State's Joe Paterno to Ohio State's Jim Tressel we have come to learn that some of the most lauded coaches don't always live up to their saintly reputations. Perhaps no era of college football was ever more emblematic of this than the early 1900s, a time when coaches worked the system with merciless flair to recruit the best players and then keep them eligible to play even while other coaches were trying to steal already enrolled players from rival universities. Amos Alonzo Stagg of the University of Chicago and Fielding H. Yost of the University of Michigan were no exception, and their bitter rivalry is one for the ages. In *Stagg vs Yost: The Birth of Cutthroat Football*, John Kryk brings to life a story that is both timeless and familiar to all football fans; indeed, to all sports fans, one man's obsession to end the pain of a long losing streak to a hated rival. This is the story of how Amos Alonzo Stagg covertly punted many of the principles he espoused in order to dismantle one of the most powerful machines the game has known: Fielding Yost's Michigan Wolverines. Kryk reveals the extent to which Stagg schemed to achieve victory against the Point-a-Minute Wolverines and the lengths Yost went to prevent that from happening. In addition, this book provides insight into college athletics corruption as a whole during this time, from under-the-table payments to recruits to contracted loans from wealthy boosters and why the current NCAA rulebook contains page after page of recruiting and eligibility regulations. Featuring never-before-published internal correspondences of UM athletic leaders, Stagg's surviving letters and notes, and reports from newspapers of the day, *Stagg vs Yost* brings fresh insight into two legends of college football who would do almost anything to win. This book is a noteworthy and fascinating narrative for football fans, historians, and anyone interested in seeing where cutthroat college recruiting and coaching all began.

*Women and Ceramics* Moira Vincentelli, 2000 This pioneering collection of essays deals with the topic of how Irish literature responds to the presence of non-Irish immigrants in Celtic Tiger and post-Celtic Tiger Ireland. The book assembles an international group of 18 leading and prestigious academics in the field of Irish studies from both sides of the Atlantic, including Declan Kiberd, Anne Fogarty, and Maureen T. Reddy, amongst others. Key areas of discussion are what does it mean to be multicultural and what are the implications of this condition for contemporary Irish writers? How has literature in Ireland responded to inward migration? Have Irish writers reflected in their work either explicitly or implicitly the existence of migrant communities in Ireland? If so, are elements of Irish traditional culture and community maintained or transformed? What is the social and political efficacy of these intercultural artistic visions? Writers discussed include Hugo Hamilton, Roddy Doyle, Colum McCann, N. Dhuibhne, Dermot Bolger, Chris Binchy, Michael O'Loughlin, Emer Martin, and Kate O'Riordan.

**Art Market Research** Tom McNulty, 2013-12-27 This book is for art market researchers at all levels. A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues: auction, commercial gallery, etc. Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research.
