**Scarcity** Gus Tyler,1978-03-01 *Principles of Environmental Economics and Sustainability* Ahmed Hussen,2012-11-12 Recent years have witnessed considerable consolidation between the disciplines of environmental and ecological economics at research level but until now textbooks in the area have done little to reflect this Ahmed Hussen s book is to date the only one to reconcile the two standpoints The central focus of the book will continue to be on this systematic integration of both mainstream and ecological approaches to environmental economics and an acknowledgement that enduring solutions to major contemporary environmental challenges can be obtained through studies based on a well conceived and balanced interdisciplinary approach However this third edition also contains much that is new Chiefly brand new chapters appear covering the following topics The economics of climate change The economics of biodiversity and ecosystem services Green accounting and alternative economic and social indicators of sustainability The business case for environmental sustainability An Appendix that provides a brief historical account of the development of ecological economics The result is a comprehensive introduction to the main facets of environmental and ecological economics a text that boldly refuses to put up barriers between disciplines and takes a holistic approach to vital issues This student friendly textbook contains a variety of study tools including learning points boxed features case studies revision questions and discussion questions and an Appendix that provides students with a review of basic economic principles relevant to the study of the environment and its management Written in a clear and accessible style this book will prove an excellent choice for introducing both students and academics to the world of environmental economics **Principles of Environmental Economics** Ahmed M. Hussen,2004 This text offers a systematic exposition of environmental and natural resource economics It considers a variety of real world examples to illustrate the policy relevance and implications of key economic and ecological concepts **Dictionary of Ecological Economics** Brent M. Haddad,Barry D. Solomon,2023-02-14 This comprehensive Dictionary brings together an extensive range of definitive terms in ecological economics Assembling contributions from distinguished scholars it provides an intellectual map to this evolving subject ranging from the practical to the philosophical [Journal of Economic Literature](#) ,1977 *Key to Economic Science* ,1977 **John Rawls and Environmental Justice** John Töns,2021-12-30 Using the principles of John Rawls theory of justice this book offers an alternative political vision one which describes a mode of governance that will enable communities to implement a sustainable and socially just future Rawls described a theory of justice that not only describes the sort of society in which anyone would like to live but that any society can create a society based on just institutions While philosophers have demonstrated that Rawls s theory can provide a framework for the discussion of questions of environmental justice the problem for many philosophical theories is that discussions of sustainable development open the need to address questions of ecological interdependence historical inequality in past resource use and the recognition that we cannot afford to ignore the limitations of growth These ideas do not fit in

comfortably in standard discourse about theories of justice In contrast this book frames the discussion of global justice in terms of environmental sustainability The author argues that these ideas can be used to develop a coherent political theory that reconciles cosmopolitan arguments and the non cosmopolitan or nationalist arguments concerning social and environmental justice This book will be of great interest to students and scholars of environmental philosophy and ethics moral and political philosophy global studies and sustainable development Political Economy, Neoliberalism, and the Prehistoric Economies of Latin America Ty Matejowsky, Donald C. Wood, 2012-10-24 Continues on going presentation of highly engaging anthropological research This title contains a range of broad based and localized topics economic anthropologists that explore from various critical perspectives It addresses questions of how political economy is articulated through processes of consumption production and evolution

**The Child in American Evangelicalism and the Problem of Affluence** David A. Sims, 2009-06-01 This work presents an evangelical theology of the child nurtured in the context of American evangelicalism and affluence It employs an eclectic theological critical method to produce a theological anthropology of the affluent American evangelical child AAEC through interdisciplinary evangelical engagement of American history sociology and economics Sims articulates how affluence constitutes a significant impediment to evangelical nurture of the AAEC in the discipline and instruction of the Lord Thus the problem he addresses is nurture in evangelical affluence conceived as a theological anthropological problem Nurture in the cultural matrices of the evangelical affluence generated by technological consumer capitalism in the U S impedes spiritual and moral formation of the AAEC for discipleship in the way of the cross This impediment risks disciplinary formation of the AAEC for capitalist culture cultivates delusional belief that life consists in an abundance of possessions and hinders the practice of evangelical liberation of the poor on humanity's underside The result is the AAEC's spiritual moral lack in late modernity Chapter 1 introduces the problem of the AAEC Chapters 2 and 3 provide a diachronic lens for the theological anthropology of the AAEC through critical assessment of the theological anthropologies of the child in Jonathan Edwards Horace Bushnell and Lawrence Richards Chapters 4 and 5 constitute the synchronic perspective of the AAEC Chapter 4 presents an evangelical sociology of the AAEC drawing upon William Corsaro's theory of interpretive reproductions and chapter 5 constructs an evangelical theology of the AAEC through critical interaction with John Schneider's moral theology of affluence Chapter 6 Whither the AAEC concludes with a recapitulation of the work and a forecast of possible futures for the AAEC in the twenty first century The New York Times Book Review ,1976

**Herman Daly's Economics for a Full World** Peter A. Victor, 2021-09-27 As the first biography of Professor Herman Daly this book provides an in depth account of one of the leading thinkers and most widely read writers on economics environment and sustainability Herman Daly's economics for a full world based on his

steady state economics has been widely acknowledged through numerous prestigious international awards and prizes Drawing on extensive interviews with Daly and in depth analysis of his publications and debates Peter Victor presents a unique insight into Daly s life from childhood to the present day describing his intellectual development inspirations and influence Much of the book is devoted to a comprehensive account of Daly s foundational contributions to ecological economics It describes how his insights and proposals have been received by economists and non economists and the extraordinary relevance of Daly s full world economics to solving the economic problems of today and tomorrow Innovative and timely this book will be of great interest to students scholars researchers activists and policy makers concerned with economics environment and sustainability *Marxism and Ecological Economics* Paul Burkett,2006-03-01 This book undertakes the first general assessment of ecological economics from a Marxist point of view and shows how Marxist political economy can make a substantial contribution to ecological economics The analysis is developed in terms of four basic issues 1 nature and economic value 2 the treatment of nature as capital 3 the significance of the entropy law for economic systems 4 the concept of sustainable development In each case it is shown that Marxism can help ecological economics fulfill its commitments to multi disciplinarity methodological pluralism and historical openness In this way a foundation is constructed for a substantive dialogue between Marxists and ecological economists *An Analysis of William Cronon's Nature's Metropolis* Cheryl Hudson,2017-07-28 What caused the rise of Chicago and how did the city s expansion fuel the westward movement of the American frontier and influence the type of society that evolved as a result Nature s Metropolis emerged as a result of William Cronon asking and answering those questions and the work can usefully be seen as an extended example of the critical thinking skill of problem solving in action Cronon navigates a path between the followers of Frederick Jackson Turner author of the thesis that American character was shaped by the experience of the frontier and revisionists who sought to suggest that the rugged individualism Turner depicted as a creation of life in the West was little but a fiction For Cronon the most productive question to ask was not whether or not men forged in the liberty loving furnace of the Wild West had the sort of impact on America that Turner posited but the quite different one of how capitalism and political economy had combined to drive the westward expansion of the US For Cronon individualism was scarcely even possible in a capitalist machine in which humans were little more than cogs and the needs and demands of capital not capitalists prevailed Nature s Metropolis then is a work in which the rise of Chicago is explained by generating alternative possibilities and one that uses a rigorous study of the evidence to decide between competing solutions to the problem It is also a fine work of interpretation for a large part of Cronon s argument revolves around his attempt to define exactly what is rural and what is urban and how the two interact to create a novel economic force *International Encyclopedia of Geography, 15 Volume Set* Noel Castree,Michael F. Goodchild,Audrey Kobayashi,Weidong Liu,Richard A.
