce them **A World Growing Old** Daniel Callahan,1996-08-01

For much of the developed world health care for a surging elderly population looms as one of the most daunting problems of the coming decade In this book contributors from diverse disciplinary backgrounds and countries discuss resource allocation for the elderly and debate plans for the years ahead Essays focus on five general issues the meaning of old age the goals of medicine and health care for the elderly the balance between the needs of the young and old the pressures of other social priorities and the role of families especially the burden on women in long term care In consideration of the difficult moral and practical issues involved the editors conclude

the volume with a special report containing policy recommendations from representatives of eight countries the United States Belgium the Czech Republic Germany Hungary the Netherlands Sweden and the United Kingdom This important volume will be of interest to policymakers and a broad spectrum of health care professionals as well as to anyone interested in the fate of the elderly or in coming health care challenges

Successful Aging as a Contemporary Obsession Sarah Lamb, 2017-05-22 In recent decades the North American public has pursued an inspirational vision of successful aging striving through medical technique and individual effort to eradicate the declines vulnerabilities and dependencies previously commonly associated with old age On the face of it this bold new vision of successful healthy and active aging is highly appealing But it also rests on a deep cultural discomfort with aging and being old The contributors to *Successful Aging as a Contemporary Obsession* explore how the successful aging movement is playing out across five continents Their chapters investigate a variety of people including Catholic nuns in the United States Hindu ashram dwellers older American women seeking plastic surgery aging African American lesbians and gay men in the District of Columbia Chicago home health care workers and their aging clients Mexican men foregoing Viagra dementia and Alzheimer sufferers in the United States and Brazil and aging policies in Denmark Poland India China Japan and Uganda This book offers a fresh look at a major cultural and public health movement of our time questioning what has become for many a taken for granted goal aging in a way that almost denies aging itself
