The Reformation of Historical Thought Mark A. Lotito, 2019-09-16 In *The Reformation of Historical Thought* Mark Lotito re-examines the development of Western historiography by concentrating on Philipp Melanchthon 1497-1560 and his universal history *Chronicon* 1532 With the *Chronicon* Melanchthon overturned the medieval papal view of history and he offered a distinctly Wittenberg perspective on the foundations of the modern European world Through its immense popularity the *Chronicon* assumed extraordinary significance across the divides of language geography and confession Indeed Melanchthon's intervention would become the point of departure for theologians historians and jurists to debate the past present and future of the Holy Roman Empire Through the *Chronicon* the Wittenberg reformation of historical thought became an integral aspect of European intellectual culture for the centuries that followed

The Cambridge Anthology of British Medieval Latin: Volume 1, 450-1066 Carolinne White, 2024-02-01 This anthology presents in two volumes a series of Latin texts with English translation produced in Britain during the period AD 450-1500 Excerpts are taken from Bede and other historians from the letters of women written from their monasteries from famous documents such as Domesday Book and Magna Carta and from accounts and legal documents all revealing the lives of individuals at home and on their travels across Britain and beyond It offers an insight into Latin writings on many subjects showing the important role of Latin in the multilingual society of medieval Britain in which Latin was the primary language of written communication and record and also developed particularly after the Norman Conquest through mutual influence with English and French The thorough introductions to each volume provide a broad overview of the linguistic and cultural background while the individual texts are placed in their social historical and linguistic context

Pomp, Power, and Politics Mara R. Wade, 2004 [Studies in the Latin of the Middle Ages and the Renaissance](#) Victor Selden Clark, 1900 [Latin Literatures of Medieval and Early Modern Times in Europe and Beyond](#) Francesco Stella, Lucie Doležalová, Danuta Shanzer, 2024-07-15 The textual heritage of Medieval Latin is one of the greatest reservoirs of human culture Repertories list more than 16 000 authors from about 20 modern countries Until now there has been no introduction to this world in its full geographical extension Forty contributors fill this gap by adopting a new perspective making available to specialists but also to the interested public new materials and insights The project presents an overview of Medieval and post-medieval Latin Literatures as a global phenomenon including both Europe and extra-European regions It serves as an introduction to medieval Latin's complex and multi-layered culture whose attraction has been underestimated until now Traditional overviews mostly flatten specificities yet in many countries medieval Latin literature is still studied with reference to the local history Thus the first section presents 20 regional surveys including chapters on authors and works of Latin Literature in Eastern Central and Northern Europe Africa the Middle East

Asia and the Americas Subsequent chapters highlight shared patterns of circulation adaptation and exchange and underline the appeal of medieval intermediality as evidenced in manuscripts maps scientific treatises and iconotexts and its performativity in narrations theatre sermons and music The last section deals with literary interfaces that is motifs or characters that exemplify the double sided or the long term transformations of medieval Latin mythologemes in vernacular culture both early modern and modern such as the legends about King Arthur Faust and Hamlet

A Short History of the Renaissance in Northern Europe Malcolm Vale, 2020-04-02 The concept of a Northern European Renaissance in the arts in thought and in more general culture north of the Alps often evokes the idea of a cultural transplant which was not indigenous to or rooted in the society from which it emerged Classic definitions of the European Renaissance during the 14th 15th and 16th centuries have often seen it as an Italian import of for example humanism and classical learning into the Gothic North There were certainly differences between North and South which have to be addressed not least in the development of the visual arts In this book Malcolm Vale argues for a Northern Renaissance which while cognisant of Italian developments had a life of its own expressed through such innovations as a rediscovery of pictorial space and representational realism and which displayed strong continuities with the indigenous cultures of northern Europe But it also contributed new movements and tendencies in thought the visual arts literature religious beliefs and the dissemination of knowledge which often stemmed from and built upon those continuities A Short History of the Renaissance in Northern Europe while in no way ignoring or diminishing the importance of the Greek and Roman legacy seeks other sources and different uses of classical antiquity for a rather different kind of Renaissance in the North
