The emphasis remains firmly on demonstrating the excellence of play and its contribution to children's overall learning and development in the early years, and the role of adults in promoting inspirational, playful pedagogies. It offers new coverage on topics such as brain development, gender, babies, play, cultural diversity, and inclusion. Children as researchers, new technologies, outdoor play, and international dimensions. Key features include: A chapter overview giving a brief outline of aims and purpose. Lively and meaningful cameos to help bring the themes and issues to life. Content drawing on the cameos to help link research, theory, and practice. Reflective questions to raise awareness of and reflection on the issues raised. Useful websites and further reading. This is a must-read book for all students studying early childhood at a range of levels and practitioners who are looking to deepen their understanding of play and playful practices. Janet Moyles's *The Excellence of Play* has become a cornerstone of Early Childhood Education and Care. Please, please, someone make this book compulsory reading for MPs and policy wonks. Tricia David, Emeritus Professor, Canterbury Christ Church University. *The Excellence of Play* is now in its 4th edition, and this is testimony to how thought-provoking an edited collection it continues to be. This much anticipated new edition does not disappoint. In summary, this book is a valuable contribution to the field of Early Childhood Studies and should be considered essential reading for students and practitioners alike. Dr Deborah Albon, London Metropolitan University. This new edition of a classic text offers encouragement as well as information to all working with young children and their families. It provides grounded evidence for the importance of play, spelling out the complex but crucial contribution it makes to self-regulation, motivation, and well-being, which are under threat in current conditions. Readers will be equipped to affirm and disseminate the importance of ensuring that future generations benefit from meaningful play. Wendy Scott, President TACTYC. The book's contributors do justice to the delights, complexities, puzzles, and imponderables of play and make a powerful case against the undue schoolification of childhood and for the playification of schooling. Colin Richards, HMI, retired, Emeritus Professor of Education, University of Cumbria.
