Reformation And Revolt In The Low Countries:

Reformation and Revolt in the Low Countries A. C. Duke,1990-01-01 The Revolt of the Netherlands has long been familiar to English speaking readers but the Reformation there has remained largely uncovered This book explores how the Reformation in the Low Countries developed along very different lines from German Lutheranism Conflicting interests and beliefs as well as the war and political struggle shaped the final religious outcome **Reformation in the Low Countries, 1500-1620** Christine Kooi,2022-06-09 This accessible general history places the Reformation in the Low Countries within its broader political and religious context **From Revolt to Riches** Theo Hermans,Reinier Salverda,Ulrich Tiedau,2017-03-28 This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives The period was one of extraordinary upheaval and change as the combined impact of Renaissance Reformation and Revolt resulted in the radically new conditions political economic and intellectual of the Dutch Republic in its Golden Age While many aspects of this rich and nuanced era have been studied before the emphasis of this volume is on a series of interactions and interrelations between communities and their varying but often cognate languages between different but overlapping spheres of human activity between culture and history The chapters are written by historians linguists bibliographers art historians and literary scholars based in the Netherlands Belgium Great Britain and the United States In continually crossing disciplinary linguistic and national boundaries while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements **From Revolt to Riches** Theo Hermans,R. Salverda,2016 *From Revolt to Riches* Theo Hermans,R. Salverda,2016 **Dissident Identities in the Early Modern Low Countries** A. C. Duke,2009 Alastair Duke has long been recognized as one of the leading scholars of the early modern Netherlands known internationally for his important work on the impact of religious change on political events which was the focus of his *Reformation and Revolt in the Low Countries* 1990 This new volume explores the emergence of new political and religious identities in the Netherlands These essays together demonstrate how dissident identities shaped and contributed to the development of the Netherlands during the early modern period *The Reformation World* Andrew Pettegree,2000 The most ambitious one volume survey of the Reformation yet this book is beautifully illustrated throughout The strength of this work is its breadth and originality covering the Church art Calvinism and Luther *Revolt in the Netherlands* Anton van der Lem,2019-03-15 In 1568 the Seventeen Provinces in the Netherlands rebelled against the absolutist rule of the king of Spain A confederation of duchies counties and lordships the Provinces demanded the right of self determination the freedom of conscience and religion and the right to be represented in government Their long struggle for liberty and the subsequent rise of the Dutch Republic was a decisive episode in world history and an important step on the path to the Universal Declaration of Human Rights And yet it is a period in history we rarely discuss In his compelling

retelling of the conflict Anton van der Lem explores the main issues at stake on both sides of the struggle and why it took eighty years to achieve peace He recounts in vivid detail the roles of the key protagonists the decisive battles and the war's major turning points from the Spanish governor's Council of Blood to the Twelve Years Truce while all the time unraveling the shifting political religious and military alliances that would entangle the foreign powers of France Italy and England Featuring striking rarely seen illustrations this is a timely and balanced account of one of the most historically important conflicts of the early modern period

The Moment of Death in Early Modern Europe, c. 1450-1800 Benedikt Brunner, Martin Christ, 2024-05-06 Both in our time and in the past death was one of the most important aspects of anyone's life The early modern period saw drastic changes in rites of death burials and commemoration One particularly fruitful avenue of research is not to focus on death in general but the moment of death specifically This volume investigates this transitional moment between life and death In many cases this was a death on a deathbed but it also included the scaffold battlefield or death in the streets Contributors Friedrich J Becher Benedikt Brunner Isabel Casteels Martin Christ Louise Deschryver Irene Dingel Michael Green Vanessa Harding Sigrun Haude Vera Henkelmann Imke Lichterfeld Erik Seeman Elizabeth Tingle and Hillard von Thiesen

Shaping the Stranger Churches Silke Muylaert, 2020-10-20 In *Shaping the Stranger Churches* Migrants in England and the Troubles in the Netherlands 1547-1585 Silke Muylaert explores the struggles confronting the Netherlandish churches in England when they engaged with or disengaged from the Reformation and the Revolt back in their homeland The churches were conflicted over the limits of religious zeal and over political loyalty How far could Reformers go to promote their faith without committing sin How much loyalty did they owe to Philip II and William of Orange While previous narratives ascribe a certain radicalism to the foreign churches Muylaert uncovers the difficulties confronting expatriate churches to provide support for Reformed churches or organise resistance against authorities back home

Habsburg Communication in the Dutch Revolt Monica Stensland, 2012 De politieke denkbeelden van de rebellen in de Opstand voorheen de Tachtigjarige Oorlog zijn al langer onderwerp van wetenschappelijk onderzoek Dit boek richt zich echter op het grotendeels onbesproken verhaal van het Habsburgse regime en zijn lokale aanhangers Hoe dachten zij over het conflict en hoe reageerden zij op de beschuldigingen van de opstandelingen De auteur heeft een verscheidenheid aan mondelinge schriftelijke en theatrale media onderzocht om te ontdekken hoe het regime gebruikmaakte van de verschillende communicatiekanalen Daarnaast is de reactie van gewone mensen op het conflict en op de tegenstrijdige berichtgeving in de

publieke sfeer onderzocht **Lutheran Churches in Early Modern Europe** Andrew Spicer, 2016-12-05 Until recently the impact of the Lutheran Reformation has been largely regarded in political and socio economic terms yet for most people it was not the abstract theological debates that had the greatest impact upon their lives but what they saw in their parish churches every Sunday This collection of essays provides a coherent and interdisciplinary investigation of the impact that the Lutheran Reformation had on the appearance architecture and arrangement of early modern churches Drawing upon recent research being undertaken by leading art historians and historians on Lutheran places of worship the volume emphasises often surprising levels of continuity reflecting the survival of Catholic fixtures fittings and altarpieces and exploring how these could be remodelled in order to conform with the tenets of Lutheran belief The volume not only addresses Lutheran art but also the way in which the architecture of their churches reflected the importance of preaching and the administration of the sacraments Furthermore the collection is committed to extending these discussions beyond a purely German context and to look at churches not only within the Holy Roman Empire but also in Scandinavia the Baltic States as well as towns dominated by Saxon communities in areas such as in Hungary and Transylvania By focusing on ecclesiastical material culture the collection helps to place the art and architecture of Lutheran places of worship into the historical political and theological context of early modern Europe **Reformation and Revolt in the Low Countries** Alastair Crawford Duke, 1990

Dissident Identities in the Early Modern Low Countries Alastair Duke, Andrew Spicer, 2016-12-05 Alastair Duke has long been recognized as one of the leading scholars of the early modern Netherlands known internationally for his important work on the impact of religious change on political events which was the focus of his *Reformation and Revolt in the Low Countries* 1990 Bringing together an updated selection of his previously published essays together with one entirely new chapter and two that appear in English here for the first time this volume explores the emergence of new political and religious identities in the early modern Netherlands Firstly it analyses the emergence of a common identity amongst the amorphous collection of states in north western Europe that were united first under the rule of the Valois Dukes of Burgundy and later the Habsburg princes and traces the fortunes of this notion during the political and religious conflicts that divided the Low Countries during the second half of the sixteenth century A second group of essays considers the emergence of dissidence and opposition to the regime and explores how this was expressed and disseminated through popular culture Finally the volume shows how in the age of confessionalisation and civil war challenging issues of identity presented themselves to both dissenting groups and individuals Taken together these essays demonstrate how these dissident identities shaped and contributed to the development of the Netherlands during the early modern period *The Oxford Handbook of the Protestant Reformations* Ulinka Rublack, 2017 This Handbook takes a broad overview of the Protestant Reformations seeing them as movements which stretched far beyond their European beginnings Written by a team of international scholars of history and theology the contributions offer up to date perspectives on Reformation ideas and the lasting historical impact of

Protestantism *Cultures of Calvinism in Early Modern Europe* Crawford Gribben, Graeme Murdock, 2019 Calvinism has been associated with distinctive literary cultures with republican liberal and participatory political cultures with cultures of violence and vandalism enlightened cultures cultures of social discipline secular cultures and with the emergence of capitalism Recognizing that Reformed Protestantism did not develop as a uniform tradition this book assesses the complex character and impact of Calvinism in early modern Europe **Simon Episcopius' Doctrine of Original Sin** Mark A. Ellis, 2006 Simon Episcopius 1583 1643 who began his theological career as the protégé of Jacobus Arminius led the Arminians at the Synod of Dort and was instrumental in guaranteeing Arminianism's survival This book breaks new ground by clearly showing how in the process of working out the implications of the theological trajectories which Arminius established Episcopius introduced significant changes in his master's theology It begins by demonstrating changes between Episcopius' early theological works and Arminius' writings and then even greater changes in his mature theological work *Institutiones Theologicae* It defends the idea that Arminianism represented a pre-Calvinist movement within the Netherlands which not only rejected Genevan predestination but also intentionally moved away from Reformed Scholasticism This book is useful for seminars in early Arminian theology and the Arminian controversy in the Netherlands
