## **Refugees Race And The Concept Of Asylum In Britain:**

*Refugees, Race and the Legal Concept of Asylum in Britain* Prakash Shah, 2000 This book critically interrogates the principle of asylum for refugees in UK law and proposes that when faced with the migration of non European refugee groups this principle has often been limited The book considers the response of the State to the migration of various groups of refugees through five centuries The reaction of the legal system to the arrival of gypsies and Huguenots from the Tudor period is analysed The responses to the arrival of African refugees from the American War of Independence is also considered here along with an examination of the reactions to refugees from the French Revolution and the Napoleonic Wars various European refugee groups in the mid Victorian period Jews from Eastern Europe and later from Nazism and groups displaced in Europe as a result of the Second World War *Refugees Race and the Legal Concept of Asylum in Britain* also provides a detailed discussion of the backlash against African and Asian refugee groups in particular as against the East African Asians Vietnamese and Tamils from Sri Lanka An analysis of the major legislative reforms of the 1990s which have been directed against the settlement of Asian and African refugees is also presented The post Second World War period is scrutinised in the context of the failure of European human rights law and international norms of refugee protection to secure the principle of asylum and the implications of the development of a Fortress Europe that is premised on the tight control of non European migrants are drawn out *The Oxford Handbook of International Refugee Law* Cathryn

Costello, Michelle Foster, Jane McAdam, 2021-06-02 *The Oxford Handbook of International Refugee Law* is a comprehensive critical work which analyses the state of research across the refugee law regime as a whole Drawing together leading and emerging scholars the Handbook provides both doctrinal and theoretical analyses of international refugee law and practice It critiques existing law from a variety of normative positions with several chapters identifying foundational flaws that open up space for radical rethinking Many authors work directly in the field and their contributions demonstrate how scholarship and practice can mutually inform each other Contributions assess a wide range of international legal instruments relevant to refugee protection including from international human rights law international humanitarian law international migration law the law of the sea and international and transnational criminal law Geographically contributors examine regional and domestic laws and practices from around the world with 10 chapters focused on specific regions This Handbook provides an account as well as a critique of the status quo and in so doing it sets the agenda for future academic research in international refugee law ***The Evolution of Humanitarian Protection in European Law and Practice*** Liv Feijen, 2021-04

Humanitarian protection has evolved from an act of charity into a legal obligation not to remove certain categories of non nationals *The Discourse of Repatriation in Britain, 1845-2016* Daniel Renshaw, 2021-03-04 Examining responses to migration and settlement in Britain from the Irish Famine up to Brexit *The Discourse of Repatriation* looks at how concepts of removal evolved in this period and the varied protagonists who have articulated these ideas in different contexts Analysing

the relationship between discourse and action Renshaw explores how ideas and language originating on the peripheries of debate on migration and belonging can permeate the mainstream and transform both discussion and policy The book sheds light both on how the migrant other has been viewed in Britain historically and contemporaneously and more broadly how the relationship between state press and populace has developed from the early Victorian period onwards It identifies key junctures where the concept of the removal of othered groups has crossed over from the rhetorical to the actual and considers why this was the case Based on extensive original archival research the book reassesses modern British history through the lens of the most polarised attitudes to immigration and demographic change This book will be of use to readers with an interest in migration diaspora the development of populism and political extremes and more broadly the history of modern Britain

Jarman Jeffrey Jones Thomas C Jones Chana Revell Kotzin Micha Adam Palacz Leslie Rogne Schumacher Evan Smith Andrekos Varnava and Andrew Williams      Britannia's Embrace Caroline Shaw, 2015-09-18 On the eve of the American Revolution the refugee was according to British tradition a Protestant who sought shelter from continental persecution By the turn of the twentieth century however British refuge would be celebrated internationally as being open to all persecuted foreigners Britain had become a haven for fugitives as diverse as Karl Marx and Louis Napoleon Sim n Bol var and Frederick Douglass How and why did the refugee category expand How in a period when no law forbade foreigners entry to Britain did the refugee emerge as a category for humanitarian and political action Why did the plight of these particular foreigners become such a characteristically British concern Current understandings about the origins of refuge have focused on the period after 1914 Britannia s Embrace offers the first historical analysis of the origins of this modern humanitarian norm in the long nineteenth century At a time when Britons were reshaping their own political culture this charitable endeavor became constitutive of what it meant to be liberal on the global stage Like British anti slavery its sister movement campaigning on behalf of foreign refugees seemed to give purpose to the growing empire and the resources of empire gave it greater strength By the dawn of the twentieth century British efforts on behalf of persecuted foreigners declined precipitously but its legacies in law and in modern humanitarian politics would be long lasting In telling this story Britannia s Embrace puts refugee relief front and center in histories of human rights and international law and of studies of Britain in the world In so doing it describes the dynamic relationship between law resources and moral storytelling that remains critical to humanitarianism today      **Race, Criminal Justice, and Migration Control** Mary Bosworth, Alpa Parmar, Yolanda Vázquez, 2018 In an era of mass mobility those who are permitted to migrate and those criminalised controlled and prohibited from migrating are heavily patterned by race This volume places race at the centre of its analysis 14 chapters examine question and explain the growing intersection between criminal justice and migration control      Bordering Britain Nadine El-Enany, 2020-02-11 B ordering Britain argues that Britain is the spoils of empire its immigration law is colonial violence and irregular immigration is anti colonial resistance In announcing itself as postcolonial through immigration and nationality laws passed in the 60s 70s and 80s Britain cut itself off symbolically and physically from its colonies and the Commonwealth taking with it what it had plundered This imperial vanishing act cast Britain s colonial history into the shadows The British Empire about which Britons know little can be remembered fondly as a moment of past glory as a gift once given to the world Meanwhile immigration laws are justified on the basis that they keep the undeserving hordes out In fact immigration laws are acts of colonial seizure and violence They obstruct the vast majority of racialised people from accessing colonial wealth amassed in the course of colonial conquest Regardless of what the law media and political discourse dictate people with personal ancestral or geographical links to colonialism or those existing under the weight of its legacy of race and racism have every right to come to Britain and take back what is theirs      **Statelessness in**

while chapter five is on LGBTI people whose legal and literary stories are only now being told The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors Using a mixture of poetry and first person accounts the chapter examines the post arrival lives of children some of whom may be citizens but who are continually made to feel like outsiders The conclusion follows starting with two stories about walls by Hadero and Lanchester which are used to illustrate the themes discussed in the book Few African lawyers write about literature and few books and articles in Western law and literature look at books by or about Africans so a book that engages with both is long overdue This book provides fascinating reading for academics students of law literature gender and migration studies and indeed the general public
