Scandinavian Reformation From Evangelical Movement To Institutionalisation Of Reform:

The Scandinavian Reformation Ole Peter Grell, 1995 When Martin Luther's protest began making an impact in Scandinavia in the 1520s this region belonged to the religious and political periphery of Europe A century later the Nordic countries had become of paramount importance to European Protestantism and it was the intervention of Lutheran Scandinavia in the Thirty Years War which helped secure the survival of European Protestantism This volume describes how the Nordic countries came to be solidly Lutheran states by the early seventeenth century how the evangelical movements differed and succeeded and the different pace of reform and its institutionalisation It offers a revisionist view of the role of the Catholic Church in Scandinavia and its attempts to halt the reformation and demonstrates the difficulties facing the new Lutheran churches trying to convert a conservative peasant population to Protestantism The Cambridge History of Scandinavia: Volume 2, 1520–1870 E. I. Kouri, Jens E. Olesen, 2016-03-24 Volume 2 of The Cambridge History of Scandinavia provides a comprehensive and authoritative account of the Scandinavian countries from the close of the Middle Ages through to the formation of the nation states in the mid nineteenth century Beginning in 1520 the opening chapters of the volume discuss the reformation of the Nordic states and the enormous impact this had on the social structures cultural identities and traditions of individual countries With contributions from 38 leading historians the book charts the major developments that unfolded within this crucial period of Scandinavian history Chapters address topics such as material growth and the centralisation of power in the sixteenth and seventeenth centuries as well as the evolution of trade foreign policy and client states in the eighteenth century Volume 2 concludes by discussing the new economic and social orders of the nineteenth century in connection with the emergence of the nation states *The Oxford Handbook of the Protestant Reformations* Ulinka Rublack, 2017 This Handbook takes a broad overview of the Protestant Reformations seeing them as movements which stretched far beyond their European beginnings Written by a team of international scholars of history and theology the contributions offer up to date perspectives on Reformation ideas and the lasting historical impact of Protestantism

Preachers and People in the Reformations and Early Modern Period Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all encompassing study of preaching in the Reformations and early modern period in Europe They do however provide new insights on Catholic Lutheran and Reformed preaching in Western and Central Europe Part One examines changes in sermon structure style and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations

Lutheran homiletic theory is traced from Luther and through Melanchthon the intention of the sermon being to transform the worship service based on exegesis of Scripture In Reformed worship the expository sermon often given on a daily basis with a continuing exegesis was designed to communicate the tenets of the faith in terms that the laity could understand plain style Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked in Italy where preaching became a collective and home grown product in early modern Germany where the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country

Renaissance Education Between Religion and Politics Paul F. Grendler, 2024-10-28 Few eras took education so seriously or were so innovative in their approaches to schools and universities as the Renaissance At the same time religious and political concerns strongly influenced educational developments This third volume of articles by Paul F Grendler explores the close connections between education religion and politics at several levels and in different contexts It combines detailed research into various kinds of schools with broad overviews of European and especially Italian education The lead article compares Italian and German universities and assesses the impact of the Protestant Reformation on the latter Even Erasmus the great critic of university theologians felt the need to acquire a doctorate in theology and did so In Italy the new schools of the Jesuits and the Piarists taught boys and young men gratis but not without opposition Two articles deal with students the consumers of education While teachers and students were most directly involved in schools and universities ecclesiastical and political authorities including the leaders of the Republic of Venice the subject of the final study kept a watchful eye on them

Sixteenth-Century Mission Robert L. Gallagher, Edward L. Smither, 2021-04-07 Did the Reformers lack a vision for missions In *Sixteenth Century Mission* a diverse cast of contributors explores the wide reaching practice and theology of mission during this era Rather than a century bereft of cross cultural outreach we find both Reformers and Roman Catholics preaching the gospel and establishing the church in all the world This overlooked yet rich history reveals themes and insights relevant to the practice of mission today

The Literature and History of Anglo-Dutch Relations, Medieval to Modern Elisabeth van Houts, Ad Putter, Sjoerd Levelt, Moreed Arbabzadah, 2024-08-22 An exploration of the historical relations between English and Dutch speakers from 1050 to 1600

Crossing chronological linguistic geographical and disciplinary boundaries to show that contact between English and Dutch speakers had a profound impact on the social and cultural landscape of both England and the Low Countries Ancient Scandinavia Theron Douglas Price, 2015 *Ancient Scandinavia* provides a comprehensive overview of the archaeological history of Denmark Norway and Sweden *Reforming the North* James L. Larson, 2010-01-29 The turbulence of the Protestant Reformation marks a turning point in European history but the Scandinavian contribution to this revolution is not well known outside the Northern world *Reforming the North* focuses on twenty five years 1520-45 AD of this history during which Scandinavians terminated the medieval Union of Kalmar toppled the Catholic Church ended the commercial dominance of the German Hanse and laid the foundations for centralized states on the ruins of old institutions and organizations This book traces the chaotic and often violent transfer of resources and authority from the decentralized structures of medieval societies to the early modern states and their territorial churches Religious reform is regarded as an essential element in the process in the context of social unrest political conflict and long term changes in finance trade and warfare *Reforming the North* offers a broad perspective on this turbulent period and on the implications of the Protestant Reformation for Northern history **Lutheran Churches in Early Modern Europe** Andrew Spicer, 2016-12-05 Until recently the impact of the Lutheran Reformation has been largely regarded in political and socio economic terms yet for most people it was not the abstract theological debates that had the greatest impact upon their lives but what they saw in their parish churches every Sunday This collection of essays provides a coherent and interdisciplinary investigation of the impact that the Lutheran Reformation had on the appearance architecture and arrangement of early modern churches Drawing upon recent research being undertaken by leading art historians and historians on Lutheran places of worship the volume emphasises often surprising levels of continuity reflecting the survival of Catholic fixtures fittings and altarpieces and exploring how these could be remodelled in order to conform with the tenets of Lutheran belief The volume not only addresses Lutheran art but also the way in which the architecture of their churches reflected the importance of preaching and the administration of the sacraments Furthermore the collection is committed to extending these discussions beyond a purely German context and to look at churches not only within the Holy Roman Empire but also in Scandinavia the Baltic States as well as towns dominated by Saxon communities in areas such as in Hungary and Transylvania By focusing on ecclesiastical material culture the collection helps to place the art and architecture of Lutheran places of worship into the historical political and theological context of early modern Europe **Preparing for Death, Remembering the Dead** Tarald Rasmussen, Jon Øygarden Flæten, 2015-04-22 Death and dying were not in the main focus of the denominational conflicts of the 16th century However pious literature covered these topics again and again not only before the Reformation but after it as well Here certain denominational differences are clearly visible Partly these differences consist in the use of genres For example funeral sermons are an often used genre among Lutherans while they are much rarer in the Reformed

tradition Similar differences can be observed concerning epitaphs In Roman Catholic areas funeral sermons and epitaphs are common in the 16th century too but their religious function is often a different from the one in Lutheranism Beyond such interdenominational differences there are also interesting continuities and connections which the contributors of the volume analyze For example there is a certain continuity between 16th century Lutheran funeral sermons and the late medieval tradition of ars moriendi The volume contains papers presented at the Second RefoRC Conference in Oslo in 2012 and is characterized by a multiconfessional and multidisciplinary approach with contributions from Church History Art History Archaeology History of Literature and Cultural History Within a field of research dominated by specialized contributions e g on ars moriendi traditions or on specific traditions of funeral monuments and funeral sermons the broad approach of this volume may further stimulate to comparative and cross confessional reflection

Religious Plurality at Princely Courts Benjamin Marschke, Daniel Riches, Alexander Schunka, Sara Smart, 2024-04-01 Early modern European monarchies legitimized their rule through dynasty and religion and ideally the divine right of the ruler corresponded with the confession of the territory It has thus been assumed that at princely courts only a single confession was present However the reality of the confessional circumstances at court commonly involved more than one faith Religious Plurality at Princely Courts explores the reverberations of biconfessional or multiconfessional intra Christian situations at courts on dynastic symbolic diplomatic artistic and theological levels exploring interreligious dialogue religious change and confessional blending Incorporating perspectives across European studies such as domestic and international politics dynastic strategies the history of ideas women s and gender history as well as visual and material culture the contributions to this volume highlight the dynamics and implications of religious plurality at court

Reforming Finland Jason Lavery, 2017-11-13 Jason Lavery examines the Reformation in the Diocese of Turku during the reign of King Gustav Vasa r 1523 1560 This diocese covering a territory better known then and now as Finland encompassed the Swedish kingdom east of the Gulf of Bothnia The Reformation in Finland was driven by King Gustav Vasa s state building program sometimes referred to as royal reform in respect to the church as well as the spread of Lutheran theology and practice Both royal and Lutheran reform were mutually reinforcing and dependent upon one another

Medieval Monasticisms Steven Vanderputten, 2020-03-23 From the deserts of Egypt to the emergence of the great monastic orders the story of late antique and medieval monasticism in the West used to be straightforward But today we see the story as far messier less linear less unified and more historicized In the first part of this book the reader is introduced to the astonishing variety of forms and experiences of the monastic life their continuous transformation and their embedding in physical socio economic and even personal settings The second part surveys and discusses the extensive international scholarship on which the first part is built The third part a research tool rounds off the volume with a carefully representative bibliography of literature and primary sources

provides insight into how and why medicine and natural philosophy in a liberal and Melanchthonian form could continue to blossom in Scandinavia despite a growing Lutheran uniformity promoted by the State Inspired by research emanating from the Cambridge Unit for the History of Medicine here a number of young scholars such as Adam Mosley Morten Fink Jensen Signe Nipper Nielsen and Martin Kjellgren are joined with more established scholars such as Andrew Cunningham Jens Glebe M ller Terhi Kiiskinen and Ole Peter Grell to create a volume which deals with not only the major issues but also the leading personalities of the period

The A to Z of Witchcraft Michael D. Bailey, 2009-09-28 A great deal has been written about the history of witchcraft but much of what has been written is unreliable exaggerated or inaccurate This problem is especially acute in regard to modern witchcraft or Wicca and its supposed connections to historical witchcraft in medieval and early modern Europe The A to Z of Witchcraft provides a reliable reference source for both academics and general readers interested in the actual historical development of witchcraft in the western world The focus of the dictionary is on Western Europe during the late medieval and early modern periods when the specific idea of diabolical witchcraft developed and when the so called great witch hunts occurred Entries are also provided that deal with magic and witchcraft in the earlier Christian period and classical antiquity as well as with the lingering belief in witchcraft in the modern world and with the development of the modern neo pagan religion of witchcraft also known as Wicca For comparative purposes some entries have been provided that deal with aspects and systems of magic found in other parts of the world that seem to bear some relation to the idea of witchcraft as it developed in Christian Europe The regions dealt with are mainly Africa along with such New World practices as Voodoo and Santeria Entries in the dictionary cover important people in the history of witchcraft from the medieval inquisitors and early modern magistrates who developed the stereotype of the historical witch to the modern individuals who have developed the religion of Wicca Also included are legal terms and concepts important to the prosecution of the supposed crime of witchcraft and religious and theological concepts pertaining to the demonic elements that came to be associated with witchcraft as well as more popular beliefs and aspects of common folklore and mythology that became attached to the developing idea of witchcraft Geographic entries are also included discussing the scope of witch hunting in various reg
