They look at how different countries negotiated and promoted Nordic branding and ideology and offer new perspectives on design in relation to sustainability, changing economies and indigenous traditions. A range of leading international scholars evaluate the popularity of Nordic style in Soviet material culture, the influence on jewellery design in post-war Britain, the impact of national design conferences, exhibitions and education in Europe, the USA, Canada and Japan. Drawing from a wealth of archival material and interviews with designers, makers and other stakeholders, this book reveals a lesser-known history of cross-cultural collaborations, exhibition production and tensions between mainstream and indigenous design in Scandinavia. *Transnational Discourses in Nordic Design* also provides an insight into some of the authors' own design practices and reveals the challenges facing Nordic designers today.
