Say Yes Jason And Maria:

The Reincarnation of Heston Venns Rye Henry Stevenson,2010-02 He climbed up on the wing of a 1941 Waco bi plane and seated himself in the cockpit He had never sat in one of these models before and he loved the feel it gave him With a sudden rush he realized that he knew everything about this airplane He reached underneath the seat without looking knowing the fuel cock would be there and it was He even recited in his mind the piston size and the complete mechanical workings of the interior of the engine He climbed out of the plane and walked around it several times Something drew him to this plane something deep inside himself D j vu experiences startle Jason Conrad as does the name Monica sounding in his head Sometimes his dreams show him how to fly maneuvers he has no training for and sometimes his visions insist he has a soulmate somewhere whom he has known for a very long time A bygone tragic news story posted on an airport wall a crashed plane in the Amazon Rain Forest a girl in a yellow blouse the rescue of a boy s life which leads to a drug cartel in Colombia all contribute to the unveiling of Jason s previous life and the soulmate whose love he s yearned for While Jason s sense of adventure carries him geographically far and wide it also fuels his discovery that he is traveling from one lifetime to another in a compelling ongoing saga of love *Milky Way's Dream* Kevin W. Lynn,2022-11-30 Due to accidental reasons a farm boy Billy rescued a computer scientist and beautiful girl Susan so he started his adventure and changed his life path and with the help from the loyal friends Jason and George Billy gradually learned a lot of knowledge and skills and eventually became a successful astronaut This story takes place in Paliland one hundred light years away from the Earth This is a very advanced planet that surrounds Billy from an ordinary farm boy to a professional astronaut A series of vivid and touching stories created a true hero He finally joined the team of Mike and Sam the representative of the supercivilization and began to create a peaceful galaxy Mike and Sam s team conducted and organized a series of operations to help these advanced planets stop wars and provide opportunities to restore peace and establish cooperative organizations The romantic story between John and Mia has greatly deepened people s imagination Human happiness is not limited to the Earth This book is the second book in the series *Beyond the Horizon* by Kevin W Lynn Also Sam s visiting team after first visiting the advanced civilization a brilliant picture appeared It has never been a dream for mankind to reach a truly heavenly world Guiding the Tide Jonathan Donner, Frank Guglielmo, Sudhanshu Palsule,2024-10-31 In a world increasingly driven by artificial intelligence leadership needs to move beyond the agile approach that dominated organizational leadership practices at the end of the 20th century What is required now for successful leaders is a skillful juxtaposition of proactivity and humility which we call guiding the tide Successful leaders of today must demonstrate personal agency in order to guide the tide of events around them rather than have the tide of events sweep them along The tide like a river within an ocean akin to a gulf stream is a unique ever changing stream of business systems technology consumers and competitors This book uses storytelling examples and clear everyday language to blend leading edge psychological research and leadership practices

with the authors own work in coaching assessing and developing leaders for three decades around the world The book takes the reader on a journey through three major learnings First the authors describe the nature of the tide and the demands on leaders to move beyond a reactionary agile approach toward the forward leaning active stance of personal agency Second they describe three critical practices to successfully lead with agency and guide the tide Honest Engagement the practice of dealing with others from a place of openness honesty and a willingness to be vulnerable Addressing Reality the practice of seeing the world as it is rather than as we wish it to be the ability to separate fact from fiction and data from desire Adaptive Impact the practice of driving the organization team and oneself forward in a way that creates results beyond results that is delivering goals while building followership sustainability and Humanocity the integration of human creativity and judgment with the efficiency of digital automation Third they offer leaders a practical path to achieving the personal agency to successfully guide their organization through the tide that shapes their world **The Ravenglass Eye** Tom
