Reframing Rembrandt:

Reframing Rembrandt Michael Zell, 2002-03-04 This book embeds Rembrandt's art in the pluralistic religious context of seventeenth century Amsterdam arguing for the restoration of this historical dimension to contemporary discussions of the artists By incorporating this perspective Zell confirms and revises one of the most forceful myths attached to Rembrandt's art and life his presumed attraction and sensitivity to the Jews of early modern Amsterdam **BOOK JACKET**

Rembrandt's Faith: Church and Temple in the Dutch Golden Age, *Rembrandt's Jews* Steven Nadler, 2024-05-31 There is a popular and romantic myth about Rembrandt and the Jewish people One of history's greatest artists we are often told had a special affinity for Judaism With so many of Rembrandt's works devoted to stories of the Hebrew Bible and with his apparent penchant for Jewish themes and the sympathetic portrayal of Jewish faces it is no wonder that the myth has endured for centuries Rembrandt's *Jews* puts this myth to the test as it examines both the legend and the reality of Rembrandt's relationship to Jews and Judaism In his elegantly written and engrossing tour of Jewish Amsterdam which begins in 1653 as workers are repairing Rembrandt's Portuguese Jewish neighbor's house and completely disrupting the artist's life and livelihood Steven Nadler tells us the stories of the artist's portraits of Jewish sitters of his mundane and often contentious dealings with his neighbors in the Jewish quarter of Amsterdam and of the tolerant setting that city provided for Sephardic and Ashkenazic Jews fleeing persecution in other parts of Europe As Nadler shows Rembrandt was only one of a number of prominent seventeenth century Dutch painters and draftsmen who found inspiration in Jewish subjects Looking at other artists such as the landscape painter Jacob van Ruisdael and Emmanuel de Witte a celebrated painter of architectural interiors Nadler is able to build a deep and complex account of the remarkable relationship between Dutch and Jewish cultures in the period evidenced in the dispassionate even ordinary ways in which Jews and their religion are represented far from the demonization and grotesque caricatures the iconography of the outsider so often found in depictions of Jews during the Middle Ages and the Renaissance Through his close look at paintings etchings and drawings in his discussion of intellectual and social life during the Dutch Golden Age and even through his own travels in pursuit of his subject Nadler takes the reader through Jewish Amsterdam then and now a trip that under ever threatening Dutch skies is full of colorful and eccentric personalities fiery debates and magnificent art

Rembrandt Jaco Rutgers, Timothy J. Standring, 2018-10-23 A compelling reconsideration of Rembrandt's printed oeuvre based on new research into the artist's life and work As a pioneering printmaker Rembrandt van Rijn 1606-1669 stood apart from his contemporaries thanks to his innovative approach to composition and his skillful rendering of space and light He worked with the medium as a vehicle for artistic expression and experimentation causing many to proclaim him the greatest etcher of all time Moreover the dissemination of the artist's prints outside of the Dutch Republic during his lifetime contributed greatly to establishing Rembrandt's reputation throughout Europe Sumptuously illustrated with comparative paintings and drawings as well as prints this important volume

draws on exciting new scholarship on Rembrandt's etchings. Authors Jaco Rutgers and Timothy J. Standring examine the artist's prints from many angles. They reveal how Rembrandt intentionally varied the states of his etchings, printed them on exotic papers, and retouched prints by hand to create rarities for a clientele that valued unique impressions. [Rembrandt's Religious Prints](#) Charles M. Rosenberg, 2017-09-11. A stunning catalogue of the seventy religious prints from the 2017 exhibition featuring detailed background information on each piece. Rembrandt's stunning religious prints stand as evidence of the Dutch master's extraordinary skill as a technician and as a testament to his genius as a teller of tales. Here several virtually unknown etchings collected by the Feddersen family and now preserved for the ages at the University of Notre Dame are made widely available in a lavishly illustrated volume. Building on the contributions of earlier Rembrandt scholars, noted art historian Charles M. Rosenberg illuminates each of the seventy religious prints through detailed background information on the artist's career as well as the historical, religious, and artistic impulses informing their creation. Readers will enjoy an impression of the earliest work, *The Circumcision* (1625-26), the famous *Hundred Guilder Print*, the enigmatic eighth state of *Christ Presented to the People*, one of a handful of examples of the very rare final posthumous state of *The Three Crosses*, and an impression and counterproof of *The Triumph of Mordecai*. From the joyous epiphany of the coming of the Messiah to the anguish of the betrayal of a father, Jacob, by his children, from choirs of angels waiting to receive the Virgin into heaven to the dog who defecates in the road by an ancient inn, *The Good Samaritan*. Rembrandt's etchings offer a window into the nature of faith, aspiration, and human experience, ranging from the ecstatically divine to the worldly and mundane. Ultimately, these prints, modest, intimate, fragile objects, are great works of art which, like all masterpieces, reward us with fresh insights and discoveries at each new encounter. Despite many reliable catalogues of Rembrandt's etchings, very few have focused on the religious content of these prints. The outstanding range of the Feddersen Collection offers an excellent occasion for closer examination of Rembrandt's development as a printmaker but also as a spiritual, devout Christian, especially evident from his thoughtful return to the same subjects across his career. Charles Rosenberg and his team at the *Snite Museum* deserve our thanks for fresh analysis of Rembrandt's religious prints combined with the latest scholarship on the artist and his etchings. Output: Rembrandt scholars but also all lovers of the artist will want to consult this important catalogue. Larry Silver, author with Shelley Perlove of *Rembrandt's Faith: Church and Temple in the Dutch Golden Age*. Rembrandt's etchings of religious themes capture the emotional heart of their subjects through a uniquely inventive approach to both technique and content. The seventy prints gathered by Jack and Alfrieda Feddersen span the full range of Rembrandt's production and offer an outstanding resource for appreciation and research. This catalogue tells the fascinating story of how the collection was formed and brings a fresh analysis to each print. Charles Rosenberg's extensive catalogue entries will be useful reading for anyone interested in the history of European art and one of its most talented practitioners, Rembrandt van Rijn. Other Others Steven Shankman, 2011-01-02 In literary and cultural studies today the term the Other appears to have largely lost its moorings in the primacy of the intersubjective encounter focusing rather on the social construction of the Other For Emmanuel Levinas in contrast the Other is precisely that which eludes construction and categorization In a study that ranges from literature of ancient China Greece and Israel to modern Egypt Italy West Africa and America Steven Shankman tests Levinas's ideas by reading literary works from outside the Judeo Christian orbit for figurations equivalent to Levinas's notion of the Other He also places ethics at the center of intercultural or in his words transcultural comparative literature In contemporary literary and cultural studies it is often assumed that culture has the last word However as Levinas insists and as Shankman argues throughout this book it is ethics that is the presupposition of all Culture that is situated

"The Netherlandish Image after Iconoclasm, 1566-1672 " Mia M. Mochizuki, 2017-07-05

Debunking the myth of the stark white Protestant church interior this study explores the very objects and architectural additions that were in fact added to Netherlandish church interiors in the first century after iconoclasm In charting these additions Mia Mochizuki helps explain the impact of iconoclasm on the cultural topography of the Dutch Golden Age and by extension permits careful scrutiny of a decisive moment in the history of the image Focusing on the Great or St Bavo Church in Haarlem this interdisciplinary book draws on art history history and theology to look at the impact of iconoclasm and reformation on the process of image making in the early modern Netherlands The new objects that began to appear in the early Dutch Reformed Church signaled a dramatic change in the form function and patronage of church art and testified to new roles for church government guild and resident Each chapter in the book introduces a major theme of the nascent Protestant church interior the Word made material the Word made memorial and the Word made manifest which is then explored through the painting sculpture and architecture of the early Dutch Reformed Church The text is heavily illustrated with images of the objects under discussion many of them never before published A large number of these images are from the camera of prize winning photographer Tjeerd Frederikse with additional photography courtesy of E A van Voorden This book unveils defines and reproduces a host of images previously unaddressed by scholarship and links them to more familiar

and long studied Dutch paintings It provides a religious art companion to general studies of Dutch Golden Age art and lends greater depth to our understanding of iconoclasm as well as the way in which cultural artifacts and religious material culture reflect and help to shape the values of a community Taking up the challenge of an unusual category of objects for visual analysis this **Paintings and the Past** Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history
