## **Reflexive Language Reported Speech And Metapragmatics:**

**Reflexive Language** John A. Lucy, 1993-03-04 These innovative essays represent a critique of those researchers in the humanities and social sciences who fail to take language seriously *Reflexive Language* John A. Lucy, 1993-03-04 This volume examines the nature and significance of the reflexive capacity of natural language its ability to represent its own structure and use through reported speech and explicit statements about language use metapragmatics Included are theoretical overviews case studies of the forms and functioning of reflexive language and explorations of the broad importance of reflexive language for research in the humanities and social sciences These innovative essays many by internationally known researchers effectively critique research in the human disciplines that fails to take language seriously It should elicit widespread attention and debate

**The Reflexivity of Language and Linguistic Inquiry** Dorthe Duncker, 2018-11-09 This book explores the reflexivity of language both from the perspective of the lay speaker and the linguistic analyst Linguistic inquiry is conditional upon linguistic reflexivity but so is language Without linguistic reflexivity we would not be able to make sense of everyday linguistic communication and the idea of a language would not be conceivable Not even fundamental notions such as words or meaning would exist Linguistic reflexivity is a feature of the communication process and it essentially depends on situated participants and time It is a defining characteristic of the human language but despite its obvious importance it is not very well understood theoretically and it is strangely under researched empirically Throughout history and in modern linguistics it has mostly either been taken for granted misconstrued or ignored Only integrational linguistics fully recognizes its specifically linguistic implications However integrational linguistics does not provide the necessary methodological basis for investigating linguistic phenomena empirically This catch 22 situation means that the goal of the book is twofold one part is to explore the reflexivity of language theoretically and the other part is to propose an applied integrational linguistics and to implement this proposal in practice

**Metapragmatics in Use** Wolfram Bublitz, Axel Hübler, 2007 This collection of papers fills a gap in current research on both metapragmatics and pragmatics in that it combines data based pragmatic analysis with metapragmatic theory and focuses on the ways in which metadiscourse is actually used The 12 contributions investigate speech acts and verbal as well as non verbal expressions which highlight meta linguistic aspects of ongoing discourse and thus provoke a deviation from the latter s original direction and purpose All case studies discuss ways and means which interactants employ to resolve diverging pragmatic expectations in communication The papers analyze authentic examples from English and other languages and cultures including Thai Chinese and Japanese and center around three principal domains of communication ordinary everyday interaction interaction in educational contexts and in specialized discourse The introductory chapter locates the various contributions within a systematically broader theoretical framework The wide scope of the collection its empirical orientation and the reader friendly form of presentation should appeal to anyone interested in pragmatics whether

scholar or student      **Indirect Reports and Pragmatics** Alessandro Capone, Ferenc Kiefer, Franco Lo Piparo, 2015-12-01

This volume offers the reader a singular overview of current thinking on indirect reports. The contributors are eminent researchers from the fields of philosophy of language, theoretical linguistics and communication theory who answer questions on this important issue. This exciting area of controversy has until now mostly been treated from the viewpoint of philosophy. This volume adds the views from semantics, conversation analysis and sociolinguistics. Authors address matters such as the issue of semantic minimalism vs radical contextualism, the attribution of responsibility for the modes of presentation associated with Noun Phrases and how to distinguish the indirect reporter's responsibility from the original speaker's responsibility. They also explore the connection between indirect reporting and direct quoting. Clearly indirect reporting has some bearing on the semantics/pragmatics debate, however there is much controversy on what is said, whether this is a minimal semantic logical form enriched by saturating pronominals or a much richer and fully contextualized logical form. This issue will be discussed from several angles. Many of the authors are contextualists and the discussion brings out the need to take context into account when one deals with indirect reports, both the context of the original utterance and the context of the report. It is interesting to see how rich cues and clues can radically transform the reported message, assigning illocutionary force and how they can be mobilized to distinguish several voices in the utterance. Decoupling the voice of the reporting speaker from that of the reported speaker on the basis of rich contextual clues is an important issue that pragmatic theory has to tackle. Articles on the issue of slurs will bring new light to the issue of decoupling responsibility in indirect reporting while others are theoretically oriented and deal with deep problems in philosophy and epistemology.

**Metapragmatics of Humor** Leonor Ruiz-Gurillo, 2016-11-24 Metapragmatics of Humor. Current research trends contribute to a new area in the pragmatics of humor, its conception as a metapragmatic ability. The book collects thirteen chapters organized into three parts: Revisions and applications of General Theory of Verbal Humor (GTVH) in a metapragmatic context; Metapragmatic awareness of humor across textual modes; and Metapragmatic practices within the acquisition of humor. Thus this book provides an up-to-date panorama of this field where metapragmatic abilities are described in adults as well as in children on humorous and non-humorous genres: jokes, cartoons, humorous monologues, parodies, conversation, Twitter and using several approaches such as GTVH, multimodality, conversational analysis, eye tracking methodology etc.

**The Cambridge Handbook of the Philosophy of Language** Piotr Stalmaszczyk, 2021-12-02 A comprehensive guide to contemporary investigations into the relationship between language, philosophy and linguistics.      **Perspective and Perspectivation in Discourse** Carl Friedrich Graumann, Werner Kallmeyer, 2002-01-01 Perspective and viewpoint are widely used in everyday talk as well as in the specialist languages of the social, cognitive and literary sciences. Taken from the field of visual perception and representation, these concepts have acquired a general meaning and significance as characteristics of human cognitive processing. Since however this field is shared by an increasing body of disciplines

perspective terms have also acquired specific and technical meanings A striking example is the newly introduced use of perspectivation in discourse analysis This volume on perspective and perspectivation the first of its kind will help to fill the gap between the common understanding of perspective and the specifics of its structure and dynamics as they have been elaborated in the human sciences mainly in psychology and linguistics The focus is on the structure of perspectivity in cognition and language and the dynamics of setting and taking perspectives in social interaction and in the construction and understanding of texts Both topics are presented here in an interdisciplinary way by a group of linguists and psychologists
