Brottman, 2010-10-07 A systematic approach to mastering the entire range of the saxophone through major and minor scales and arpeggios Rather than focusing on the middle of the saxophone range and a limited number of key signatures the goal here is to teach students to read in all key signatures including enharmonic keys and to play comfortably in the extreme registers This book offers exercises that focus in these specific problem areas It begins with one octave scales and arpeggios followed by preparatory studies for the full range This preparation is achieved through exercises extending upward and downward from the middle range with scales finally played full range Each scale or arpeggio exercise is stated in order of increasing sharps or flats ultimately addressing all major and minor keys Report forms for each exercise and key including metronome markings are provided so students can evaluate their progress Treasury of Scales for Band and Orchestra

Leonard B. Smith, 1999-11-17 The Treasury of Scales includes all major and minor scales in harmonized form 96 total Scales are harmonized in SATB format The harmony and tempo conditions give the conductor material to teach tone balance and intonation It's easy to use because so many of the instruments are playing the exact same lines Treasury of Scales should be in every band folder as a permanent part of the repertoire and used daily as a warm up exercise **Scales for Soprano**
