*See What I See* Craig E. Whitsey, 2015-03-09 Being blessed to have traveled extensively around the world I have had the pleasure to truly see the differences and the similarities of all humans upon this earth It is not an easy thing to see people suffering in their lives and not be moved to some kind of action or at the least speak openly about it Bringing attention to things that can be changed that often is ignored because no one wants to be responsible for speaking out against wrong Seeing that if a situation isn't directly affecting a person then it seems to not be important to help change it I am compelled to often write about the common things in life that effects every human yet for some reason or another no one wants to address Life is about growth not living in denial about what can be made right Everyone in this life deserves a chance to have joy peace and happiness without others pressing their ways upon them I believe that we are our worst enemies and until we come to the realization that most of our suffering in life comes from ourselves and we have the power within ourselves to change that Then and only then will this world be the place it was intended to be I encourage all who read this book to be encouraged and know that there is nothing in this world you can't overcome Just believe in yourself and never give up

**A Clarion Call** William Oliver, 2012-07 An unidentified virus is decimating the world A highly ranked government scientist who had previously warned against such a potential peril is quick to recognize its virulence and the devastation it could cause He convinces the president of the US to isolate all units of the Navy currently at sea and urgently transfer equipment and scientists to these vessels to commence development of a cure The world is rapidly succumbing to the pandemic except for one city the most isolated capital city in the world where early advice enabled the government to close down all transport links rail road air and sea This effectively quarantined the population though not without some necessary harsh actions Aware that this city could not maintain its uninfected status without armed forces assistance the US navy ships are ordered there immediately and placed under command of its government This decision benefits the US fleet as they could not remain at sea for the duration required to develop a cure so this secure land base was vital if mankind was to have a future Quick responses from the UK and France allowed some of their ships to set sail before they too were decimated Although there are problems with their vessels they too join the US ships and place themselves under command of the local government The search for a cure is not the only priority as many isolated communities around the world have made contact with the city seeking urgent assistance Helping these people was of vital importance if mankind was to be saved But anarchy reigned where survivors with a natural immunity to the virus had reverted to a dark ages mentality at an alarmingly rapid rate gangs roamed the streets taking what they wanted and raiding communities that had managed to isolate themselves

from the plague Realising that when and if a cure is found this city will be the most powerful force left in the world the politics of the future must be decided Meanwhile at city offices the Premier of the state is desperately organizing an authority that supersedes all previous levels of government to overcome the bureaucratic quagmire that has arisen Actions must be rapidly approved and carried out in this time of crisis so that end and based mainly on a strong sense of perception he appoints an unusual young man to this senior position *Alarm Call (Oz Blackstone series, Book 8)* Quintin
