Discovering London 7 Douglas Hill, 1969 **The London Region** Philippa Dolphin, Eric G. Grant, Edward Lewis, 1981

Major findings 1 Contaminants in water from one of every three drinking water wells sampled are a potential human health concern 2 Arsenic and uranium derived from geologic sources are potential drinking water concerns 3 Dissolved solids concentrations in groundwater are increasing in some areas 4 Artificial recharge and groundwater withdrawals are moving contaminants to deeper parts of basin fill aquifers *The Record*, 1967 *The British National Bibliography Cumulated Subject Catalogue*, 1968 *London's Teeming Streets, 1830-1914* James Winter, 2013-06-17 The streets of Victorian London became increasingly congested with vehicles fast and furious drivers pedestrians costermongers prostitutes brass bands homeless children and other obstacles to safe and rapid motion Concerned citizens were alarmed by this unprecedented build up of traffic and pollution But how did this chaotic state come about and why was more not done to prevent it London's Teeming Streets brings an historical perspective to present day concerns about the effects of continued urban expansion and shows that many current problems date back to the Victorian era James Winter reveals that the issue of street reform was fraught with political intrigue Many reformers were liberals yet the question of attempting to limit or prohibit activity on the King's Highway which was by definition an open and democratic preserve brought the very purpose of liberal reform into sharp focus *The Cambridge Illustrated History of Medicine* Roy Porter, 2001-07-30 An authoritative and accessible illustrated introduction to medical history **Dawn of Discovery** Dudley Moore, 2013-10-30 This book focuses on three important British travellers to Crete during the 18th and 19th centuries to establish whether or not they made any significant contribution to the field of research with regard to the archaeological heritage of Bronze Age Crete It is an attempt to bring these lost pioneers of antiquity to the fore and to recognize their efforts as part of the foundation of the discovery of the island's Bronze Age archaeology prior to the ground breaking excavations of Sir Arthur Evans The three travellers examined here are Richard Pococke 1704-65 Robert Pashley 1805-59 and Thomas Spratt 1811-88 Having dealt with the terms that these travellers used in describing ancient remains the book looks briefly at the background to Bronze Age Crete itself Thereafter the development from antiquarianism into archaeology is followed to establish the motives behind these travellers' wanderings in Crete This also involves a discussion of other British travellers to Crete and problems they may have encountered with an island in the throes of Ottoman turbulence Using their published journals the author has followed the footsteps of Pococke Pashley and Spratt to see what they may have discovered and compared their written accounts with what is physically there today The results are most intriguing *The Winterthur Museum Libraries Collection of Printed Books and Periodicals: General catalog* Henry Francis du Pont Winterthur Museum. Libraries, 1974 *The British National Bibliography*, 1968 **Killing Hercules** Richard Rowland, 2016-12-08 This book offers an entirely new reception history of the myth of Hercules and his wife killer Deianira The book poses and attempts to answer two important and related questions

First why have artists across two millennia felt compelled to revisit this particular myth to express anxieties about violence at both a global and domestic level Secondly from the moment that Sophocles disrupted a myth about the definitive exemplar of masculinity and martial prowess and turned it into a story about domestic abuse through to a 2014 production of Handel's Hercules that was set in the context of the war on terror the reception history of this myth has been one of discontinuity and conflict how and why does each culture reinvent this narrative to address its own concerns and discontents and how does each generation speak to qualify or annihilate the certainties of its predecessors in order to understand contain or exonerate the aggression with which their governors of state and of the household so often enforce their authority and the violence to which their nations and their homes are perennially vulnerable *The British National Bibliography* Arthur James Wells, 1991

Lady of the House Charlotte Furness, 2018-06-30 Three accounts of remarkable women who oversaw their own households stamped their authority on the estates they managed and overcame misfortune This book tells the true stories of three gentle women who were born raised lived and died within the world of England's Country Houses This is not the story of seen and not heard women these are incredible women who endured tremendous tragedy and worked alongside their husbands to create a legacy that we are still benefitting from today Harriet Leveson Gower Countess Granville second born child of the infamous Georgiana Duchess of Devonshire married her aunt's lover raised his illegitimate children and reigned supreme as Ambassadors over the Parisian elite Lady Mary Isham lived at Lamport Hall in Northamptonshire with her family where despite great tragedy she was responsible for developing a house and estate while her husband remained the silent Baronet Elizabeth Manners Duchess of Rutland hailed from Castle Howard and used her upbringing to design and build a Castle and gardens at Belvoir suitable for a Duke and Duchess that inspired a generation of country house interiors These women were expected simply to produce children to be active members of society to give handsomely to charity and to look the part What these three remarkable women did instead is develop vast estates oversee architectural changes succeed in business take a keen role in politics as well as successfully managing all the expectations of an aristocratic lady The book looks at both the lives of the women and the buildings that they transformed *The Creative Historian* **The National Union**

Students of the medical humanities, art, music, and drama therapists, and educators in occupational therapy and psychology will also find this a valuable and insightful handbook. The authors of this wonderful handbook provide a convincing argument that the arts are good for what ails us. They have each used a preferred artistic medium to deepen personal reflection and to enhance their own creativity as physicians, teachers, and therapists. Their models are clear, their suggestions practical, but none of the approaches you will find here is reductive or simplistic. Try some of the reflective exercises and teaching strategies. You will be sure to rediscover something you have always cherished about the art of healing from the Foreword by Allan D. Peterkin.

Tracing Your Freemason, Friendly Society & Trade Union Ancestors. Daniel Weinbren, 2019-01-30. An easy-to-use guide for British family historians researching ancestry tied to organizations like the Freemasons, friendly societies, and trade unions. Fraternal and friendly societies and trade unions, associations that provide mutual aid and benefits, have a long fascinating history, and the most famous of them, the Freemasons, have a reputation for secrecy, ritual, and intrigue that excites strong interest and has been the subject of widespread misunderstanding. Daniel Weinbren, in this concise, accessible handbook, dispels the myths surrounding them and gives readers insight into their real purposes, their membership, and their development over the centuries. He has also compiled a detailed compendium of books, archives, libraries, and Internet sites that readers and researchers can consult to find out more about these organizations and to trace the involvement and experience of family members who were connected with them. The origins of these societies are explored, as are their economic, social, and civic functions and the impact they had on the lives of members. The range of such societies covered includes the popular and international ones, such as the Oddfellows, Foresters, and Rechabites, as well as the smaller, local fraternal organizations. The type of assistance they offer, their structure and hierarchy, meetings, and ceremonies, regalia, and processions and feasts, and annual gatherings are all described and explained. So much information about these organizations and their membership is easily available if you know where to look, and Weinbren's work is the ideal introduction to them. Anyone who has a forebear who was at some time linked with one of these organizations will find his book to be an essential guide to their research.
