

The background of the image shows a sequence of human evolution from left to right: a crouching ape-like figure, an upright hominid, a modern woman, a modern man holding a spear, and a modern man holding a tablet. They are silhouetted against a dramatic sunset sky with orange, yellow, and blue clouds. The ocean is visible at the bottom.

## Sayings Of The Ancestors:

Christian ethics and wise sayings, by a presbyter of the Church of England Christian ethics,1883      Breath of Our Ancestors ,2013      Proverbial and Popular Sayings of the Ancestors of the New Zealand Race Sir George Grey,1857      A Decolonial Philosophy of Indigenous Colombia Juan Alejandro Chindoy Chindoy,2020-09-29 Philosophically addressing three fundamental aspects of the Kam nt an indigenous culture located in southwest Colombia this book is an investigation of how a native culture creates meaning Time beauty and spirit are key philosophical experiences within the Kam nt culture which should be interpreted both as constituting and as constituted symbols because of their historicity and actuality and their potential power of transformation The book addresses these living symbols that take hold of the past but whose significance goes beyond their antiquity through the traditions of storytelling and dance ritual healing and ceremony as well as the fraught political histories of colonialism and the ownership of the land The author raised within Kam nt culture weaves personal experience with philosophical insights and significance of the Kamentsa culture presented through its own frameworks and narratives The philosophical dimensions of Kamentsa culture are articulated and contextualized within a legacy of colonial domination by long term Spanish and Catholic rule that enacts the necessary separation of Kamentsa ideas from their representations through Catholic hermeneutic approaches However the book also embraces intercultural philosophical engagement as the methodological approach is formed partly through some modern and contemporary Western thinkers as well as indigenous writers and figures like Carlos Tamabioy and N Scott Momaday      **Ethics and Time** Nimi Wariboko,2010-10-14 Ethics and Time attempts to locate ethical thinking within the response to the questions raised by temporal orientation Time is the matrix and Moloch of social life and for the purpose of this book the starting point for ethical reflection Nimi Wariboko boldly attempts to reconceptualize temporal orientation and begin a new discussion of time and ethics using the creative synthesis of ethology political philosophy sociological and intercultural perspectives Most academic discourse contextualizes temporal orientation in terms of either times of origin and time preference Wariboko identifies a third option developing the theory and methodology that render it an object of ethical analysis and liberatory thought He suggests that temporal orientation is the production of new temporalities that allow humans to manifest their potentialities and creatively resist obstacles that impede their thriving Wariboko liberates the notion and habit of temporal orientation from excessive concern with conservatism and utilitarianism showing how ethicists can use the theory of temporal orientation to question all present temporal conditions in the name of freedom      *Treasury of the True Dharma Eye* Dōgen,2025-02-28 This publication represents an English rendering of one of the great classics of Japanese Buddhism the Shōbōgenzō by Dōgen 1200-1253 founder of the Sōtō Zen school The translation was produced by the Sōtō Zen Text Project a team of scholars working under the auspices of the Administrative Headquarters of Sōtō Zen Buddhism It is based on the Japanese edition of the Shōbōgenzō in Kawamura Kōdō's Dōgen zenji zenshō volumes 1-2 which provides what are thought to be the most

authoritative compilations of Dogen's Shōbōgenzō essays in seventy-five and twelve chapters supplemented by sixteen additional texts. The translations in seven volumes are aimed at both professional and lay audiences. They are accompanied by the Japanese texts and by extensive annotation on the language, literary sources and interpretations of those texts. An eighth volume provides a lengthy study of the history and contents of the Shōbōgenzō, supplementary notes to the translation and an extensive bibliography of primary and secondary works.

**Sayings of the ancestors about law and justice**, *Mud and Water* Bassui Tokushō, 2013-02-08. The fourteenth-century Zen master Bassui was recognized as one of the most important Zen teachers of his time. Accessible and eloquent, these teachings cut to the heart of the great matter of Zen, pointing directly to the importance of seeing our own original nature and recognizing it as Buddhahood itself. Bassui is taking familiar concepts in Buddhism and recasting them in an essential Zen light. Though he lived centuries ago in a culture vastly different from our own, Zen Master Bassui speaks with a voice that spans time and space to address our own modern challenges in our lives and spiritual practice. Like the revered Master Dogen several generations before him, Bassui was dissatisfied with what passed for Zen training and taught a radically reenergized form of Zen emphasizing deep and direct penetration into one's own true nature. And also like Dogen, Bassui uses powerful and often poetic language to take familiar Buddhist concepts, recast them in a radically non-dual Zen light, making ancient doctrines vividly relevant. This edition of *Mud and Water* contains several teachings never before translated.

**Maori Oral Tradition** Jane McRae, 2017-03-20. Maori oral tradition is the rich poetic record of the past handed down by voice over generations through whakapapa, whakatauki, korero and waiata. In genealogies and sayings, histories, stories and songs, Maori tell of te ao tawhito or the old world, the gods, the migration of the Polynesian ancestors from Hawaiki and life here in Aotearoa. A voice from the past, today this remarkable record underpins the speeches, songs and prayers performed on marae and the teaching of tribal genealogies and histories. Indeed, the oral tradition underpins Maori culture itself. This book introduces readers to the distinctive oral style and language of the traditional compositions, acknowledges the skills of the composers of old and explores the meaning of their striking imagery and figurative language. And it shows how nga korero, tuku iho, the inherited words, can be a deep well of knowledge about the way of life, wisdom and thinking of the Maori ancestors.

**The Greeks and the New** Armand D'Angour, 2011-09-15. The Greeks have long been regarded as innovators across a wide range of fields in literature, culture, philosophy, politics and science. However, little attention has been paid to how they thought and felt about novelty and innovation itself and to relating this to the forces of traditionalism and conservatism which were also present across all the various societies within ancient Greece. What inspired the Greeks to embark on their unique and enduring innovations? How did they think and feel about the new? This book represents the first serious attempt to address these issues and deals with the phenomenon across all periods and areas of classical Greek history and thought. Each chapter concentrates on a different area of culture or thought, while the book as a whole argues that much of the impulse towards innovation came from the life of the polis, which provided its
