Abstract— The current study set out to evaluate and examine the difficulties faced by houseboat owners in solid waste management as well as possible solutions to these difficulties. The study was conducted at four sites of Dal Lake: Lakut Dal, Bod Dal, Gagribal, and Nigeen Lake. A list of registered houseboats was acquired from the Lake Conservation Management Authority (LCMA) in 2023 indicates that there are 950 houseboats in Dal Lake. Data were gathered using a structured interview schedule. A sample of 100 houseboats, 25 from each site, was selected using stratified random selection; this represents about 10.5% of the total population. The study found that the restrictions faced by houseboat owners differed depending on how easily LCMA services could be accessed at each location. The absence of a nearby color-coded waste facility was cited by 92% of houseboat owners in Site 1 as their main concern. Site 2's outcomes were comparable, the absence of consistent (weekly) solid trash collection services being identified by 84% of houseboat owners as their main challenge, 88% of site 3 houseboat owners cited the absence of solid trash collection services provided by LCMA, and 56% of site 4 houseboat owners said they were happy with the existing collection services. Nonetheless, the largest obstacle faced by 40% of houseboat owners is the absence of regular garbage collection services. The houseboat owners in Dal Lake nevertheless face several challenges on a daily basis, which are discussed in more depth.

I. INTRODUCTION

Dal Lake is 3.5 kilometers wide and 7.44 kilometers long, and it is located in the Srinagar district of Kashmir. The deepest point of the lake is at Nigeen Lake, which is 20 feet deep, whereas Gagribal's depth is 2.5 meters (8.2 ft). (Bhat et al., 2017). One of the key factors in the valley's booming tourism business is the quantity of floating homes on the lake. Houseboats, also referred to as "floating palaces" or "floating hotels," are closely linked to Dal Lake. These serve as visitor accommodations, symbolize the Kashmir Valley's cultural legacy, and accentuate Dal Lake's breathtaking natural surroundings. More contemporary houseboats of a higher class often have a dining area, kitchenette with server, lounge, and

two to five bedrooms, each with its own bathroom, complete with toilet. There is a little "balcony" on the front of every houseboat, and many of them are anchored next to a small wooden deck on the lake. Some houseboats (Deluxe and Class A) may also include a little garden with piled ground in between the boats. Houseboats may be seen at Nigeen Lake and along the Boulevard Road between Dalgate and Nehru Park. For control purposes, the tourist office assigns deluxe, A to D categories to the houseboats. Because they have more amenities than other houseboat classes and generate more garbage as a result, deluxe, A, and B grade boats are regarded as high quality. (Tanveer et al., 2017) In the busiest travel seasons, houseboats in the Nigeen basin and Dal Lake are completely occupied by visitors. Waste is generated during

influenced by Anglo Saxon models and literature on reforms in the Latin part of Europe has until now only been available in a fragmented way. However, this unique new book offers a coherent vision across Southern Europe. It refers to important parts of our history and how these still influence current times. It also shows that culture does make a difference and that contingencies are important. European public sector reform is as diverse as the range of its administrative histories and this book is therefore crucial in our understanding of the future in relation to the past. Geert Bouckaert, Public Management Institute Katholieke Universiteit Leuven, Belgium and European Group for Public Administration. This systematic, thorough and insightful book offers one of the very rare comparative studies of public management reform in Italy, France, Greece, Portugal and Spain. A unique and most valuable study. Walter Kickert, Erasmus University Rotterdam, the Netherlands. Scholars of public management reform have been at it for many years, but there was always a gap. Little was really known about Southern Europe, those countries that come from the Napoleonic tradition. Now Professor Edoardo Ongaro of Bocconi University has filled that gap and we will all profit from his diligent and insightful work. Jeffrey D. Straussman, Nelson A. Rockefeller College of Public Affairs and Policy, University at Albany, US. Theoretically eclectic and empirically rich, this is a much needed volume on the dark side of the moon that is public management reform outside the Anglo Saxon world. Edoardo Ongaro sheds light on Italy and four other Napoleonic systems by producing a far reaching comparative analysis that also captures the effects of Europeanization and multi level governance on public management reforms. Ambitious yet ultimately accessible, this book is a must read for those who want to explain and understand the trajectories of reform in their historical context. Claudio Radaelli, University of Exeter, UK. The reader will find in Professor Ongaro's book a clear and thorough discussion of the public sector reform process both in Italy and Southern European countries based upon a systematic comparative framework. This is a very useful and original work that any student in comparative politics or public administration will highly appreciate. Luc Rouban, CNRS Centre de Recherches Politiques de Science Po CEVIPOF, Paris, France. This scholarly volume makes an interesting and distinctive contribution to the global public management reform debate by offering an analysis of reform trajectories in an important but rather neglected group of Southern European countries. Ewan Ferlie, King's College London, UK. Since the 1980s a wave of reforms of public management has swept the world. The investigation into the effects of such major transformations has, however, been unbalanced. Important countries have received only limited attention. This timely book fills the gap by investigating the dynamics of contemporary public management reform in five European countries that gave shape to the Napoleonic administrative tradition: France, Greece, Italy, Portugal, Spain. Edoardo Ongaro presents an in depth investigation of the reform of public management in these countries, revisiting major topics of theoretical interest in the study of public administration. He addresses key issues regarding the influence of the past on the transformation of the public sector. **Washington Information Directory**
