The Austronesian Story in Western Zhou Bronze J.G. Cheock,2020-01-01 Austronesian Art and Genius brought us on a journey of discovery Book 2 The Austronesian Dilemma explored the abundant jade artifacts left by our ancestors to find answers to the questions of our past In the 3rd book of the Austronesian series The Austronesian Story in Western Zhou Bronze we listen to the story told by ancient bronze vessels found on the Philippine islands and correlate them with similar artifacts of Classical China These bronze vessels made in the piece mold casting method were able to hold extremely fine detail including ancient texts that captured historical events giving us a precious opportunity to learn about the past as narrated by those who were actually there *Metamorphic Imagery in Ancient Chinese Art and Religion* Elizabeth Childs-Johnson,John S Major,2023-05-30 Metamorphic Imagery in Ancient Chinese Art and Religion demonstrates that the concept of metamorphism was central to ancient Chinese religious belief and practices from at least the late Neolithic period through the Warring States Period of the Zhou dynasty Central to the authors argument is the ubiquitous motif in early Chinese figurative art the metamorphic power mask While the motif underwent stylistic variation over time its formal properties remained stable underscoring the image s ongoing religious centrality It symbolized the metamorphosis through the phenomenon of death of royal personages from living humans to deceased ancestors who required worship and sacrificial offerings Treated with deference and respect the royal ancestors lent support to their living descendants ratifying and upholding their rule neglected they became dangerous even malevolent Employing a multidisciplinary approach that integrates archaeologically recovered objects with literary evidence from oracle bone and bronze inscriptions to canonical texts all situated in the appropriate historical context the study presents detailed analyses of form and style and of change

over time observing the importance of relationality and the dynamic between imagery materials and affects This book is a significant publication in the field of early China studies presenting an integrated conception of ancient art and religion that surpasses any other work now available **The Austronesian Dilemma** J.G. Cheock,2020-05-25 The first book opened our eyes to the amazing art and inspirational genius of our Austronesian ancestors It leads us to the question of what happened to them Book 2 The Austronesian Dilemma seeks to answer this question by allowing nephrite jade artifacts and ancient texts tell the story *The Retreat of the Elephants* Mark Elvin,2020-08-11 The eminent China scholar delivers a landmark study of Chinese culture s relationship to the natural environment across thousands of years of history Spanning the three millennia for which there are written records The Retreat of the Elephants is the first comprehensive environmental history of China It is also a treasure trove of literary political aesthetic scientific and religious sources which allow the reader direct access to the views and feelings of Chinese people toward their environment and their landscape China scholar and historian Mark Elvin chronicles the spread of the Chinese style of farming that eliminated elephant habitats the destruction of most of the forests the impacts of war on the landscape and the re engineering of the countryside through gigantic water control systems He documents the histories of three contrasting localities within China to show how ecological dynamics defined the lives of the inhabitants And he shows that China in the eighteenth century was probably more environmentally degraded than northwestern Europe around this time Indispensable for its new perspective on long term Chinese history and its explanation of the roots of China s present day environmental crisis this book opens a door into the Chinese past *China Myth or History?* J.G. Cheock,2017-10-02 Viewing ancient China in world context exploring the possibilities of international activities particularly in relation to the Philippines during their classical dynasties based on the presence of abundant artifacts ancient texts and new archaeological discoveries **Austronesian Myth or History?** J.G. Cheock,2021-01-01 Listen to the story told by our ancestors in the myths and legends treasured and preserved through the ages A narrative passed on through words and graphic images that come to life as we shine a light on our past in order to understand the present and prepare for our future *Ritual, Play, and Belief in Evolution and Early Human Societies* Colin Renfrew,Iain Morley,Michael Boyd,2018 This book presents unique new insights into the development of human ritual and society through our heritage of play and performance Sentient Archaeologies Courtney Nimura,Rebecca O'Sullivan,Richard Bradley,2023-07-15 Archaeology in the past century has seen a major shift from theoretical frameworks that treat the remains of past societies as static snapshots of particular moments in time to interpretations that prioritize change and variability Though established analytical concepts such as typology remain key parts of the archaeologist s investigative toolkit data gathering strategies and interpretative frameworks have become infused progressively with the concept that archaeology is living in the sense of both the objects of study and the discipline as a whole The significance for the field is that researchers across the world are integrating ideas informed by relational epistemologies and mutually constructive ontologies into their work from the initial

stage of project design all the way down to post excavation interpretation This volume showcases examples of such work highlighting the utility of these ideas to exploring material both old and new The illuminating research and novel explanations presented contribute to resolving long standing problems in regional archaeologies across Africa Asia Australia Europe and Oceania In this way this volume reinvigorates approaches taken towards older material but also acts as a springboard for future innovative discussions of theory in archaeology and related disciplines **Handbook to Ruling the World** J.G. Cheock,2022-01-01 A 3 000 year old step by step guide on how to destroy nations and bring them to the point where Colonizers are welcomed and loved while making them despise their own land and people These amazing ancient secret methods to Ruling the World written by King Wen of the Zhou dynasty may still be observed in practice today
